The Stryker Brigade Combat Team Rethinking Strategic Responsiveness And Assessing Deployment Options:

The Stryker Brigade Combat Team Alan J. Vick, David T. Orletsky, Bruce R. Pirnie, Seth G. Jones, 2002-12-24 Examines alternative means to decrease the deployment time for the new Army medium weight brigade comparing air and sealift from the United States with air and fast but short range sealift from forward bases or preposition sites Historical experience and an assessment of U S regional interests are used to determine how much warning time the United States typically has before major force deployments and where it is most likely to deploy such forces

The Stryker Brigade Combat Team. Rethinking Strategic Responsiveness and Assessing Deployment Options, 2002 Historically to deter and defeat major threats in Europe and Asia the United States has relied on forward deployed Army and Air Force forces Navy and Marine Corps forces afloat long range aircraft in the continental United States CONUS prepositioned unit sets in key regions and reinforcing units from CONUS For short warning crises in other regions Marine Expeditionary Units the 82nd Airborne Division Special Operations Forces and Air Force Navy air would be combined as appropriate to provide a limited capability that has usually been sufficient for noncombat evacuations and other lesser contingencies The United States has not had the ability to deploy large joint forces globally from North America in a matter of days or weeks The transportation challenge has been simply too great Army transformation efforts seek to establish that ability turning the Army from the Legacy Force made up of well equipped heavy warfighting forces which are difficult to deploy strategically and rapidly responding light forces which lack staying power against heavy mechanized forces to first an Interim Force of Stryker Brigade Combat Teams brigade sized forces equipped with a family of current generation medium weight wheeled armored vehicles then 15 to 20 years out the Objective Force equipped with the Future Combat System FCS a medium weight tank that the Army hopes can be as survivable and lethal as the 70 ton M 1 tank

Transformation of the 2nd Brigade, 25th Infantry Division (L) to a Stryker Brigade Combat Team in Hawai'i, 2004 *Stryker Combat Vehicles* Gordon L. Rottman, 2012-09-20 The eight wheeled 8x8 Stryker combat light armored vehicle was adopted by the US Army in 2002 It needed to provide a comparatively rapidly deployable contingency force with armor protection tactical mobility and heavy firepower as well as advanced command control communications computer intelligence surveillance and reconnaissance C4ISR capabilities Covering the first new US Army release since the M1 Abrams MBT this book details the conception development and deployment of one of the most highly anticipated AFVs in modern history including its service in Iraq and the ensuing controversy surrounding the Stryker's varying successes

The George W. Bush Defense Program Stephen J. Cimbala, 2010 The events of 9 11 and the wars in Iraq and Afghanistan make an obvious case for expert study of the George W Bush defense program During the Bush administration the rise and fall of governments the fates of peoples and the very definitions of war and victory were up for discussion The United States with its unprecedented global military power at the

dawn of the twenty first century created new opportunities for using foreign policy and military strategy on behalf of national and allied interests But this power was limited and its use against unconventional or otherwise unorthodox enemies required careful calibration of its various instruments In this insightful series of essays edited by Stephen Cimbala eleven academic experts prominent in the defense and security think tank communities assess Bush s defense program Many also have past or current experience in the U S government or the American armed forces They examine Bush s defense policy and strategy across several critical issues including Iraq Afghanistan terrorism nuclear arms control and foreign military sales In addition special chapters are devoted to the leadership style of former defense secretary Donald Rumsfeld to the idea of victory as it might apply to Bush s defense decisions and to the best exit strategy from Iraq for the United States The lessons learned from the successes and failures in Bush s defense policy clearly presented in *The George W Bush Defense Program* can also be applied to the appraisal of all presidents

Maritime Power and the Law of the Sea James Kraska,2011 In *Maritime Power and the Law of the Sea Expeditionary Operations in World Politics* Commander James Kraska analyzes the evolving rules governing freedom of the seas and their impact on expeditionary operations in the littoral near shore coastal zone Coastal state practice and international law are developing in ways that restrict naval access to the littorals and associated coastal communities and inshore regions that have become the fulcrum of world geopolitics Consequently the ability of naval forces to project expeditionary power throughout semi enclosed seas exclusive economic zones EEZs and along the important sea shore interface is diminishing and as a result limiting strategic access and freedom of action where it is most needed Commander Kraska describes how control of the global commons coupled with new approaches to sea power and expeditionary force projection has given the United States and its allies the ability to assert overwhelming sea power to nearly any area of the globe But as the law of the sea gravitates away from a classic liberal order of the oceans naval forces are finding it more challenging to accomplish the spectrum of maritime missions in the coastal littorals including forward presence power projection deterrence humanitarian assistance and sea control The developing legal order of the oceans fuses diplomacy strategy and international law to directly challenge unimpeded access to coastal areas with profound implications for American grand strategy and world politics

