The Attributes of God and the Sovereignty of God (Double Classic) Arthur W. Pink, 2014-01-15 **Second Edition: the Attributes of God in the Monotheistic Faiths of Judeo-Christian and Islamic Traditions** Husein Khimjee Ph.D., 2018-08-08 This book is the Second Edition of the book first published in 2011 It is one of the first books of its kind in the market clearly explaining and expanding the Attributes of God in the Judeo Christian and Islamic traditions With the expansion of the book in its Second Edition it also contains discussion of Prophets and Messengers and in particular discusses the status of Abraham in all the Three monotheistic traditions The Jewish Christian and Islamic traditions This book is about God and our relationship with God What is more interesting about the Second Edition is that it expands the possibility of more research on the concept of prophethood in the family of Abrahamic faiths Further it discusses the status of Abraham according to the theology of St Paul comparing it briefly with Islam This book discusses also the status of Jesus in the Jewish and in the Islamic traditions The God who Risks John Sanders, 1998-01-01 In *The God Who Risks* theologian John Sanders enlightens pastors and lay persons who struggle with questions about suffering evil and human free will

The Works of Jonathan Edwards, Volume Two , **The Rev. C. H. Spurgeon and His Brethren, Drs. Payne and Wardlaw, President Edwards, and Others, in the Crucible; Or, the Peculiarities of Calvinism Tested** Robert PLUES, 1862 **The Violence of the Lamb** Paul Middleton, 2018-05-03 The act of martyrdom in the worldview of the Apocalypse has been considered to be an exemplification of non violent resistance Paul Middleton argues here however that it is in fact a representation of direct participation by Christians through their martyrdom in divine violence against those the author of Revelation portrays as God s enemies Middleton shows that acceptance of martyrdom is to grasp the invitation to participate in the Revelation s divine violence Martyrs follow the model laid down by the Lamb who was not only slain but resurrected glorified and who executes judgement The world created by the Apocalypse encourages readers to conquer the Beast through martyrdom but also through the experience of resurrection and being appointed judges In this role martyrs participate in the judgement of the wicked by sharing the Lamb s power to judge Different from eschewing violence the conceptual world of the Apocalypse portrays God the Lamb and the martyrs as possessing more power might and violent potential than the Emperor and his armies Middleton believes that martyrdom and violence are necessary components of the worldview of Revelation **Justification and the Kingdom of God, Volume Two** Paul Chul Hong Kang, 2025-02-11 The *Justification and Kingdom of God* series seeks to answer the question How can justified Christians in Jesus bear the fruit of faith reflecting growth in God s image To address this the series helps readers understand what happens to the image bearers of God in Adam or in Jesus Christ This reveals the deeper meaning of the gospel and the restoration of God s image uncovering hidden treasures Now the challenge is whether the reader will accept these treasures The *Kingdom of Justification* strengthens readers with the truth that eternal life becoming the children of the living God through Jesus s

perfect obedience includes the restoration of God's image in Jesus. This restoration achieved through Jesus defines human wisdom, knowledge, righteousness, holiness, and goodness in Christ as God's children. This book warns against following intellectualism and moralism in liberals which are driven by the marred image of God due to Adam's sin as guides for one's thoughts and actions. Justification by God's grace alone is the foundation of true Christian growth in Jesus, the core of a Christian's identity and the source of gratitude, joy, and peace. This book continually encourages readers: Don't give up on yourself. You are a child of God.

Life-Study of Exodus Witness Lee, 1987-12-01. In the Lord's recovery during the past five hundred years, the church's knowledge of the Lord and His truth has been continually progressing. This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries. It is filled with the revelation concerning the processed Triune God, the living Christ, the life-giving Spirit, the experience of life, and the definition and practice of the church. In this set, Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation, development, and expounding of the truths contained in the Scriptures. The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people; the second principle is that we should interpret, develop, and expound the truths contained in the Bible with Christ for the church; and the third governing principle is Christ, the Spirit, life, and the church. No other study or exposition of the New Testament conveys the life, nourishment, or ushers the reader into the divine revelation of God's holy Word according to His New Testament economy as this one does.

