Working With The Poor New Insights And Learnings From Development Practitioners:

Working with the Poor Bryant L. Myers, 2008-06 How do Christian practitioners express authentically holistic transformational development This is the challenge to World Vision development practitioners and to all non government organizations concerned about community development that addresses the whole person and the entire community This dilemma is rooted in the western assumption that the physical and spiritual realms are separate and distinct from one another Such a dichotomy leads to a belief among practitioners that restoring people s relationship with God has nothing to do with restoring just political social and economic relationships among people Even Christians often believe God s redemptive work takes place in the spiritual realm while the world is seemingly left to the devil But the Bible never separates the physical from the spiritual the rule of God permeates both In this volume development practitioners struggle to overcome the problem of dualism and find a way toward a more genuinely holistic approach to helping the poor Experienced development practitioners reflect on Understanding poverty Participatory learning and action Appreciative inquiry The Bible and transformational development Sustainable economic development Community transformation in the urban context Community development and peacebuilding Everyone wanting to engage in transformational development will find new insights and essential learnings from these hands on practitioners

The House of Service David Tittensor, 2014-02-28 David Tittensor offers a groundbreaking new perspective on the G len movement a Turkish Muslim educational activist network that emerged in the 1960s and has grown into a global empire with an estimated worth of 25 billion Named after its leader Fethullah G len the movement has established more than 1 000 secular educational institutions in over 140 countries aiming to provide holistic education that incorporates both spirituality and the secular sciences Despite the movement s success little is known about how its schools are run or how Islam is operationalized Drawing on thirteen months of ethnographic fieldwork in Turkey Tittensor explores the movement s ideo theology and how it is practiced in the schools His interviews with both teachers and graduates from Africa Indonesia Central Asia and Turkey show that the movement is a missionary organization but of a singular kind its goal is not simply widespread religious conversion but a quest to recoup those Muslims who have apparently lost their way and to show non Muslims that Muslims can embrace modernity and integrate into the wider community Tittensor also examines the movement s operational side and shows how the schools represent an example of Mohammad Yunus s social business model a business with a social cause at its heart The House of Service is an insightful exploration of one of the world s largest transnational Muslim associations and will be invaluable for those seeking to understand how Islam will be perceived and practiced in the future

Biblical Shalom for Sustainable Holistic Transformational Development in Nigeria Stephen Z. Yashim, 2020-12-14 How do Christian organizations engaged in development work effectively facilitate the holistic transformation of communities In this important contribution to the field Dr Stephen Yashim reviews the participatory problem solving approaches commonly utilized by Christian relief and

development organizations in Nigeria Dr Yashim highlights the failure of current methods to facilitate dialogue between the biblical worldview with its divine transformative potential and the worldview of local rural communities In order for rural communities to progressively experience biblical shalom the total well being of the whole and its members they must be equipped to examine and articulate their own perspective on development while also engaging with biblical perspectives Dr Yashim proposes an alternative approach of participatory appreciative dialogue to be used alongside more traditional methods in pursuit of community transformation This is an excellent resource for anyone engaged in community development and transformation and who longs to experience biblical shalom poured out among individuals and communities *The Oxford Handbook of Mission Studies* Kirsteen Kim, Knud Jørgensen, Alison Fitchett-Climenhaga, 2022-04-18 The Oxford Handbook of Mission Studies represents more than a century of scholarship related to the theology history and methodology of the propagation of Christian faith and the engagement of Christians with cultures religions and societies worldwide It contains more than 40 articles by experts from different disciplinary and ecclesial perspectives who are from all continents It not only offers a broad overview of key approaches and issues in mission studies but it also highlights current trends and suggests future developments The Handbook builds on renewed interest in mission studies this century generated by recent key statements on mission from ecumenical evangelical Catholic and Orthodox sources and by a spate of academic works on the topic Western church leaders now apply insights from foreign missions such as inculturation liberation interfaith work and power encounter to today s multicultural societies Meanwhile there are new initiatives in mission from the Majority World where most Christians live so that sending is not only from the west to the rest but from everywhere to everywhere Therefore this volume aims to reflect the voices of the receivers of mission as well as its protagonists and to raise awareness of new movements In a time of growing recognition of religions more generally this work examines and theorizes the missional dimensions of the world s largest religion its agendas growth outreach role in public life effect on cultures relevance for development and its approaches to other communities *The Virtuous Spiral* Alan Fowler, 2013-11-05 The Virtuous Spiral is without doubt a most welcome addition to the body of knowledge that will continue to be highly valued in the NGO sector Ezra Limiri Mbogori Director Mwelekeo wa NGO MWENGO Harare Fowler demonstrates how development NGOs can engage in a virtuous spiral of performance based learning that regenerates public trust This is a timely book dealing squarely with the confidence crisis faced by many NGOs in the South and North Louk De La Rive Box Director European Centre for Development Policy Management Maastricht Sustainability is crucial for all institutions involved in international development This work offers practical guidance on how to achieve it There are three main kinds of sustainability and a section of the book is devoted to each making the impact of the organization s work sustainable ensuring continuity of funding and making the organization itself sustainable to remain viable Achieving all three creates a virtuous spiral The book takes an organizational rather than a technical or impact based approach to sustainability It is based on

