The Fight for Iran Ilan Berman,2020-10-20 Today more than four decades after its founding the Islamic Republic of Iran is arguably at the weakest point in its history At home deteriorating domestic conditions a profoundly disaffected population and an increasingly unpopular official ideology have helped to galvanize opposition to the country s ruling clerical regime Meanwhile mounting economic and political pressure from the United States have taken aim at the country s economy and its malign regional behavior The end result of this confluence of forces could very well be a new political upheaval within the country The Fight for Iran is an in depth look at that potential for change as well as at the beliefs ideas and values of the different factions that now exist within the Iranian opposition It represents a chronicle of what forty one years after the Ayatollah Ruhollah Khomeini s Islamic Revolution has become a profound political struggle for the soul of one of the Middle East s most important nations **The Nation** ,2006 **Asia, Inc** ,2006 **American Journal of Islamic Social Sciences 26:1** Muhammad Aziz,Shamas-Ur-Rehman Toor,M. Man and God Ahmad Nosrati, 2008-04-16 My objective in writing that has been recorded thus far has been to discover the root cause of the current conflict between western and Middle Eastern factions a confrontation which has been labeled a struggle for freedom against terrorism Such a discovery may enable us to identify a solution hopefully permanent for the seemingly futile battle we are facing In making this attempt questions have been raised Among them foremost have deceptive foreign policies of the West led to a humiliation of people of the Middle East Or has the conviction of certain radical Islamists like Al Qaeda that they must kill their adversaries driven this struggle Indeed is all that has transpired the result of one basic cause or are several factors at work in extending the bitterness of the situation Basically the exploration into answers for these questions has been to study the history and philosophy of contending forces from the standpoint of their religious principles as they are understood by the masses as well as the intellectuals A second question that we have attempted to consider is the character of God the Creator of this universe with its countless planets like that of a king or of a president or of a corporation CEO who attempts to maintain dominance of His Creation through the endless activities of fanatical devotees such as Hezbollah and Fedahye to sacrifice which may be considered to be backstair operatives A third

consideration If not for the gigantic oil resources of the Middle East would we be participating in this grievous present war A fourth quandary Had not Palestine been a colony of the British government following the first World War would the current nation of Israel actually exist in the present location A fifth question Is it possible for the West to enjoy the benefits of Middle Eastern oil without utilizing the oppressive techniques of colonization deceitful manipulation or war And finally a sixth query Are the foreign political strategies of the Western Powers really acceptable to its people the citizens of the USA or Europe and of the rest of the world And may I repeat In this writing there is no attempt to cast disrespect or to judge anyone or any group or country Rather this book is written with the intention of providing unbiased information to those who choose to peruse it All those of us who can find no justification in the pursuit of actions that result in the killing of innocent human beings be they military or civilian in the name of God or for the achievement of freedom and human rights will find it interesting to deal carefully with the considerations of this text as we seek to explain the net effect of our current dilemma It is in keeping with the solemnity of this quest that you are invited to share this wresting of the soul with us
