Women In The Quran Traditions And Interpretation:

Women in the Qur'an, Traditions, and Interpretation Barbara Freyer Stowasser, 1994 Islamic ideas about women and their role in society spark considerable debate both in the Western world and in the Islamic world itself Despite the popular attention surrounding Middle Eastern attitudes toward women there has been little systematic study of the statements regarding women in the Qur'an Barbara Stowasser fills this void with this study on the women of Islamic sacred history Women in the Qur'an Traditions and Interpretation presents the Qur'anic revelations on female figures associated with God's prophets from Adam to Muhammad Revealed narratives and legislation are then pursued through their medieval modern and contemporary interpretations The theological exegetic sources here chosen all Sunni include the major classical works as well as for the modern period examples of modernist traditionalist and fundamentalist exegesis For Hadith materials beyond the theological tafsir Stowasser analyzes both popular narratives of the tales of the prophets genre and representative samples of the classical historical and legal Hadith A close reading of modern sources including those by lay writers shows the waning influence of these traditional materials in present day Islamic thought By telling the stories of the women of sacred history in Qur'an and interpretation this book presents an introduction to past and present Islamic paradigms of doctrine and their socio economic and political applications Stowasser establishes the link between the female figures as cultural symbols and Islamic self perceptions from the beginning to the present time Book Jacket [Routledge Handbook on Women in the Middle East](#) Suad Joseph, Zeina Zaatari, 2022-12-30 The Routledge Handbook on Women in the Middle East provides an overview of the key historical social economic political religious and cultural issues which have shaped the conditions and status of women in the region The book is divided into eleven thematic sections providing a comprehensive guide to understanding the current and historical contexts of women in the Middle East each giving ground breaking insights into various aspects of women's movements The importance of historical context including pre Islamic through post colonial histories The importance of politics and the state in understanding women in the ME Women's roles in political and social movements The impacts of the formal and informal economies and education on women of the region Women's spaces and the creation of publics and counterpublics The effects of war displacement and other forms of gendered violence Women family and the state Discourses and practices of religion Women and health practices Bodies and sexualities Women and sites of cultural production A unique overview of cutting edge research in the key arenas of pre Islamic to post colonial histories this Handbook will affect the way future generations of scholars engage with and add to the vast repository of socio political studies of the Middle East It will thus be of interest to researchers in gender studies women's studies pre Islamic and post colonial studies feminist studies and socio political and socio economic studies **Women, the Koran and International Human Rights Law** Niaz Shah, 2006-11-01 Religion plays a pivotal role in the way women are treated around the world socially and legally This book discusses three Islamic human rights approaches secular non compatible reconciliatory

compatible and proposes a contextual interpretive approach It is argued that the current gender discriminatory statutory Islamic laws in Islamic jurisdictions based on the decontextualised interpretation of the Koran can be reformed through Ijtihad independent individual reasoning It is claimed that the original intention of the Koran was to protect the rights of women and raise their status in society not to relegate them to subordination This Koranic intention and spirit may be recaptured through the proposed contextual interpretation which in fact means using an Islamic or insider strategy to achieve gender equality in Muslim states and greater compatibility with international human rights law It discusses the negative impact of the so called statutory Islamic laws of Pakistan on the enjoyment of women s human rights and robustly challenges their Koranic foundation While supporting the international human rights regime this book highlights the challenges to its universality feminism and cultural relativism To achieve universal application genuine voices from different cultures and groups must be accommodated It is argued that the women s human rights regime does not cover all issues of concern to women and has a weak implementation mechanism The book argues for effective implementation procedures to turn women s human rights into reality *Islam* Cenap Çakmak,2017-05-18 This expansive four volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity One of the most popular and widespread religions in the world Islam has attracted a great deal of attention in recent times particularly in the Western world With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans there is ever increasing need to examine and understand Islam as a religion and historical force *Islam A Worldwide Encyclopedia* provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition Each entry begins with a basic introduction followed by a general discussion of the subject and a conclusion Each entry also features a further readings list for readers In addition to supplying a comprehensive authoritative overview of Islam this work also specifically addresses many controversial related issues including jihad violence in Islam polygamy and apostasy **Modern Muslim Intellectuals and the Qur'an** Suha Taji-Farouki,Institute of Ismaili Studies,2006-01-26 This volume examines the writings of ten Muslim intellectuals working in the Muslim world and the West who employ contemporary critical methods to understand the Qur'an Their work points to a new trend in Muslim interpretation characterised by a direct engagement with the Word of God while embracing intellectual modernity in a global context The volume situates and evaluates their work and responses to it among Muslim and non Muslim audiences **The Oxford Encyclopedia of Women in World History** Bonnie G. Smith,2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years

