Suarez founder and senior tactical instructor of his department's Tactical Rifle Team exposes the myths that have long kept the rifle from being considered for use in urban policing. In addition, he details the many advantages the rifle affords the inner city police officer or SWAT operator in a wide range of deployment situations and presents innovative techniques that are replacing the traditional ones among agencies that have adopted the rifle. As we progress into the 21st century, the rifle is likely to become an increasingly integral part of the police officer's tool bag. This book will serve as a valuable guide to police tactical riflemen, making their jobs easier and safer as they make the criminal's job more difficult and hazardous. *FBI Law Enforcement Bulletin*, 2005

Domestic fortress Rowland Atkinson, Sarah Blandy, 2016-11-04 Today's home is a kind of fortress that tells us as much about our need for privacy as it does about ensuring our security. Fortress homes, gated communities, and elaborate defensive systems have become everyday features of urban life, highlighting the depth of fear as well as the desire for prestige and social display and the ideological strength of home ownership. This book offers a fresh analysis of our homes, our demands for security, and anxieties about invasion, loss, and finding seclusion in a worrying and divided world. Using a rich range of sources from cutting edge research to media accounts, the book considers the fantasies and realities of dangers to the contemporary home and its inhabitants and details the extreme measures now used in the pursuit of total safety.
