Michael Battle

Ubuntu I In You And You In Me:

Ubuntu Michael Battle, 2009-05 For Christians practicing Ubuntu means entering deeply into the compassionate forgiving love of Gospel As defined by Archbishop Desmond Tutu a person with Ubuntu is open and available to others affirming of others does not feel threatened that others are able and good for he or she has a proper self assurance that comes from knowing that he or she belongs in a greater whole and is diminished when others are humiliated or diminished when others are tortured or oppressed The African spiritual principle of Ubuntu offers believers a new and radical way of reading the Gospel and understanding the heart of the Christian faith and this new book explores the meaning and utility of Ubuntu as applied to Western philosophies faith and lifestyles Ubuntu is an African way of seeing self identity formed through community This is a difficult worldview for many Western people who understand self as over against or in competition with others In the Western viewpoint Ubuntu becomes something to avoid a kind of co dependency As a Christian leader who understands the need intricacies and delicate workings of global interdependency Battle offers here both a refreshing worldview and a new perspective of self identity for people across cultures and of all faiths **Heaven on**

Earth Michael Battle, 2017-02-23 Much of the literature on the book of Revelation paints a frightening apocalyptic vision of the end times Michael Battle offers an alternative look at Revelation in this new work seeing it instead as a hopeful call to bring heaven on earth Battle explores the problematic imagery found in Revelation before showing how similar problems play out in our contemporary world Battle sees Revelation as a guide that shows us that we can live out God's call for heaven on earth by living in community with one another as exhibited through the writings of Martin Luther King Jr Desmond Tutu Rowan Williams and Ubuntu theology He writes I seek to imagine in my particular Christian context how a view of heaven need not lead to culture wars and further excuses for oppressing others Heaven as envisioned by John of Patmos has much greater purpose **Pathways to Public Relations** Burton St. John III, Margot Opdycke Lamme, Jacquie L'Etang, 2014-04-24

Over the centuries scholars have studied how individuals institutions and groups have used various rhetorical stances to persuade others to pay attention to believe in and adopt a course of action The emergence of public relations as an identifiable and discrete occupation in the early 20th century led scholars to describe this new iteration of persuasion as a unique more systematized and technical form of wielding influence resulting in an overemphasis on practice frequently couched within an American historical context This volume responds to such approaches by expanding the framework for understanding public relations history investigating broad conceptual questions concerning the ways in which public relations rose as a practice and a field within different cultures and countries at different times in history With its unique cultural and contextual emphasis Pathways to Public Relations shifts the paradigm of public relations history away from traditional methodologies and assumptions and provides a new and unique entry point into this complicated arena

The Golden Rule and the Games People Play Rabbi Rami Shapiro,2015-10-27 Does the Golden Rule matter It depends on the game We have to shift the game before we can promote the Rule This is why teaching morality alone is insufficient Educating our children in the Golden Rule without teaching about finite and infinite games and zero sum and nonzero worldviews is a waste of time Doing so would be like teaching them the rules of chess while insisting they play only checkers from Chapter 10 Play Different This provocative and challenging exploration of the Golden Rule widely accepted as humanity s moral true north neither praises the Rule uncritically nor naively insists that it is applicable in every situation Rather it looks critically at the Rule in the context of game theory to see where it works and where it doesn t when it is applicable and when it isn t It shows you why knowing the difference can offer you a powerful way to transform your life from one driven by fear to one driven by love This philosophical game changer is written for people of all faiths or none who praise the Rule and yet violate it over and over again It invites you into the fascinating world of ethical decision making in a way that helps you use the Golden Rule as a fulcrum for shifting your life from often unethical competition to compassionate and even loving cooperation

The Power of Oral History Narratives Toni Fuss Kirkwood-Tucker,Frans H. Doppen,2023-06-01 The significance of this book is its uniqueness First the book contains a collection of fourteen chapters that capture the personal professional and historical experiences of international global scholars and artists to which they were subjected in their native country and after they immigrated to the United States What makes this book project highly unusual in comparison to other publications is that these international global scholars and artists experienced historical events of trauma and joy in their native country and in their newly adopted country of the United States that lie deeply buried in their sub consciousness that these memories are unforgettable and still painful for them that these memories are a constant companion in their daily lives and that the