Learning Large Lessons David E. Johnson,2007-03-30 The relative roles of U S ground and air power have shifted since the end of the Cold War At the level of major operations and campaigns the Air Force has proved capable of and committed to performing deep strike operations which the Army long had believed the Air Force could not reliably accomplish If air power can largely supplant Army systems in deep operations the implications for both joint doctrine and service capabilities would be significant To assess the shift of these roles the author of this report analyzed post Cold War conflicts in Iraq 1991 Bosnia 1995 Kosovo 1999 Afghanistan 2001 and Iraq 2003 Because joint doctrine frequently reflects a consensus view rather than a truly integrated joint perspective the author recommends that joint doctrine and the processes by which it is derived and

promulgated be overhauled The author also recommends reform for the services beyond major operations and campaigns to ensure that the United States attains its strategic objectives This revised edition includes updates and an index

Military Organizations for Homeland Defense and Smaller-Scale Contingencies Kevin D. Stringer,2006-10-30 History has often confirmed that it is not superior weapons but superior organizations that are the most effective factor in achieving military success In light of this consideration Kevin D Stringer s new work proposes how the U S military can best be restructured to conduct military operations other than war as they are known in doctrinal terms Such reform is central to meeting the demands of homeland defense and smaller scale contingencies including nation building and stability operations Foreign military formations present models for peace operations irregular warfare and other missions as well as counterterrorism law enforcement and border control The models considered drawn from tactical units in Britain Denmark Germany Israel Norway Rhodesia Russia and Switzerland are selected as best practice examples for transforming the U S Armed Forces for future missions both at home and abroad The author describes the categories of military operations other than war in the context of force structure requirements for homeland defense and irregular warfare Each chapter aligns foreign tactical organizations with these military operations to identify appropriate formations to enhance the U S Army This issue of future organizational structure is crucial to the debate over the Quadrennial Defense Review the Pentagon report to Congress on emerging threats and the future role of the National Guard Changes in existing force structure will have significant implications for the conduct of stabilization operations in Iraq and Afghanistan as well as responses by the active and Reserve components to domestic emergencies

American Wheeled Armoured Fighting Vehicles Michael Green,2016-10-31 A solid quick reference on the evolution of American wheeled AFVs and provides excellent visual information for the enthusiast and researcher War Wheels Numerous wheeled armoured fighting vehicles have seen service in the US armed forces on and off for over eighty years There have been various changes of policy and twice after the Second World War and Vietnam they went out of favour but their use is now well established This well researched and superbly illustrated book describes all the different types and variants since the first M1 was ordered in 1931 The M8 armoured car was widely used during World War Two but it was not until Vietnam that further wheeled AFVs came into service notably the M706 armoured car After a lull the US Marine Corps adopted the Light Armoured Vehicle LAV in 1983 The US Army first used armoured Humvees in 1994 and variants remain in service M1141 and M1116 Other types today include the Guardian M1117 and the Army version of the LAV names the Stryker To meet the operational requirements of Iraq and Afghanistan the Mine Resistant Ambush Protected vehicle MRAP was ordered in bulk from 2007 A must have for the military history buff this volume contains rare photographs from wartime archives Modellers will appreciate the clarity of the images for details like armour and stowage

[A Stability Police Force for the United States](#) Terrence K. Kelly,2009 Establishing security is the sine qua non of stability operations since it is a prerequisite for reconstruction and development Security requires a mix of military and

police forces to deal with a range of threats from insurgents to criminal organizations This research examines the creation of a high end police force which the authors call a Stability Police Force SPF The study considers what size force is necessary how responsive it needs to be where in the government it might be located what capabilities it should have how it could be staffed and its cost

Building a Successful Palestinian State David Gompert, Kenneth Shine, Glenn Robinson, C. Richard Neu, Jerrold Green, 2001-04-22 An examination of how an independent Palestinian state if created can be made successful The authors describe options for strengthening governance security economic development access to water health and health care and education and estimate the financial resources needed for successful development over the first decade of independence

