they fight the better they like it Whenever they discover another intelligent race they force them into combat whether they want it or not When humans are warned of an inevitable confrontation with the Tyrell they attempt to form a multi species Alliance but the challenges are great and they know it s only a matter of time before a Tyrell fleet of massive ships will arrive in Earth orbit Cate Harrow and Gort Eagleton are two Aerospace Force officers with the kind of strategic and tactical skills that the Alliance needs to win this war but before they can even begin to defeat the Tyrell they must survive the incompetent leadership that threatens complete disaster Defeating the Tyrell will be far more difficult than the Alliance initially believes unless they can discover their one weakness This action packed series has lots of space battles and political intrigues as well as personal triumphs and tragedies Excerpt Flight Ops to Skydiver You and your squadron have the green light Commander Good luck Thanks Ops Skydiver to Squadron We have a green light Sound off when you ve undocked in sequence order Here we go She turned and nodded to her co pilot who would maneuver the corvette out the half kilometer wide maw of the carrier Ranger while she monitored the rest of the squadron As Skydiver gently pulled away from the docking bay then past the baffles and moved towards the opening Harrow switched one of her displays to the rear external view using computer enhancement to compensate for the low level of light inside the main hangar space Each corvette in the squadron was undocking and maneuvering in a specified sequence in order to avoid collisions Skydiver is clear of Ranger said the co pilot As the ship began to accelerate Harrow watched the carrier start to recede into the distance Just as she began to shift her gaze she saw a streak of light hit Ranger from below penetrate up through the interior of the huge hangar and come out the top of the ship FLIGHT OPS WHAT THE HELL shouted Harrow BEEN HIT RANGER S BEEN HIT Harrow recognized the voice of the Flight Operations Duty Officer OH GOD BISMARK REPORTS BEING HIT TOO Harrow thought fast The Tyrell had obviously detected the four carriers and were firing their long range faster than light kinetic energy projectiles from below The mission was clearly compromised and to her way of thinking getting the carriers to a safe distance was now not only their top priority it was their only priority SL to Flag said Harrow quickly We re kinda busy right now Commander Harrow didn t know who was replying but she did know it wasn t Vice Admiral LeClair and that s who she wanted to talk to You tell the Admiral that he needs to order his carriers to jump RIGHT NOW Goddamit We re sitting ducks here Without waiting for a reply she turned to the co pilot How many of our ships have cleared the Ranger They re all out Do we try to dock again God no No time for that We ll have to catch up with her at the rally point if our carriers bug out in time She looked at the display that was still showing a now much smaller Ranger Come on TFL Give the order Flight Ops to squadron Ranger is heading for the rally point now Meet us th The voice cut off at the same instant as the distant carrier vanished from view Ranger s jumped away yelled the co pilot Bismark Sea is gone too **The System States Rebellion** Dietmar Arthur Wehr,2019-11-13 This omnibus edition includes all three books of the System States Rebellion series with over 200 000 words of military SF action Included in this ebook are the following novels Rumors of Glory Rumors of Honor and Rumors of

missed That bastard has killed us all **Excalibur's Quest** Dietmar Arthur Wehr,2018-04-30 In Scimitar s Glory the alien Tong won the Battle for Earth and took control of the orbital space around the planet Humanity is now at their mercy but not all Space Force warships have been defeated Wolfe Koenig s light cruiser Excalibur is on a mission to acquire technology that just might enable the ragged remnants of the Fleet to snatch victory from the jaws of defeat if he can find an alien race with that technology if he can convince them to trade for it and if the technology can be exploited fast enough Excalibur s Quest is the story of that mission and the challenges both alien and human that Koenig faces This is the second book in the action packed military SF Swordships Odyssey series Megabook of Military SF and Technothrillers Dietmar Arthur Wehr,2020-12-16 This megabook contains six complete novels where each one is the first novel in a series In addition there is also the first in a series of three linked short stories plus the first three chapters of six stand alone novels including two technothrillers Links to all series and stand alone books can be found via the link to the author s website which is included in the megabook All the material in the megabook has been written by Dietmar Arthur Wehr a USA Today bestselling author

Stray,2009-05-21 An illustrated encyclopedic overview of the prophecies calendars and theories that indicate the year 2012 is a threshold of great change for humanity Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar s Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks This book offers an extensive study of many modern theories including Terence McKenna s timewave zero and Maurice Cotterell s sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date **Hidden in Historicism** Harry Jansen,2020-06-10 Hidden in Historicism considers how the nineteenth century philosophy of historicism depicts three forgotten time regimes a time of rise and fall an ambiguous time of synchronicity of the non synchronous and a time in which decisive moments dominate Before the eighteenth century time was past oriented This inversed in the Enlightenment when the future became dominating Today this time of progress continues to be embraced as a time of the modern Yet inequality increasing violence and climate change lead to doubts over a bright future In this book Harry Jansen moves away from the heritage of Reinhart Koselleck and his single time of the modern towards a historicist threefold temporal approach to history writing In the time regime of the twenty first century past present and future coexist It is a heterogeneous time that takes on the three forms of historicism Jansen s study shows how all three times exist together in current historiography and contribute to a better understanding of the world today Based on the idea that an incarnated time rules everything that happens it reality the book offers a fresh perspective on the ongoing discussion about time and time regimes in contemporary philosophy and theory of history for students and scholars both time specialists and the non specialist