experienced historical events of trauma and joy have shaped their professional and personal lives to this very day There exists a paucity in the global education literature of this far reaching topic and thus it has the potential to enhance and diversify the global education literature Second the significance of this book lies in the pedagogical power of the oral history narrative tradition and its impact on students at the secondary and tertiary levels in education When one's lived experiences of trauma or joy occur during a critical time in history they rarely yield unforgotten memories and deeply held private knowledge that do not come to light without a storyteller When first hand accounts are shared publicly they can bring powerful insights into past historic events to the very presence Thus the pedagogical strength of this book contributes to knowledge creation in the classroom as oral histories move students from abstract textbook descriptions to concrete and compelling lived stories associated with historical happenings This pedagogy leads students to become more critical of historical events of the past and develops in them a deeper understanding of the past Consequently oral history narratives enable teachers and teacher educators to enrich the abstract text of textbooks with the authentic voice of the individual A third significance of this book lies embedded in the rich historical perspective displayed by storytellers of non native international global scholars and artists from around the world who portray their lived through first hand experiences such as child labor communism hate hunger fascism fear intolerance discrimination prejudice poverty war protest and death Finally a major purpose of this book is to expose young learners from around the world to empowering non native international role models in global education and the arts from nations in Africa Asia the Caribbean Eurasia Europe the Middle East and South America who build bridges not walls between peoples and nations

Off-Grid Solar

Electrification in Africa Nathanael Ojong, 2022-11-15 This book evaluates off grid solar electrification in Africa by examining how political economic institutional and social forces shape the adoption of off grid solar technologies including how issues of energy injustice are manifested at different levels and spaces The book takes a historical contemporary and projective outlook using case studies from pre and ongoing electrification communities in non Western countries such as Ghana Kenya Rwanda Senegal Malawi Tanzania and Nigeria Beyond the diverse nature of these countries in terms of their geographical location in West East and Southern Africa each offers a different experience in terms of colonial history economic and institutional infrastructure social and cultural context and level of adoption of off grid solar technologies Notably the book contributes to the off grid solar and energy justice scholarship in low income non Western contexts It examines various approaches to energy justice and does so by engaging with Western and non Western philosophical notions of the concept It takes into consideration the major principles of Ubuntu philosophy with the adoption of off grid solar technologies hence enriching the energy justice framework Finally the book interrogates the degree to which the social mission that catalysed the expansion of the off grid solar sector is being undermined by broader structural dynamics of the capital investment upon which it is reliant It also argues that the ascendance of off grid solar electrification in Africa is

transformative in that it enables millions of people without access to or facing uncertainties linked to centralised grid energy to have access to basic energy services

A Theological Assessment of Reconciliation for Missiology in the Korean Context Hyo Seok Lim, 2021-07-01 Any Christian who lives in such a broken world may ask God what their role would be as the person who is reconciled with God and about the implications of the vertical dimension of reconciliation Many would agree that the vertical and horizontal dimensions of reconciliation should not be separated It is however still necessary to examine further For instance what does the inseparableness of the two dimensions actually mean in theory and practice How does the vertical dimension of reconciliation become the source and foundation of the horizontal dimension How should the church maintain its theology of reconciliation which includes both dimensions All these questions point to an underlying question what is the relationship between the vertical and horizontal dimensions of reconciliation This book explores this question interacting with the four thinkers and practitioners of reconciliation Karl Barth Miroslav Volf Son Yang Won and Desmond Tutu and assessing the theology of a leading theologian in the discourse of mission as reconciliation Robert Schreiter Based on the discussions it presents a proposal for a more wholesome and robust understanding of reconciliation for the discourse in mission studies which can be applied to any broken context including the Korean peninsula

Theology and Ethics for the Public Church Samuel Yonas Deressa, Mary Sue Dreier, 2023-11-24 How might the Christian church effectively engage today's politically charged profit motivated world while remaining faithful to its biblical and theological roots The contributors in this book argue that public theology provides a promising pathway forward The public theology emerging from these pages has been influenced by the theological interests and commitments of Gary M Simpson Lutheran pastor and systematic theologian His approach to public theology is intersectional and global he artfully weaves together Lutheran theology and the civil society arena of Critical Social Theory These essays provide three angles of vision on faith active in twenty first century public contexts contextual ethical and theological While not mutually exclusive these distinct strands of thought engage and challenge the church to substantial reflection on the challenging and often bewildering circumstances of the twenty first century social world Some reflect on God's activity within particular global contexts others offer new perspectives on Lutheran confessional traditions still others step boldly into innovative theological assertions As the Christian church is ever forming and reforming this book urges it to grapple with the publicness of its timely and timeless mission