Disruptive and Game Changing Technologies in Modern Warfare Margaret E. Kosal, 2019-09-27 This book explores and analyzes emerging innovations within today's most cutting edge science and technology S how these impact science and technology policy choices made today and predictions of how science and technology may play a beneficial or deleterious role in the future Some game changing technologies have received global attention while others may be less well known the new technologies discussed within this proposal as well as future discoveries may significantly alter military capabilities and may generate new threats against military and civilian sectors

[Insurgency and War in Nigeria](#) Akali Omeni, 2019-12-12 Boko Haram is the major threat to the Nigerian state and has emerged as a destabilizing factor across sub Saharan Africa This is now a major focus of global policy making as between 2013 and 2014 insurgency related deaths in Nigeria exceeded those in Iraq and Afghanistan This book is the first to focus on the military nature of Boko Haram the reasons for its success in those specific regions of the Chad basin it operates in and a detailed history of the Nigerian army's counter insurgency with whom uniquely the author has spent research time The book identifies and analyses the battles and skirmishes on the front line as well as unearthing a wider explanation for Boko Haram's military success and the causes of the instability in the region

Securing the MRAP James Hasik, 2021-08-16 Dwight D Eisenhower once quipped You will not find it difficult to prove that battles campaigns and even wars have been won or lost primarily because of logistics Military acquisition and procurement that is how a nation manages investments technologies programs and support is critical to wartime success or failure When unexpected battlefield problems arise how do the government the military and industry work together to ensure effective solutions During the American counterinsurgent campaign in Iraq the improvised explosive device emerged as a disruptive and devastating threat As Humvees and their occupants were ripped apart by IEDs it was clear that new solutions had to be found These solutions already existed but had not been procured highlighting the need for more effective marketing to the military by industry The ultimate successful response the mine resistant ambush protected vehicle or MRAP required years of entrepreneurial marketing by the defense industry In *Securing the MRAP Lessons Learned in Marketing and Military Procurement* James Hasik explores how these vehicles which the American military mostly rejected despite the great need for them eventually came to be adopted as the Pentagon's top procurement priority Hasik

traces the story of the MRAP from the early 1970s to the future of mine resistant vehicles on the battlefields of tomorrow An important contribution to the seemingly disparate fields of marketing and defense policy Securing the MRAP is an eye opening revelation to defense industrialists military officers and government officials who want to understand how to avoid another IED Humvee debacle

AirLandBattle21 Ellwood P. Hinman, Thomas E. Jahn, James G. Jinnette, 2009 The time has come for innovative counter air and counter land concepts focused on medium to large scale conventional combat operations that will merge air and ground forces even more effectively into a single potent fighting force Such is the focus of

AirLandBattle21 **A Shot in the Dark: A History of the U.S. Army Asymmetric Warfare Group** Paul J. Cook, 2024-05-14 This book presents the U S Army Asymmetric Warfare Group AWG as an example of successful change by the Army in wartime It argues that creating the AWG required senior leaders to create a vision differing from the Army s self conceptualization change bureaucratic processes to turn the vision into an actual unit and then place the new unit in the hands of uniquely qualified leaders to build and sustain it In doing this it considers the forces influencing change within the Army and argues the two most significant are its self conceptualization and institutional bureaucracy The work explores three major subject areas that provide historical context The first is the Army s institutional history from the early 1950s through 2001 This period begins with the Army seeking to validate its place in America s national security strategy and ends with the Army trying to chart a path into the post Cold War future The Army s history is largely one of asymmetric warfare The work thus examines several campaigns that offered lessons for subsequent wars Some lessons the Army took to heart others it ignored As the AWG was a direct outgrowth of the failures and frustrations the Army experienced in Afghanistan and Iraq the book examines these campaigns and identifies the specific problems that led senior Army leaders to create the AWG Finally the work chronicles the AWG s creation in 2006 growth and re assignment from the Army staff to a fully fledged organization subordinate to the U S Army Training and Doctrine Command in 2011 to its deactivation This action resulted not from the unit s failure to adapt to a post insurgency Army focusing on modernization Rather it resulted from the Army failing to realize that while the AWG was a product of counterinsurgency it provided the capability to support the Army during a period of great strategic and institutional uncertainty
