The Tao of Star Wars John M. Porter, M.D., 2011-03-08 The Star Wars series contains for some a philosophical basis The Tao of Star Wars uses the motifs from the Star Wars series to explain the basic tenets of Taoism Although some of these concepts are relatively familiar such as acceptance patience and simplicity their nuances as they apply to Taoism are invigorated utilizing the Star Wars motifs The Tao Te Ching after the Bible is the most translated book in the world Its reputed author Lao Tzu lived about 2600 years ago Faced with a corrupt competitive egocentric society which had lost its way sound familiar he left society riding upon an ox He felt that society had lost the Tao and that was the cause of the decline of the civilization Humans have always had an insatiable hunger for spiritual guidance and recently westerners have had a rekindled interest in the Tao Perhaps it is because we see the same problems today that Lao Tzu saw in his day The Tao of the Jedi Lao Tzu, Oliver Benjamin, 2019-09-25 A long time ago in a principality far far away In China around 500 BC the Tao Te Ching was written by Lao Tzu It was a deep philosophical look at life the universe and everything Today it ranks as one of the most widely translated books on Earth second only to the Christian Bible About 2477 years later Star Wars was written by George Lucas It was also a deep philosophical look at life the universe and everything It is one of the most celebrated movies in history What many people don t know is that Star Wars was deeply influenced by the Tao Te Ching By incorporating elements from Star Wars in this new adaptation of the Tao Te Ching we can easily see how elegantly these two classics intersect May the Force and the Tao be with you *The Tao of Star Wars* John Porter, 2010-07 Porter uses the motifs from the Star Wars series to explain tenets of Taoism This will allow the reader to apply these concepts to one s life as the essence of the Tao is to experience life in the present moment

Nurturing a Daoist-Inspired Classroom Pedagogy Through the Contemplative Lenses of Teacher Diaries David McLachlan Jeffrey, 2024-08-01 The harmonizing influence of ancient Daoist philosophy is of much relevance to the world in which we live today and this is especially so in the field of global education Among the growing numbers of contemporary teachers and scholars who nurture Daoist wisdom in their classrooms this book takes the unique pathway of considering its applications through the contemplative lenses of teacher diaries Its South African born author has taught academic English for over three decades in Japan the Middle East and the People's Republic of China Since early childhood he has infused his fascination for Daoist wisdom with his enjoyment of writing diaries and in ways that derive insights into the compassionate frugal and humble foundations of Daoist inspired pedagogies within contemporary classroom environments This book presents Daoist wisdom in terms of it being the Supreme Ultimate of all ways It introduces the classical Daoist texts of the Laozi the Zhuangzi and the Liezi and shares a short historical overview of Daoism with its growing global influence As such it emphasizes that Daoist inspired pedagogies encourage a delicate balance between intuitive insights and intellectual analysis and in ways that are not antagonistic toward each other but which dance together as one In this regard the role of meditation during the undertaking of diaries is specifically highlighted concerning its propensity to bring one into the present moment pacify racing thoughts and transcend the ego It also shows how a meditative state of mind that accompanies the reading writing and analysis of the diary entries contributes to deeper self discernment along with unique intuitive insights related to oneself as a teacher and the classroom environment In addition this book describes how the Wordsmith Tools Program and the Book of Changes can be used as additional approaches to analyzing

thought patterns within the diary entries and how these also nurture inward contemplations and the intuitive insights that accompany them. Thereafter, considerations based on the applications of core Daoist principles for classroom pedagogies are filtered through the contemplative lenses of teacher diaries. These principles are the unintentional integrity of *de*, the complementary duality of *yin yang*, the cosmic vitality of *qi*, the self-so-ness of *ziran*, the unforceful spontaneity of *wuwei*, and the unblemished purity of *pu*. This book illustrates through its diary lenses how these six Daoist principles can be nurtured in ways that contribute to a scholarliness that is grounded in an equal appreciation for the logical applications of intelligence along with the uniqueness of intuitive creativity which cannot be explicitly taught but which spontaneously arises from within the deep reservoirs of intuitive wisdom which exist within the true selves of everyone. In addition, this book shares pearls of Daoist wisdom for teachers from within the poetic chapters of the Laozi as well as within the amusingly enlightening stories in the Zhuangzi and the Liezi such that their ancient teachings can be applied to Daoist inspired pedagogies and nurtured in ways that unite the joyfulness and scholarly efficacy of both teaching and learning. It is shown how doing so enhances a sense of awe, wonder, openness, and contemplative oneness within the classroom environment, making it a happier, more contented, and more meaningful place for both teachers and students. *The Complete Idiot's Guide to Taoism* Brandon
