Strategy and the Purpose Driven Leader by Cynthia Montgomery, 2015 Program Highlights How Gucci achieved the most dramatic turnaround in fashion history The danger of contentment and how success can kill your organization Why every single employee at every level must know your strategy In the past 25 years thousands of articles have been written about strategy but virtually none about the leadership vital for doing it well Strategy has been transformed from an art to a science but science alone is not enough Cynthia Montgomery makes the case for bringing people back into the equation Though you start with ideas you need leaders to construct a company that brings these ideas to fruition Leadership is required to define your purpose and form a management model that carries it out One exercise Montgomery suggests is to think about death the death of your business What would the world be like without it Would it be the same If you don t make a difference nobody will mourn you when you re gone And if they won t miss you then how much do they need you now Knowing what makes you matter to your customers is critical but even that is not enough Whatever constitutes strategic advantage today will eventually change That s why you can t outsource strategy It takes leadership to watch over an organization make the hard choices provide clarity and alignment and keep everyone fired up
