Kaschula,H. Ekkehard Wolff,2020-09-10 Language has played a pivotal role in societal transformation in postcolonial Africa towards the creation of globally competitive knowledge societies however so far this role has been under researched and under estimated This volume addresses this gap in the literature by bringing together a team of globally recognised scholars to explore the effect of language on African postcolonial societies and how it has contributed to achieving mental decolonisation A range of languages are explored both imported ex colonial and indigenous African and case studies from different spheres of public discourse are investigated from universities to legal settings Demonstrating that multilingualism is a resource for rather than barrier to successful transformation this book brings the intellectualisation and institutionalisation of African languages to the forefront of development discourse and provides an insightful snap shot of how current academic research public discourse political activism and social community engagement have contributed to societal transformation in South Africa

Writing the Ancestral River Jacklyn Cock,2018-03-01 *Writing the Ancestral River* is an illuminating and unusual biography of the Kowie River in the Eastern Cape This tidal river runs through the centre of what used to be called the Zuurveld a formative meeting ground of different peoples who have shaped our history Khoikhoi herders Xhosa pastoralists Dutch trekboers and

British settlers Their direct descendants continue to live in the area and interact in ways that have been decisively shaped by their shared history Besides being a social history this is also a natural history of the river and its catchment area where dinosaurs once roamed and cycads still grow As the book shows the natural world of the Kowie has felt the effects of human settlement most strikingly through the establishment of a harbour at the mouth of the river in the 19th century and the development of a marina in the late 20th century Both projects have had a decisive and deleterious impact on the Kowie People are increasingly reconnecting with nature and justice through rivers Acknowledging the past and the inter generational racialised privileges damages and denials it established and perpetuates is necessary for any shared future By focusing on this little river the book raises larger questions about colonialism capitalism development and ecology and asks us to consider the connections between social and environmental injustice
