Working With The Law By Raymond Holliwell:

Working with the Law Raymond Holliwell, 1985-01-03 Science has defined a variety of natural laws that explain the physical world and how it changes. One such law states that for every action there is a reaction and that for every motion there is corresponding counter motion. Whether it is visible to the human eye or not, one thing is certain: movement and change will occur as a result. Having studied these principles, author Raymond Holliwell not only understood the universal physical applications, he also understood the spiritual and mental applications as well. By using this law on a spiritual and mental level, Holliwell found that a specific thought could create a desired reaction in his personal and professional life through continual and dedicated practice. As he came to realize the expanded potential of this powerful law, he eventually recognized the ultimate source of the dramatic results: God.
