Ufos And Government A Historical Inquiry:

UFOs and Government Michael D. Swords, 2012 Governments around the world have had to deal with the UFO phenomenon for a good part of a century How and why they did so is the subject of *UFOs and Government* a history that for the first time tells the story from the perspective of the governments themselves It s a perspective that reveals a great deal about what we citizens have seen and puzzled over from the outside for so many years The story which is unmasked by the governments own documents explains much that is new or at least not commonly known about the seriousness with which the military and intelligence communities approached the UFO problem internally Those approaches were not taken lightly In fact they were considered matters of national security At the same time the story reveals how a subject with such apparent depth of experience and interest became treated as if it were a triviality And it explains why one government the United States government deemed it wise and perhaps even necessary to treat it so Though the book focuses primarily on the U S government s response to the UFO phenomenon also included is the treatment of the subject by the governments of Sweden Australia France Spain and other countries This large format fully illustrated book is the result of a team effort that called itself The UFO History Group a collection of veteran UFO historians and researchers who spent more than four years researching consulting writing and editing to present a work of historical scholarship on government response to the UFO phenomenon Michael Swords was the primary author of the United States chapters The work was coordinated and edited by Robert Powell Clas Svahn Vicente Juan Ballester Olmos Bill Chalker and Robert Powell contributed country chapters Jan Aldrich was the primary content consultant with additional content consultation and writing coming from Barry Greenwood and Richard Thieme Steve Purcell was the primary photo illustration editor From the foreword by Jerome Clark While *UFOs and Government* revisits an often unhappy history the reading of it is far from an unhappy experience The authors eloquent intelligent sophisticated and conscientious provide us with the first credible comprehensive overview of official UFO history in many years Most of the current volume deals with U S military and intelligence responses to the UFO phenomenon but it also features richly informative chapters that expand the story across the international arena If you re looking for an example of a nation that dealt productively with the UFO reports that came its official way you will take heart in the chapter on the French projects From here on every responsible treatment of UFOs and government will have to cite *UFOs and Government* prominently among its sources this is the real story as accurately as it can be reconstructed in the second decade of the new century I expect to keep my copy close at hand and to return to it often While it cannot be said of many books UFO themed or otherwise this is among the essential ones Stray from it at your peril

UFOs Robert Powell, 2024-04-02 Robert Powell a founding Board member of the Scientific Coalition for UAP Studies has studied the UFO subject for 17 years His work is encapsulated in *UFOs A Scientist Explains What We Know And Don t Know* which provides a scientific rationale for the reality of non terrestrial craft that are intelligently controlled Powell begins his book by familiarizing the reader with the history of UFOs and he identifies the more enigmatic and interesting UFO sightings He examines the characteristics of these sightings that argue against a prosaic explanation extreme acceleration electromagnetic interference bending light no obvious propulsion mechanisms and a lack of interaction with the atmosphere Powell discusses the recent events that have caused our government to change the term from UFO to UAP Included is information never before released indicating the government possesses not just two videos but

five videos from 2015 of UFOs operating in the vicinity of the USS Roosevelt nuclear aircraft carrier Powell's later chapters in the book discuss the extraterrestrial hypothesis considering the thousands of exoplanets that have been discovered in the last twenty years Powell challenges the reader to consider all the implications that must be considered if intelligent life discovers us first He looks at how we as individuals and as a society react to UFOs He documents actions taken by our military that include instances when we have fired on UFOs Powell argues that it is time for a change in the study of UFOs The phenomenon has been with us for 75 years and we have learned very little as the decades have passed The author makes the case for what needs to be done going forward The solution he proposes will require a paradigm shift

