Josie Dew, 2012-08-02 As a young girl Josie Dew developed an overpowering urge to travel She also fell out of a fast moving vehicle and rather inconveniently developed a lifelong aversion to cars Along came her first bicycle and she has never looked back Four continents thirty six countries and eighty thousand miles worth of astounding adventures eccentric characters varied cultures and ever enduring optimism are the result of her travels From Saharan locust invasions to tree climbing goats and a customs official who wouldn't let her leave India because You are making me a very fine wife her encounters are described with honesty wit and perception Strange incidents and bizarre circumstances punctuate her journeys In Nepal she met a team of Frenchmen running from Paris to China and a cyclist on his way from one Olympic Games to the next In Udaipur she was greeted by everyone with the refrain Hello Mr Jamie Bond Octopussy filmed here whilst her view of post Ceausescu Romania a nation suffering and starving affected her both physically and mentally THE WIND IN MY WHEELS is informative illuminating and ceaselessly amusing **The Self-Propelled Voyager** Duncan R. Jamieson, 2015-09-03 Before the last quarter of the nineteenth century people who wanted to travel independently either walked or rode horses Then a newly invented machine changed forever the nature of personal transportation The cycle self propelled bicycles tricycles and tandems allowed almost anyone to travel around town around their region and around the world While dramatic developments in equipment clothing road surfaces and amenities make the physicality of cycling much different from the earlier era the experience of cycling has seen little change The Self Propelled Voyager How the Cycle Revolutionized Travel recounts how a transportation innovation opened the world for not only those who made the journey but also for the armchair travelers who read with interest the cyclists accounts of faraway places Following a brief history of the development of the cycle this book describes the exploits of long distance riders who wrote of their experiences their triumphs and their tragedies Duncan R Jamieson chronicles their journeys their personal stories and the times in which they lived revealing that despite the continuing rise and fall of cycling interest people continue to enjoy traveling in the slow lane Drawing on books and articles by the women and men who rode and wrote of their travels The Self Propelled Voyager also features photographs from the 1880s up to the modern day illustrating the development of the cycle through history Accessibly

written yet comprehensive in its coverage this book will interest not only the cycling enthusiast but historians focusing on sport and sport tourism as well
