U.S. Government Books ,1987 *Memoirs of the Life of William Wirt, Attorney General of the United States* John Pendleton Kennedy,1849 Navy Medicine ,1995 **Discovering Cat Island** John Cuevas,2018-03-16 Cat Island just off the Mississippi Gulf Coast shoreline has been home to some of the most dramatic events and remarkable stories in the nation's history While some of these stories are fact others are colorful fables passed down through the ages with such conviction they have become true in the hearts and minds of many Between fact and fiction is the undeniable reality Cat Island is one of the most historically significant landmarks on the Mississippi Gulf Coast Featuring over 160 black and white photographs by Jason Taylor and a foreword by Mississippi's Secretary of State Delbert Hosemann John Cuevas's *Discovering Cat Island* guides readers through Cat Island with stories and histories of twenty nine sites both real and imagined of the legendary barrier island Originally owned by the Cuevas family as part of a Spanish land grant to Juan de Cuevas in 1781 Cat Island boasts a colorful history that includes events related to the notorious pirate Jean Lafitte and the outlaw James Copeland both of whom were thought to have buried their stolen treasure somewhere on the island the Battle of New Orleans and the War of 1812 The island served as one of the staging areas for the Seminole forced to abandon their homes and take part in the Trail of Tears In the twentieth century the island was a convenient transfer point for gangsters and local bootleggers shipping booze during Prohibition before becoming a US military training camp site during World War II In 1988 Cat Island became the location of the first oil drilling ever in the Mississippi Sound and in 2010 was one of the islands devastated by the BP Deepwater Horizon oil spill Uniform Trade List Circular Howard Challen,1866 **Publishers' Weekly** ,1905

History of Alaska , Volume II Jonathan M. Nielson, Ph.D.,2018-03-01 The most significant military development to touch Alaska during the interwar years was the advent of air power an innovation that completely altered Alaska's strategic position Suddenly the world became smaller as areas once thought safely distant from potential enemies became vulnerable Nowhere was this more evident than in the Pacific whose countless islands became potential advanced air bases As air technology improved the ability of long range bombers and by the 1930s of carrier aircraft to penetrate American airspace was a development of far reaching significance While such warnings were largely limited to a handful of air power advocates their vocal advocacy constituted nothing less than an insurrection a revolution in military thinking fought against entrenched military conservatism cultural aversion to change fears of budget cuts and War Department lethargy Indeed it was the air power crusader General Billy Mitchell who aggressively fought to convince the War and Navy Departments to embrace the new doctrine of offensive air power Mitchell came to understand Alaska's strategic importance early on Consequently he saw the Aleutians as a vulnerability if left unguarded Japan could creep up and by establishing air dominance take Alaska and Canada's West Coast But he also saw Alaska as a strategic base from which American planes could reduce Tokyo to powder Prophetically in 1923 Mitchell forecast precisely the military threat and strategic arguments that would shape military

thinking almost twenty years later I am thinking of Alaska In an air war if we were unprepared Japan could take it away from us first by dominating the sky and creeping up the Aleutians By the mid to late 1930s military and civilian advocates of air power and more visionary strategists were beginning to make their voices heard in Congress and elsewhere decrying Alaska s military vulnerability Between 1933 and 1944 no one was more adamant than Alaska s Delegate in Congress Anthony Joseph Tony Dimond who challenged the nation to defend itself by defending Alaska To Dimond it seemed poor strategy to fortify one pacific base Hawaii while ignoring another Alaska Dimond s campaign was strengthened by passage of the Wilcox Bill sponsored by Representative J Mark Wilcox D Florida officially known as the National Air Defense Act This truly significant legislation authorized the location and construction of military airfields throughout the United States as a general defense preparedness measure Alaska was recognized as one of the nation s six strategic regions and two bases one at Anchorage the other at Fairbanks were recommended in part because Alaska was closer to Japan than it is to the center of the continental United States Fortuitously for Alaska defense advocates General Douglas MacArthur stepped down as Chief of Staff of the Army and was replaced by Major General Malin Craig in October 1935 Craig and Brigadier General Stanley D Embick advocated a substantial reconfiguration of Plan Orange arguing that the Philippines presented an invitation to attack and should be neutralized in favor defending the Alaska Hawaii Panama Triangle Both the Army and Navy were charged with defending Alaska as far west as Dutch Harbor and the army pledged to mobilize 6 600 troops in Alaska within a month of attack by Japan In contemplating the defense of Alaska the Army General Staff formulated five priority objectives first increase the Alaska garrison second establish a major base for Army operations near Anchorage third develop a network of air bases within Alaska fourth garrison these bases with combat troops and fifth protect the naval installations at Sitka Kodiak and Dutch Harbor Alaska was about to go to war **The Publishers Weekly** ,1917 **International Book News** ,1928 Federal Probation ,2002