Death of the Church Victorious Ovid Need. *Death of the Church Victorious* traces with abundant documentation the roots and modern growth of Protestant Zionism and dispensational theology, i.e. God working in different ways in different periods of time from its roots in the late 1700s to the late 1900s. The new and unique ideas presented during that time were considered unorthodox, even heresy. But through dedication and hard work, men such as John Darby, George Muller, Hudson Taylor, and Dwight Moody changed Christianity from victory to defeat and exalted Zionism over the Gospel Church. Now non-dispensational theology is considered unorthodox. Moody's Northfield conferences, the Civil War, and the publication of Scofield's popular Reference Bible allowed Zionism and dispensationalism to become legitimate Biblical doctrines in America. If Protestants find a monk's retreat from the world wrong, is their otherworldliness any the less objectionable? Ovid Need's study of *Death of the Church Victorious: Tracing the Roots and Implications of Otherworldliness* is a work of major importance. A false spirituality and an otherworldliness of anti-Biblical characters have long plagued the Christian Church and hobbled its progress. Pastor Need analyzes those views in evangelical circles which are working against the future of the faith. His study is a summons to a Biblical faith and power. It is written with grace and insight. Its timelessness cannot be overstated. It is a joy to read and a work that the Christian community should be grateful for. R. J. Rushdoony, from the Foreword. Pastor Need brings to light dispensationalism's dire effects: pessimism instead of prevailing cowardice; isolation instead of involvement; a system offering a rapturous sneaking away at

any moment instead of encouraging the saints to subjugate and subdue the enemy until victory is obtained Dave MacPherson from the foreword This title is a direct print from an original copy

God's Wounds: Hermeneutic of the Christian Symbol of Divine Suffering, Volume Two Jeff B. Pool, 2010-01-01 This book constitutes the second volume of a three volume study of Christian testimonies to divine suffering *God's Wounds Hermeneutic of the Christian Symbol of Divine Suffering vol 2 Evil and Divine Suffering* The larger study focuses its inquiry into the testimonies to divine suffering themselves seeking to allow the voices that attest to divine suffering to speak freely then to discover and elucidate the internal logic or rationality of this family of testimonies rather than defending these attestations against the dominant claims of classical Christian theism that have historically sought to eliminate such language altogether from Christian discourse about the nature and life of God This second volume of studies proceeds on the basis of the presuppositions of this symbol those implicit attestations that provide the conditions of possibility for divine suffering that which constitutes divine vulnerability with respect to creation as identified and examined in the first volume of this project an understanding of God through the primary metaphor of love God is love and an understanding of the human as created in the image of God with a life though finite analogous to the divine life the *imago Dei* as love The second volume then investigates the first two divine wounds or modes of divine suffering to which the larger family of testimonies to divine suffering normally attest 1 divine grief suffering because of betrayal by the beloved human or human sin and 2 divine self sacrifice suffering for the beloved human in its bondage to sin or misery to establish the possibility of redemption and reconciliation Each divine wound thus constitutes a response to a creaturely occasion The suffering in each divine wound also occurs in two stages a passive stage and an active stage In divine grief God suffers because of human sin betrayal of the divine lover by the beloved human divine sorrow as the passive stage of divine grief and divine anguish as the active stage of divine grief In divine self sacrifice God suffers in response to the misery or bondage of the beloved human's infidelity divine travail focused on the divine incarnation in Jesus of Nazareth as the active stage of divine self sacrifice and divine agony focused on divine suffering in the crucifixion of Jesus of Nazareth as the passive stage of divine self sacrifice

Sovereignty and Event Calvin D. Ullrich, 2021-01-18 In this study Calvin D Ullrich argues for the political significance of the philosopher theologian John D Caputo's radical theology Against the backdrop of present debates the author traces the notions of sovereignty and event by drawing on the political theology of Carl Schmitt and Caputo's evolving engagement with postmodern thought from its genesis in Martin Heidegger to its deeply involved association with Jacques Derrida Calvin D Ullrich shows that contrary to some misleading interpretations of his religious deconstruction Caputo has always held nascent political concerns which culminate in his radical theology Writing for scholars working in contemporary philosophy and theology this book offers one of the first major in depth analyses covering Caputo's writings of the last four decades and seeks to defend their relevance for discussions responding to ongoing political theological challenges
