Howard,2024-02-19 All Americans know we are in a state of cultural crisis but how did we get to this point It has been said if we seek an actual legal date for the fall of Judeo Christian culture in America it would be June 26 2015 the day the Supreme Court ruled that homosexual marriage was a constitutionally protected right But according to William D Howard the destruction of our country started well before that when states began changing laws and incorporating changes that had lasting repercussions on the culture as a whole In *American Crisis The Collapse of Christian Culture* Howard takes an in depth look at civilizations in the past

provides insights on our current culture and warns of a future that can mean only the destruction of everything we hold dear But this book is not without hope Howard uses God's Word to show Christians how we can counter the social and political norms and fight for our country's moral political and social outlook As our moral high ground is being chipped away one corner at a time we need to take up the call to action and fight against the powers that seek our demise Preventing Chaos in the Former Soviet Union, 1992 The United States, Western Europe and the Polish Crisis H. Christopher I. Xenakis, 2002-09-30 Xenakis examines the responses of Soviet experts in American academia primarily political scientists but also economists and defense scholars who specialized in the USSR to the unfolding evidence of Soviet reform during the 1970s and 1980s and to its ultimate collapse He concludes that American Sovietologists and other political scientists were

more responsive to the Cold War consensus to the needs of the State Department Defense and CIA policy makers and to the official Washington line of the moment than to the changing face of the Soviet Union As Xenakis makes clear many of the Cold War ideas and attitudes shared by Sovietologists the notion that the USSR was an evil empire the idea that Soviet society was irredeemably xenophobic and indolent that the Soviet political and economic system could not be fixed or reformed and the view that the best way for Washington to deal with Moscow's influence was to contain the USSR through arms races global and proxy wars were reminiscent of the policies and arguments of the Truman and Eisenhower administrations not to the facts on the ground in the 1970s and 1980s An important work for scholars students and researchers involved with Soviet and Russian studies international political and military affairs intellectual history and the relationship between academia and the government

Self-management and the Crisis of Socialism Michael Wayne Howard, 2000 While some conclude from the revolutions of 1989 that socialism is dead interest in socialism continues because of persisting problems of contemporary capitalism In this exciting text Michael W Howard offers critiques of liberal communitarian postmodern and some Marxist perspectives in order to develop a left liberal defense of a model of self managed market socialism that includes a basic income for all Specific applications of his view include analyses of its implications for the global marketplace the changing nature of workplaces and media restructuring and ownership This work is sure to be of interest to social scientists public policy makers and economists as well as to feminists ecologists and others concerned with how market socialism is relevant to their social issues

The Cuban Missile Crisis Alice L. George, 2013 The chill of the nuclear age Kennedy and Khrushchev The ticking clock A world on edge Into the dark Moving ahead looking back

World Society in the Global Economic Crisis Christian Suter, Mark Herkenrath, 2012 This volume examines the considerable economic social and political consequences of the present global crisis for world society It focuses on central issues including crisis impacts on world society structures crisis perceptions and public discourses and experience of global crisis at local and regional levels
