The Spy Who Came in from the Circus Christopher Andrew, 2024-04-18 For almost half a century Bertram Mills Circus was a household name throughout Britain among both children and adults and it's Director Cyril Bertram Mills was one of the best known and most influential names in the country's entertainment business But for forty years Cyril Mills had also enjoyed a top secret and wide ranging career in British intelligence obtaining the best aerial intelligence on Nazi rearmament for MI6 before the Second World War becoming the first case officer to monitor the best double agent Garbo of the war after joining MI5 and working part time during the Cold War for MI5 or 6 or both without being paid a penny Remarkably no word of Mills's secret career appeared in public until he was over eighty Nobody suspected that the

glamorous world of pre war circus entertainment had been an extraordinarily fitting rehearsal for the lethal arena of deception and surveillance In this remarkable true story Christopher Andrew best selling official biographer of MI5 brings to life one of the most surprising and fascinating tales of espionage ever told **Fixing the Spy Machine** Arthur S. Hulnick,1999-11-30 With the end of the Cold War and the dawning of a new century the U S intelligence system faces new challenges and threats The system has suffered from penetration by foreign agents cutbacks in resources serious errors in judgment and what appears to be bad management nonetheless it remains one of the key elements of America s strategic defense Hulnick suggests that things are not as bad as they seem that America s intelligence system is reasonably well prepared to deal with the many threats to national security He examines the various functions of intelligence from intelligence gathering and espionage to the arcane fields of analysis spy catching secret operations and even the business of corporate espionage Hulnick offers a variety of ideas for making the system work better and for attracting the kinds of new intelligence professionals who will build a stronger intelligence system in the next century Fixing the Spy Machine suggests that the role of the Director of Central Intelligence the person who runs both the CIA and oversees the U S Intelligence Community should be depoliticized and made stronger It also concludes that people are responsible for making the system function not its bureaucratic structure Still intelligence managers are going to have to become less risk averse and more flexible if the system is to function at its best **Ken Follett** Carlos Ramet,1999 This study which should appeal to both the scholar and the general reader concludes with an assessment of Ken Follett s work so far and demonstrates that while he is part of a continuum he has uniquely transformed his chosen genre the thriller and has made a significant contribution to popular cultural forms BOOK JACKET Cumulative Paperback Index, 1939-1959 R. sexuality **A Spy's Journey** Floyd Paseman, 2010-11-10 In 1967 Floyd Paseman joined the Central Intelligence Agency following successful service as an army officer in Germany. He was first stationed in the Far East where he became fluent in Chinese language and culture and then in Germany at what was largely considered the agency's toughest Cold War field posting. Over the years he rose from field spy to division chief and ultimately the top ranks in the Operations Directorate of the CIA. Paseman details the behind-the-scenes intelligence gathering during the major events of eight presidential administrations from Lyndon B. Johnson through George W. Bush.

The Eagle in the Mirror Jesse Fink, 2023-08-22 Part biography, part forensic jigsaw puzzle, part cold case detective investigation. *The Eagle in the Mirror* is the story of Charles Howard Dick Ellis, the longest-serving spy for the British Secret Intelligence Service (MI6). Ellis helped set up the Office of Strategic Services (OSS), now known as the Central Intelligence Agency (CIA), and the Australian Secret Intelligence Service (ASIS). In the 1940s he was considered one of the top three secret agents in MI6 and controlled its activities as one journalist put it, for half the world. But in the 1980s, crusading espionage journalist Chapman Pincher, in the hugely successful books *Their Trade is Treachery* and *Too Secret Too Long*, and retired MI5 intelligence officer Peter Wright, in the worldwide bestseller *Spycatcher*, posthumously accused Ellis of having operated as a triple agent for Nazi Germany and the Soviet Union. In 1965, while under interrogation in London, Ellis had allegedly made a confession that he had supplied information to the Nazis before World War II. However, Pincher's and Wright's accusations against Ellis have never been comprehensively proven. No confession has materialised. Was Ellis guilty, or was an innocent man framed? By confessing, did he take the fall for someone else? Or had the intelligence agencies of the United States, the United Kingdom, and Australia been fatally compromised by a super mole? Internationally bestselling author JESSE FINK, *Pure Narco*, *Bon The Last Highway*, *The Youngs*, attempts to find out the truth, once and for all. *The Eagle in the Mirror* is not just a long overdue biography of the unheralded Dick Ellis; it's a gripping real-life international whodunit.

Night Raiders Eloise Moss, 2019-07-04 *Night Raiders* is the first history of burglary in modern Britain. Until 1968, burglary was defined in law as occurring only between the night-time hours of nine pm and six am in residential buildings. Time and space gave burglary a unique cloak of terror, since burglars' victims were likely to be in the bedroom asleep and unaware when the intruder crept in, prowling near them in the darkness. Yet fear sometimes gave way to sexual fantasy, eroticized visions of handsome young thieves sneaking around the boudoirs of beautiful lonely heiresses emerged alongside tales of violence and loss in popular culture, confounding social commentators by casting the burglar as criminal hero. *Night Raiders* charts how burglary lay historically at the heart of national debates over the meanings of home, experiences of urban life, and social inequality. The book explores intimate stories of the devastation caused by burglars' presence in the most private domains, showing how they are deeply embedded within broader histories of capitalism and liberal democracy. The fear and fascination surrounding burglary were mobilized by media, state, and market to sell insurance and security technologies whilst also popularising the crime in fiction, theatre, and film. Cat
