The Romance of Race Jolie A. Sheffer, 2013-01-02 In the United States miscegenation is not merely a subject of literature and popular culture It is in many ways the foundation of contemporary imaginary community The *Romance of Race* examines the role of minority women writers and reformers in the creation of our modern American multiculturalism The national identity of the United States was transformed between 1880 and 1930 due to mass immigration imperial expansion the rise of Jim Crow and the beginning of the suffrage movement A generation of women writers and reformers particularly women of color contributed to these debates by imagining new national narratives that put minorities at the center of American identity Jane Addams Pauline Hopkins Onoto Watanna Winnifred Eaton Mar a Cristina Mena and Mourning Dove Christine Quintasket embraced the images of the United States and increasingly the world as an interracial nuclear family They also reframed public debates through narratives depicting interracial encounters as longstanding unacknowledged liaisons between white men and racialized women that produced an incestuous mixed race nation By mobilizing the sexual taboos of incest and miscegenation these women writers created political allegories of kinship and community Through their criticisms of the nation s history of exploitation and colonization they also imagined a more inclusive future As Jolie A Sheffer identifies the contemporary template for American multiculturalism in the works of turn of the century minority writers she uncovers a much more radical history than has previously been considered

The Space Between Victoria H. Smith, 2013-03-13 When Drake started the night at his father s campaign fundraiser he never imagined he d end it being conned into buying drugs on the West Side Losing high stakes poker has its consequences but he d repeatedly face them just to hear Lacey Douglas sing Drake sees Lacey light up the stage and he has to have her But his intentions for being on her side of town turn

out to be the reason he can't Chicago native Lacey has dreams of the opera but life has its obstacles Lacey has come to know her hardships as part of living in the real world and accepts them fully When Lacey meets the intense and invigorating Drake a fire is lit inside her unleashing those dreams again Two paths that should have never crossed prove to create the exact pairing the other needs But when their worlds take time to catch up everything they have is tested Finding the space between the two sides that challenge them will be hard but it's the only place that will keep them together The Space Between Series Order 1 The Space Between 2 The Dividing Line 3 Drake's Destiny ebook only Changing Urban Education Clarence Nathan Stone, 1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation's leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future **Bridging the Communication Gap Between Black and White** Alan S.
