Prindle, 2015-04-10 The controversy over teaching evolution or creationism in American public schools offers a policy paradox. Two sets of values, science and democracy, are in conflict when it comes to the question of what to teach in public school biology classes. Prindle illuminates this tension between American public opinion, which clearly prefers that creationism be taught in public school biology classes, versus the ideal that only science be taught in those classes. An elite consisting of scientists, professional educators, judges, and business leaders, by and large, are determined to ignore public preferences and teach only science in science classes despite the majority opinion to the contrary. So how have the political process and the Constitutional law establishment managed to thwart the people's will in this self-proclaimed democracy? Drawing on a vast body of work across the natural sciences, social sciences, and humanities, Prindle explores the rhetoric of the evolution issue, explores its history, examines the nature of the public opinion that causes it, evaluates the Constitutional jurisprudence that upholds it, and explains the political dynamic that keeps it going. This incisive analysis is a must read in a wide range of disciplines and for anyone who wants to understand the politics of biology. **Story of Life** Katie Scott, 2015-10-01 The Story of Life Evolution is a graphic fold out guide that provides the ultimate reference to evolution and life forms. The book starts with the first single cell organisms and ends with modern life forms. The Story of Life Evolution is a strong non-fiction offering that complements Animalium. A versatile resource, read it as a book or use it as a fold out reference. Illustrated by Katie Scott, who also illustrated the bestselling book Animalium. A new format in the Welcome to the Museum series that supports and complements the existing formats and titles. Concertina format, perfect for the Tree of Life, since the process of evolution can be spread out and examined singly.
