The Spirit Level Why Greater Equality Makes Societies Stronger:

The Spirit Level Richard Wilkinson, Kate Pickett, 2010-04-23 Groundbreaking analysis showing that greater economic equality not greater wealth is the mark of the most successful societies and offering new ways to achieve it Get your hands on this book Bill Moyers This groundbreaking book based on thirty years research demonstrates that more unequal societies are bad for almost everyone within them the well off and the poor The remarkable data the book lays out and the measures it uses are like a spirit level which we can hold up to compare different societies The differences revealed even between rich market democracies are striking Almost every modern social and environmental problem ill health lack of community life violence drugs obesity mental illness long working hours big prison populations is more likely to occur in a less equal society The book goes to the heart of the apparent contrast between material success and social failure in many modern national societies The Spirit Level does not simply provide a diagnosis of our ills but provides invaluable instruction in shifting the balance from self interested consumerism to a friendlier more collaborative society It shows a way out of the social and environmental problems which beset us and opens up a major new approach to improving the real quality of life not just for the poor but for everyone It is in its conclusion an optimistic book which should revitalize politics and provide a new way of thinking about how we organize human communities *The Spirit Level* Richard Wilkinson, 2017-07-26 *The Spirit Level Why Greater Equality Makes Societies Stronger* By Richard Wilkinson The Spirit Level Kate/ Wilkinson Richard Pickett, 2011

The Spirit Level Kate Pickett, Richard Wilkinson, 2010-11-04 Why do we mistrust people more in the UK than in Japan Why do Americans have higher rates of teenage pregnancy than the French What makes the Swedish thinner than the Greeks The answer inequality This groundbreaking book based on years of research provides hard evidence to show How almost everything from life expectancy to depression levels violence to illiteracy is affected not by how wealthy a society is but how equal it is That societies with a bigger gap between rich and poor are bad for everyone in them including the well off How we can find positive solutions and move towards a happier fairer future Urgent provocative and genuinely uplifting *The Spirit Level* has been heralded as providing a new way of thinking about ourselves and our communities and could change the way you see the world **The Inner Level** Richard Wilkinson, Kate Pickett, 2019-01-22 A groundbreaking investigation of how inequality infects our minds and gets under our skin Why are people more relaxed and at ease with each other in some countries than others Why do we worry so much about what others think of us and often feel social life is a stressful performance Why is mental illness three times as common in the USA as in Germany Why is the American dream more of a reality in Denmark than the USA What makes child well being so much worse in some countries than others As *The Inner Level* demonstrates the answer to all these is inequality In *The Spirit Level* Richard Wilkinson and Kate Pickett put inequality at the center of public debate by showing conclusively that less equal societies fare worse than more equal ones across everything from education to life expectancy *The Inner Level* now explains how inequality affects us individually altering how

we think feel and behave It sets out the overwhelming evidence that material inequities have powerful psychological effects when the gap between rich and poor increases so does the tendency to define and value ourselves and others in terms of superiority and inferiority A deep well of data and analysis is drawn upon to empirically show for example that low social status leads to elevated levels of stress hormones and how rates of anxiety depression and addictions are intimately related to the inequality which makes that status paramount Wilkinson and Pickett describe how these responses to hierarchies evolved and why the impacts of inequality on us are so severe In doing so they challenge the conception that humans are inescapably competitive and self interested They undermine too the idea that inequality is the product of natural differences in individual ability This book draws together many of the most urgent problems facing societies today but it is not just an index of our ills It demonstrates that societies based on fundamental equalities sharing and reciprocity generate much higher levels of well being and lays out the path towards them

The Spirit Level New Edition Richard Wilkinson, Kate Pickett, 2010-12-14 Richard Wilkinson and Kate Pickett's *The Spirit Level Why Equality is Better for Everyone* is the most influential and talked about book on society in the last decade now updated with a new chapter on the controversy the book has ignited Why do we mistrust people more in the UK than in Japan Why do Americans have higher rates of teenage pregnancy than the French What makes the Swedish thinner than the Australians The answer inequality This groundbreaking book based on years of research provides hard evidence to show How almost everything from life expectancy to mental illness violence to illiteracy is affected not by how wealthy a society is but how equal it is That societies with a bigger gap between rich and poor are bad for everyone in them including the well off How we can find positive solutions and move towards a happier fairer future Urgent provocative and genuinely uplifting *The Spirit Level* has been heralded as providing a new way of thinking about ourselves and our communities and could change the way you see the world A big idea big enough to change political thinking Guardian A remarkable new book the implications are profound Will Hutton Observer The evidence is hard to dispute Economist Richard Wilkinson studied economic history at the London School of Economics before training in epidemiology and is Professor Emeritus at the University of Nottingham Medical School and Honorary Professor at University College London Kate Pickett is a Professor of Epidemiology at the University of York and a National Institute for Health Research Career Scientist Her work with Richard Wilkinson on *The Spirit Level* was shortlisted for Research Project of the Year 2009 by the Times Higher Education Supplement and their book was chosen as one of the Top Ten Books of the Decade by the New Statesman

