1916 commonly known by his esoteric pseudonym Papus was the French hypnotist physician and occultist famous for founding the modern Martinist Order Papus's Tarot of the Bohemians represents part of the main literature of 19th and early 20th century Tarotism Within it he maintains that the Tarot contains ancient knowledge from ancient Egypt India and even Atlantis while also giving basic instruction in cartomancy using the Tarot deck This volume will furnish the reader with a deep grasp of the inner life of the Tarot deck and is highly recommended for those with an interest in Tarot and cartomancy Many vintage books such as this are becoming increasingly scarce and expensive It is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with the original text and artwork

The Tarot of the Bohemians - The Most Ancient Book in the World for the Use of Initiates Papus, 2006-01-01 The Tarot of the Bohemians is a serious and in depth study of the occult tarot and an absolute must for inclusion on the bookshelf of any serious student of the subject Contents include Introduction to the Study of the Tarot The General Key to the Tarot The Sacred Word Esotericism of Numbers Analogy Between the Sacred Word and Numbers The Key to the Minor Arcana etc Many of these earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork The Tarot of the Bohemians Papas, 2017 **Absolute Key to Occult Science** Papus, 2018-05-22 THIS is a book that professes to be an absolute key to occult science It proves to be an account of the Tarot pack of cards which is thought by Papus apparently a French theosophist who disguises himself under this pseudonym to be the most ancient book in the world Although woodcuts of the picturecards are given together with other weird looking diagrams and symbols the explanation of the mysterious qualities of the Tarot is itself a mystery to the reader the reason that this book is intended for the exclusive use of Initiates A little knowledge of the terms of occult science is required a trifling and not too accurate acquaintance with some of the ancient philosophers views of the universe is presupposed and a parrot like memory of the twenty two letters of the Hebrew alphabet is indispensable Besides this the reader must be prepared to handle figures and symbols as Izaak Walton advised his angler to use his wriggling worm as if he loved him else the figures and the symbols will escape his mental clutch in triumph at the best they have but the substance of a dream Much ingenuity is shown in the explanation of the greater or major arcana which are all picture cards There are twenty two of them one for each letter of the Hebrew alphabet according to Papus Beginning with the Juggler he explains the design by still deeper symbols connecting the figure with a so called primitive hieroglyphic and the Kabbalah under the head of affinities and affirming that the position of the figure and the very shape of the hat have philosophical and religious significations In fact the intricate meanings attached to each card amount at last to the history of the universe including creation and the life of man here and hereafter from a metaphysical point of view tempered by a sort of spiritualistic and theosophical ecstasy over the things of our work a day world The letters of the Hebrew alphabet glide in amongst these phantasies like irrelevant sprites and amongst other

absurdities the letter he loses its vital existence together with its aspirate and the well known origin of the letter aleph being ignored it is supposed to be made up out of the letter yod four times repeated Occult mysteries are said to hang on these comical misrepresentations and they will have to go in quest of other and less philological places of refuge By the time the lesser or minor arcana are reached where common packs of cards with an extra picture card are dealt with the spirit of the Tarot should have entered into the reader causing a stupefaction that will enable him to take the pranks the numbers play with each other as the most natural thing in the world or out of it For instance a number that binds others together apparently by its own elastic nature is rewarded by becoming the first of a new set By virtue of this innate self transforming power of the fourths and sevenths the major and minor arcana are united and the latter are also marshaled amongst themselves The Saturday Review of Politics Literature Science and Art Volume *Absolute Key to Occult Science*
