## **The Story Of American History For Elementary Schools:**

*The Story Of American History* Albert F. Blaisdell, 1904 Some sort of a first book on American history is now quite generally used in schools as a preparation for the more intelligent study of a larger and more formal text book in the higher grammar grades For beginners a mere compilation of facts is dry and unsatisfactory Such books have now given place for the most part to those prepared on a more attractive and judicious plan The real aim in a first book should be to interest boys and girls in the history of their country and to encourage them to cultivate a taste for further study and reading This book is intended for use in the earlier grammar grades and to be preliminary to the study of a more advanced work in the higher grades The author has also kept in mind the fact that the school life of many children is brief and that all their instruction in American history must come from a text book of this kind

**The Story of American History for Elementary Schools** Albert Franklin Blaisdell, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1900 edition Excerpt CHAPTER XV WASHINGTON AND THE REVOLUTION 197 Boyhood and Youth of George Washington DEGREES During the infancy of our nation there were many staunch and noble patriots but far above all stood and stands to day the majestic figure of George Washington He came upon the stage at just the right time to give the vigor of his manhood to the military service of his country and the maturity of his judgment to the formation of the new government and later to the presidency He was born in Virginia on February 22 1732 In those days the country was thinly settled good schools were rare and even

the rich planters did not find it easy to have their children well disciplined in learning The future president had only a plain education in reading writing and arithmetic In his childhood he showed a martial spirit While at school he was often the captain of a little military company with paper hats and wooden swords and even in their marches and sham battles the boy exhibited somewhat of the soldierly bearing and honorable character that distinguished him later in life He took an interest in study and enjoyed reading good books He wrote an excellent hand and some productions in his superior penmanship have been kept to this day showing remarkable neatness and accuracy They comprise lessons in geometry forms of business papers and even some neatly written extracts in verse He studied by himself book keeping and mathematics especially land surveying which was much needed in that new country These studies proved of great value to him in after years 198 Boyhood s Sports Washington when a lad was robust fond of athletic games running jumping and wrestling In these healthful sports he outdid his comrades He could sur
