Women In Ritual And Symbolic Roles:

Women in Ritual and Symbolic Roles Anita Spring, 2012-12-12 This volume of essays grew out of a symposium organized by Judith Hoch Smith and Anita Spring for the 1974 American Anthropological Association meetings in Mexico City. The two part symposium was entitled Women in Ritual and Symbolic Systems I Midwives Madonnas and Mediums II Prostitutes Witches and Androgynes. The symposium participants were asked to explore theological ritual and symbolic aspects both positive and negative of the feminine cultural domain using ethnographic materials with which they were familiar. The resulting papers have been revised, edited and gathered together in Women in Ritual and Symbolic Roles. The theoretical importance of these papers for the study of women's participation in culture and society rests on the assumption that religious ideas are paramount forces in social life that relationships between the sexes, the nature of female sexuality and the social and cultural roles of women are in large part defined by religious ideas. That this proposition remains valid long after religion itself has ceased to be a living truth in the lives of many people can be seen from the tenaciousness of Judeo-Christian ideas about women in the contemporary Western world. Both the expansion of life options for women and the creation of more positive cultural images of the female are intimately related to changes in the mytho-symbolic portraits that people carry around in their heads. These portraits are almost exclusively constructed from mythological and religious conceptions inherent in all facets of culture.