Fact, Fiction, and Flying Saucers Stanton T. Friedman, Kathleen Marden, 2016-09-19 An excellent in depth book that gets to the heart of how and why the UFO subject has been smeared ridiculed and targeted by disinformation agents Nick Redfern author of *Men in Black* There is a clear conspiracy to deny the existence of UFOs The mainstream media has misinformed us for years about UFO studies conducted by highly regarded scientists associated with some of the finest universities in the country There is significant evidence that the US government has covered up the alien presence through misinformation distortion obfuscation and ridicule Some prominent politically connected scientists have engaged in the cover up And a few professional writers have helped to successfully label any scientists who have been persuaded by the evidence and brave enough to take a stand as unscientific charlatans fanatics and kooks *Fact Fiction and Flying Saucers* examines the

wealth of archival documents that clearly demonstrate this cooperative disinformation effort and refute the false claims made by these professional scoffers Friedman and Marden set the record straight by examining politically motivated misinformation and presenting the compelling evidence that separates fact from fiction They reveal The most compelling UFO evidence including a variety of large scale scientific studies The current state of UFOlogy and what the future holds The media s role in disclosure and denial The government scientists whose job it is to deny The Air Force FBI CIA and NSA s involvement

The Reliable Field Guide To UFO Science, Media And Data Sources Stephen J. Dirac, 2022-07-29 What makes this UFO book different The Reliable Field Guide to UFO Science Media and Data Sources contains an incredible amount of research and source material including What Proof Is Out there The Various Hypotheses and Phenomena Relevant People Science Experts Programs and Projects Research Organizations Archives Databases and Government Reports 20th To Early 21st Century Researchers Authors and Documentarians Remember if you have been searching for an organized and holistic collection of data on this fascinating and divisive subject The Reliable Field Guide to UFO Science Media and Data Sources is the book you ve been searching for Not another UFO Book This book is a complete and comprehensive 548 pages of solid resources and knowledge not just on the subject of UFO s but also a deep dive into the various branches and related concepts such as the Starseed Hypothesis the Sasquatch Bigfoot Phenomenon the Crop Circle Hypothesis the Men In Black Hypothesis and many more Is the TRUTH really out there Exceptional claims require exceptional proofs however and the concept of Unidentified Flying Objects is no longer purely in the realms of science fiction fantasy Recently with the latest improvements in image capturing and analytical technology and the proliferation of media and data sources we have acquired fantastic amounts of knowledge about the universe but still do not know how much more there is to be discovered As J B S Haldane once said The universe is not only stranger than we imagine it is stranger than we can imagine It is only natural that an intelligent and inquisitive mind fascinated by anomalous experiences should eventually turn its attention to the UFO mystery Whatever your position on UFO s from total believer to a complete skeptic it s always better to arm yourself with the most up to date information on what we currently know what we think we know and the people and personalities behind the theories and explanations of the various phenomena The Reliable Field Guide to UFO Science Media and Data Sources recognizes that the concept of UFO must also incorporate the possibilities of a wider spectrum of Unidentified Anomalous Phenomena UAP and explores these concepts and ideas thoroughly This book takes a wide holistic view of the subject and recognizes that the concept of UFO must also incorporate the possibilities of a wider spectrum of Unidentified Anomalous Phenomena UAP USO Unidentified Submerged Phenomena Psychic Phenomena Paranormal Survival of Consciousness after death Sasquatch Bigfoot Government Black Programs Conspiracies USAP Unacknowledged waived Special Access Programs Breakaway civilization Time Travel Unknown Secret Histories of Humankind Roswell and UFO Crash Retrievals Government Cover ups and Disinformation Programs Remote Viewing Ancient Cultures UFO UAP

Hypotheses The Myth and Mystery of UFOs Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings. But when a related story broke the record for hits at the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers. Why wonders Thomas Bullard don't such persistent sightings command more urgent attention from scientists, scholars, and mainstream journalists? The answer in part lies in Bullard's wide-ranging magisterial survey of the mysterious, frustrating, and ever-evolving phenomenon that refuses to go away and our collective efforts to understand it. In his trailblazing book Bullard views those efforts through the lens of mythmaking, discovering what UFO accounts tell us about ourselves, our beliefs, and the possibility of visitors from beyond. Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth. He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos. Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions, magically advanced technologies, governmental conspiracies, varieties of religious salvation, apocalyptic fears, and other paranormal experiences. Along the way Bullard investigates how UFOs have inspired books, movies, and television series, blurred the boundaries between science, science fiction, and religion, and crowded the Internet with websites and discussion groups. From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth. Enormously erudite and endlessly engaging, Bullard's study is a sky watcher's guide to the studies, stories, and debates that this elusive subject has inspired. It shows that despite all the competing interests and errors clouding the subject, there is substance beneath the clutter: a genuinely mysterious phenomenon that deserves attention as more than a myth. **Navigating**