have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical, social, or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical, social, and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies, geography and history, comparative culture and society, including adoption, abortion, performing arts, organizations and movements, such as the Egyptian Uprising and the Paris Commune, women's and gender studies, and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference work is sure to be a valued go-to resource for scholars, college and high school students, and general readers alike.

Muslim Women Speak Amani Hamdan, 2009. Muslim Women Speak challenges western stereotypes of Muslim women and their roles in family and community. Through this rich tapestry, the voices of Muslim women reveal the variety and complexity of life often covered by the veil.

The A to Z of Prophets in Islam and Judaism Scott B. Noegel, Brannon M. Wheeler, 2010-04-01. Both traditions recognize and draw theological and historical lessons from some of the same narrative sources, but this is the first comparative resource to provide interdisciplinary coverage of the history and textual sources associated with prophets and prophecy. This thorough treatment of a difficult and increasingly controversial subject area will encourage and cultivate knowledge and understanding. Entries are drawn from five main fields: 1. Ancient Near Eastern Studies, 2. Bible and Biblical Studies, 3. Judaism and Jewish Studies, 4. The Quran and Quranic Studies, 5. Islam and Islamic Studies. The A to Z of Prophets in Islam and Judaism treats each entry as a compilation of relevant data culled from these different traditions in order to take the reader beyond the expected parameters of research. Originally envisioned as an initial resource for students of comparative religion, the extensive chronology, bibliography, and the overall accessibility of the passages make the book suitable for a much wider audience.

Contemporary Arab Thought Elizabeth Suzanne Kassab, 2005-04-29. In the last third of the twentieth century, the Arab intellectual and political scene polarized between totalizing doctrines: nationalist, Marxist, and religious, and radical critique. Arab thinkers were reacting to the disenchanting experience of postindependence and a widespread sense of malaise, as well as to authoritarianism, intolerance, injustice, failed development, and successive defeats by Israel. The foundational account of these responses, *Contemporary Arab Thought*, illuminates the relationship between cultural and political critique in the work of major Arab thinkers. Elizabeth Suzanne Kassab also connects Arab debates to the postcolonial issues of Latin America and Africa, revealing the shared struggles of different regions. Since its first publication in 2009, this book has stood as the foremost account of contemporary Arab debates.

on culture philosophy modernity tradition identity and liberation It is widely used in Middle Eastern studies courses and it has become a classic in the field of Arab intellectual history Contemporary Arab Thought now features an extensive new introduction that reconsiders post 1967 Arab intellectual history in light of the 2011 uprisings and the upheavals that have occurred over the intervening years Kassab critically reflects on the book's arguments and the responses it has provoked and she surveys the new preoccupations that have emerged in Arab debates since 2011 As crises again overtake the Middle East this landmark work continues to offer indispensable insight into the richness of contemporary Arab thought *The Blackwell Companion to Contemporary Islamic Thought* Ibrahim Abu-Rabi', 2008-04-15 The Blackwell Companion to Contemporary Islamic Thought reflects the variety of trends voices and opinions in the contemporary Muslim intellectual scene Challenges Western misconceptions about the modern Muslim world in general and the Arab world in particular Consists of 36 important essays written by contemporary Muslim thinkers and scholars Covers issues such as Islamic tradition modernity globalization feminism the West the USA reform and secularism Helps readers to situate Islamic intellectual history in the context of Western intellectual trends