extensive international research and offers many practical examples of sustainability and the difficult trade offs involved

Mission as Life J. Randall Wallace, 2010-05 This book explores how both individuals and families can create an environment where authentic Christianity can flourish People grow best in a supportive community and families can provide the earliest expression of the type of community God intended Families can become a microcosm of the church as they allow Christ to live through them using their gifts to minister to a hurting world Building on a foundation of Scripture the goal of this book is to ignite within families a desire to make advancing the Kingdom of God a priority in how they use their time treasure and talents It outlines how regular community service anchors biblical values into family life and elevates personal spiritual development to new levels by putting faith into action By aligning their lives with God's values by serving together family members gain an appreciation of one another and a deep understanding of how God has uniquely gifted them Service provides youth with a means to forge their identity while involved in meaningful activity Parents are center stage as role models and mentors for what it means to follow God with your whole heart Resources and ideas give guidance to help families select faithing opportunities and prepare for their adventure in service Randy Wallace received his Biblical education at Trinity College and in addition has a Ph D in Organizational Leadership from Regent University For the past 18 years he has lived and worked in Appalachia doing Christian community development Part of that involves recruiting some 300 volunteers annually who serve the needy elderly and disabled He is married to a Jacqueline and has two sons who are raising their families in Southern California Check out the website www.missionaslife.com

Suffer the Children Gary Scott Smith, Jane Marie Smith, 2017-01-31 We all say that we care about children We all know that millions of children around the world including in the United States are suffering physically materially and emotionally and are unable to reach their full potential Moreover their material deprivation and physical ills often prevent them from responding to the gospel Most of us conclude that we cannot do anything significant to help the impoverished children living in our own backyards let alone those living in the slums of Nairobi or the hinterlands of Haiti We can however do much to improve their lives materially and spiritually Through praying giving generously sponsoring children volunteering with aid organizations living more simply investing and shopping more prudently and advocating more zealously in the political arena we can make a difference We can prod politicians business executives and church leaders to prioritize aiding destitute children We can support one of the hundreds of organizations that are working effectively to help indigent children have better lives Suffer the Children describes the plight of poor children and provides many practical ways we can participate in one of the most important crusades to improve our world The authors have assigned all their royalties to organizations working to aid children

Social Justice Handbook Mae Elise Cannon, 2009-09-11 Mae Elise Cannon provides a comprehensive resource for Christians like you who are committed to social justice She presents biblical rationale for justice and explains a variety of Christian approaches to doing justice A wide ranging catalog of topics and issues give background info about justice issues at

home and abroad and give you the tools you need to take action **Change Across Cultures** Bruce Bradshaw, 2002-03 Points out the necessity of changing cultural narratives if real values transformation is to take place This is an important work Peter Riddell London Bible College **The Wayfarer** Barnabé Anzuruni Msabah, 2021-08-02 Scripture testifies to God's care for displaced peoples From Genesis to Revelation the Bible is a narrative filled with migrants with refugees and with wayfarers Even God himself is shown to be on the move a God who does not stay on one side of the border but crosses over to save his people In *The Wayfarer* Dr Barnab Anzuruni Msabah engages the global refugee crisis from an interdisciplinary perspective that encompasses both development studies and theological reflection Using specific examples from Central Eastern and Southern Africa Msabah provides an overview of the sociopolitical economic and environmental dynamics of forced migration while simultaneously exploring theological and cultural frameworks for understanding transformational community development He examines both the church's calling to provide sanctuary for displaced peoples and the role of refugees in contributing to the socioeconomic welfare of their host countries While the church's mandate is to act with justice and mercy towards the world's most vulnerable populations Msabah also reminds us that refugees are not passive recipients but powerful examples of courage resilience and hope who can in their turn transform our nations and our faith communities for the better
