Caribbean and Latinx Street Art in Miami Jana Evans Braziel, 2024-02-29 This study focuses on street art and large scale murals in metropolitan Miami Dade County while also foregrounding the diasporic and aesthetic interventions made by migrant and second generation artists whose families hail from the Caribbean and Latin America Jana Evans Braziel argues that Caribbean and Latinx street artists define and visually mark the city of Miami as a diasporic transnational urban space These artists also help define Miami as a cosmopolitan city yet one that is also a distinctly Caribbean and Latinx urban space and simultaneously resist but also at times reluctantly participate in the forces of gentrification and urban re development particularly through the myriad and complex ways in which street art contributes to city branding and art tourism The book will be of interest to scholars working in art history urban studies American studies and Latin American Caribbean studies

one of the most popular and profitable sectors of the tourism industry The modern day cruise industry dates from the 1960s when the three major cruise lines Carnival Royal Caribbean and Norwegian set up shop in Florida and began selling winter cruises to the Caribbean targeting American retirees For geopolitical reasons the US initially excluded cruises to Cuba This changed in 2016 following the historic Obama Castro agreement to move towards diplomatic trade and travel normalization Cuba quickly became the Caribbean s fastest growing cruise destination This book considers the limited economic benefits of cruise tourism its environmental and social impacts and the effects of climate change and overtourism Based on this analysis and case studies of key Caribbean and Mediterranean destinations this book cautions against overdependence on cruise tourism and outlines reforms needed to bring more benefits and equity to Caribbean countries It will be valuable to professionals businesses development agencies NGOs and academics interested in a sustainable cruise industry and the economic well being of Caribbean island nations

Culture and the Cuban State Yvon Grenier, 2017-11-08 *Culture and the Cuban State* examines the politics of culture in communist Cuba It focuses on cultural policy censorship and the political participation of artists writers and academics such as Tania Bruguera Jes s D az Rafael Hern ndez Kcho Reynier Leyva Novo Leonardo Padura and Jos Toirac The cultural field is important for the reproduction of the regime in place given its pretense and ambition to be eternally revolutionary and to lead a genuine cultural revolution Cultural actors must be mobilized and handled with care given their presumed disposition to speak their mind and to cherish their autonomy This book argues that cultural actors also seek recognition by the main for a long time the only sponsor and patron of the art in Cuba the curator state The curator state is also a gatekeeper state arbitrarily and selectively opening and closing the space for public expression and for access to foreign currencies and the global market The time when everything was either mandatory or forbidden is over in Cuba The regime seems to have learned from egregious mistakes that led to a massive exodus of artists writers and academics In a country where things change so everything could stay the same the controlled opening in the cultural field playing on the actors ambition and fear illuminates a broader phenomenon the evolving rules of the political game in the longest standing dictatorship of the hemisphere

Guns, Guerillas, and the Great Leader Benjamin R. Young, 2021-04-06 Far from always having been an isolated nation and a pariah state in the international community North Korea exercised significant influence among Third World nations during the Cold War era With one foot in the socialist Second World and the other in the anticolonial Third World North Korea occupied a unique position as both a postcolonial nation and a Soviet client state and sent advisors to assist African liberation movements trained anti imperialist guerilla fighters and completed building projects in developing countries State run media coverage of events in the Third World shaped the worldview of many North Koreans and helped them imagine a unified anti imperialist front that stretched from the boulevards of Pyongyang to the streets of the Gaza Strip and the beaches of Cuba This book tells the story of North Korea s transformation in the Third World from model developmental state to reckless terrorist nation and how Pyongyang s actions

both in the Third World and on the Korean peninsula ultimately backfired against the Kim family regime's foreign policy goals. Based on multinational and multi archival research this book examines the intersection of North Korea's domestic and foreign policies and the ways in which North Korea's developmental model appealed to the decolonizing world. Peace on Earth Edwin Jones, 2016-05-27 This book posits that it is not possible for a civilization to maintain a human and humane culture without the assistance of religion. Religion can be misused or abused into having a negative effect but an authentic religion when properly managed is the only effective source of durable common and humane values throughout society. Religion's assertion of the existence of God who alone provides the transcendent power is the only logical basis for asserting and maintaining common values for all people going far above and beyond the indiscriminate and multifarious opinions of diverse and imperfect human beings. Some people can maintain certain values derived from their own consciences but human history and psychoanalysis shows that the majority of people cannot sustain a whole culture or civilization from a purely utilitarian and materialistic basis. Human nature is imperfect and needs the help of a transcendent power to support its spiritual needs in a humane society and to create a culture or civilization that lasts. **Urban Agriculture and Community Values** Lisa Newton, 2020-03-18 This book addresses the evolving crisis in agriculture and sketches the community economy that grounds agricultural enterprise more accurately than the industrial model. In its current practice agriculture is in the United States but increasingly in the rest of the world unsustainable and destructive. The most immediately unsustainable feature of industrial agriculture is its dependence on the products of petroleum as feedstock for fertilizers herbicides and pesticides and as fuel for the farm machinery and transport of agricultural products into the cities. The problems of agriculture and in general the food systems to which it is attached range from the vulnerability of monocultures to new and stronger pests to the emerging medical problem of obesity. The need for agricultural reform is widely acknowledged one part of the new work being done suggests that food production in the cities may solve several of its problems at once. This book is suitable for both undergraduate and graduate students in agriculture and environmental studies. *Journalism, Culture and Society* Omega Douglas, Angela Phillips, 2022-11-30 Drawing upon a range of theoretical perspectives including cultural studies postcolonial theory critical race studies political economy and sociology *Journalism Culture and Society* examines journalism as a democratic necessity that often fails to live up to its promise. This text takes a step back from prevailing idealistic approaches in which theory is often seen as a threat rather than a service to the better understanding of practice and mainstream journalism in western democracies is seen as unproblematic. Instead using international examples the authors provide a critique for those who seek to improve journalistic practice whilst not losing sight of the profound practical dilemmas that journalists around the world experience in their working lives from the resources available to them to the institutions and political contexts in which they work. Readers are encouraged to consider why journalists choose or are expected to choose particular subjects or tropes in their work and the implications of these choices. *Journalism Culture and*