UFO/UAP: A Comprehensive Guide to the UFO/UAP Subject and Key Information Sources - A New 2024 Edition

Timothy Clarke, 2023-12-20 This book informs and gives you a valuable analytical overview of the complex mosaic that makes up the subject where every combination is on display. As you flip through the pages, absorb the scale and sophistication of the private and governmental military and intelligence apparatus entangled in the UFO/UAP enigma. Browsing through the table of contents, you'll see a blend of an encyclopedia, history book, roadmap, and primer on the subject. It's not just a bunch of facts; it's an exploration of the current and historical sources and the intriguing hypotheses buzzing around the topic. Chapter 5, The Various Hypotheses, is a 165-page deep dive into the many possibilities and is a book within a book. This book opens a portal into the perplexing universe of Unidentified Anomalous Phenomena (UAP), promising to be your trusted guide through the intricacies of this captivating subject. As you delve into the table of contents, envision a blend of encyclopedia, history book, roadmap, and primer—an exploration designed to transcend mere facts. Chapter 5, The Various Hypotheses, delves 165 pages

deep into the myriad of possibilities a book within a book unravelling the mysterious tapestry that is the UFO UAP phenomena Chapter after chapter from the deep mysteries to the intricacies of government operations this book aims to leave no stone unturned It s an invitation to question explore and make sense of what could be the most exciting time in human history UFO FAQ David J. Hogan,2016-09-01 Since the famed Kenneth Arnold flying saucer sighting of 1947 the world has been fascinated and unnerved by these mysterious objects in the sky Millennia of recorded human history report UFOs and everything from the extinction of dinosaurs to the origins of humankind have been attributed to them but what exactly are UFOs Featuring material from a treasure trove of UFO Project Blue Book archives declassified in 2015 UFO FAQ is an all inclusive guide to UFO lore hard science and hoaxes sightings and abductions noted UFO proponents and skeptics and sanctioned research and purported government cover ups Readers will meet cultists and explore worldwide UFO hot spots They ll learn about UFOs in World War II the Cold War and the age of terrorism And they ll zip along with UFOs in movies comics TV and other popular media Also featured are an international UFO timeline and a valuable UFO checklist that includes step by step suggestions on how to prepare and make the most of your UFO sightings while ensuring your credibility Dramatically illustrated with nearly 100 photographs and drawings UFO FAQ combines historical accuracy provocative speculation and compulsive readability in one handy volume UFOs Karl Svozil,2023-08-01 Unidentified phenomena in space in the Earth s atmosphere and in waters are too important to leave their exploration to the military and scientific laypersons Their proper scientific study is important for a variety of reasons in particular scientists and the public at large need to know the basic facts to be informed about the way evidence is recorded and to understand the difference between reliable evidence and fiction as well as between plausible explanations and fantasy With this objective the book surveys the history of UFO observations the variety of recorded phenomena and recounts the efforts of investigative commissions and their published findings Although wild rumors are demystified in the process this is not an exercise in rumor bashing An open and at the same time critical mindset is the key Many narratives and hypothesis appear implausible relative to our present state of knowledge but this alone should not lead to their outright exclusion Thus the author also pays attention to UFO sightings that have so far eluded explanation in terms of known physics or meteorology Here the reader will encounter some of the more speculative but scientifically tenable proposals for example relating to sudden zigzag motion without apparent inertia or recognizable propulsion yet always with a clear guide to their plausibility Last but not least the book outlines plans and suggestions for future research capable of revealing the existence and intentions of extraterrestrial intelligences outer space engineers or technologies so far known only from science fiction