100 of the Most Outrageous Comments about the Spirit Level Jacob Cropper, 2013-04 In this book we have hand picked the most sophisticated unanticipated absorbing if not at times crackpot original and musing book reviews of *The Spirit Level Why Greater Equality Makes Societies Stronger* Don't say we didn't warn you these reviews are known to shock with their unconventionality or intimacy Some may be startled by their biting sincerity others may be spellbound by their unbridled flights of fantasy Don't buy this book if 1 You don't have nerves of steel 2 You expect to get

pregnant in the next five minutes 3 You've heard it all Post-Punk Perception Edmund Wong, 2013-07 Growing up in Singapore in the 80s has been challenging I didn't know much about life or economy I didn't know what I want to do apart from playing I know I had to study and get a job In school we had to write composition about our profession when we grow up I had never wanted to be a philosopher let alone writing about social philosophy It is just that growing up with a single parent is tough It is tougher when she is uneducated and I had to learn most things by myself After my National Service I decided to further studies That was when I was exposed to philosophy and psychology in the UK After graduation in 1999 with a degree in Electronics I came back home to resume my National Service I disrupt it and had about 2 months left The life in UK exposed me to something that I did not notice when growing up in Singapore I find local social scene unsatisfactory They are Confucians Muslims Christians freethinkers and humanists Most time they are preoccupied with how to earn more money Religion does not give me the fulfillment that it promised In addition most were based on Singaporeans interpretation of the Bible and Buddhism's dharma Most times I feel that everything that Singaporeans do has got to do with wealth creation or at least with the expenditure of it It end up like what Pope Francis referred to as the cult of money Organised religion involves more fear mongering than cultivating an inner grace and peace Hence this book is about how I relate an ancient thinker's ethics Aristotle to the present day I find Aristotle's ethics to most suit my needs as a man and lover It does not pretend to be more than what it seek the golden mean It does require us to think and explore the values to find balance and achieve wisdom with intellectual and moral virtues I also find other philosophers French or not particularly insightful and thought provoking They offer me explanation and exploration on subjects like love sex and death Freudian psychoanalysis are also very penetrating in their findings and insights Moreover I needed some contemporary psychological theory not in depth psychoanalysis to back Aristotle's model of ethics intellectual and moral virtues Hence the psychological background of my book I got acquainted with these psychological theories when I was preparing myself to be a financial consultant I later found out more about them and they became useful in my work and life Hence I would like to share it with people in Asia so that they can ask the right kind of questions in life in order to learn more about themselves and the social milieu they are living in Because everyone of us are affected by the social sciences politics economics and sociology This book will I hope allow us to understand why we are irrational and how we can make rational changes through reasonings in their life and achieving eudaimonia My wish is simply to share what I enjoy doing apart from creating useful ideas to improve the world Through my book I hope to make others understand religion science and philosophy and how they play an increasingly integral part in the Asian century **Finding Your Own Philosophy of Life** Burton F. Porter, Professor of Philosophy Burton F Porter, 2016 What do you think and why do you think so What's the philosophy behind your basic choices and actions This book will challenge you to think clearly and deeply about the ideas you cherish Ultimately the aim is for you to find a personal direction for your life one that is informed by the thoughts of philosophers for the past 2 000 years We will

explore how to develop a clear mind what is the nature of human nature how to trust what we think we know and whether there is a God who governs our existence We will examine whether we are wholly conditioned by society or make free decisions if art is a matter of taste or if there s good taste and bad taste and if we have a spiritual self hidden within our physical body We will also examine whether moral values are invented or discovered the best form of government and whether life ends at the grave or persists throughout eternity The book will challenge you to judge the various answers to these questions that have been proposed by profound thinkers and in the light of these to find your own philosophy of life The ongoing question is how best to live

Handbook on Teaching Social Issues Ronald W.
