Understanding Rhetoric Eamon M. Cunningham, 2020-01-01 *Understanding Rhetoric* A Guide to Critical Reading and Argumentation is a composition textbook that outlines three essential skills rhetoric argument and source based writing geared towards newcomers and advanced students alike Though comprehensive in its coverage the book s focus is a simple one how to move beyond a gut reaction while reading to an articulation of what is effective and what is not while explicitly answering the most important question of Why This text gets at this central concern in two fundamental ways First the text teaches composition as a cumulative process coaching you how to question challenge and expand on not just the readings you hold in your hands but also how to interrogate the internal processes of writing and thinking The book s blend of composition methods detail the cross point of product and process to turn reading and writing from a matter of coming up with answers to questions to learning what type of questions need to be asked in the first place The right questions the text argues are fundamentally rhetorical in nature Second the content of the practice based chapters is framed into a larger mesh of intellectual history to show how the writing and thinking you are doing today is continuous with a long history of writing instruction that goes back to the ancient world This book provides equal representation from classical and contemporary theory with the recognition that theory cannot be fully grasped without practice and practice cannot be fully understood without its theoretical antecedent After all you can t write outside the box until you know where the box is and what it looks like

conceptual essays includes brief application to specific cases and five extended case studies are also presented in this volume. The case studies cover different themes: two explore famous political debates, the third focuses on presidential rhetoric across the course of United States history, the fourth on the arguments for liberalism at a time of political polarization, and the fifth on the contemporary effort to engage the United States with the Muslim world. This book is of interest to scholars in the fields of philosophy, logic, law, philosophy of law, and legal history. The range of topics and concepts addressed, the interplay of concepts and cases, and the unifying perspective of rhetorical argumentation make this book a valuable read for students of argumentative practice, whether rhetorically or otherwise. Classical Rhetoric and Contemporary Law Kirsten K.

Davis, Brian N. Larson, Francis J. Mootz, Kristen K. Tiscione, 2024-04-30. From the twin birth of western rhetoric and law in the Greek speaking world in the first millennium BCE, law and rhetoric were deeply connected in the ancient world. In the modern era of legal practice, the clear connections between law and classical rhetoric have largely been lost to both those trained in the law and those who study rhetoric. This interdisciplinary reader reestablishes those lost connections by pairing primary source materials in classical rhetoric and contemporary law. The chapters in this volume show that ancient rhetorical texts can deepen or disrupt contemporary notions about principles that lie at the root of western legal traditions and return to us our past, making it possible for scholars across several disciplines to build on work accomplished centuries before. Broken into four parts, this volume first covers the historical development of rhetoric. In Part Two, volume editor Mootz and scholar David A. Frank look at rhetorical theorists at bookends of an era when classical rhetoric was devalued as a mode of thought. Mootz discusses the hegemonic wave of Enlightenment epistemology that separated law from rhetoric, and Frank shows that where Cartesian rationality fails in the modern era, the humanistic tradition of rhetoric allows law to respond to the needs of justice. Part Three consists of ten chapters that each 1) introduce a classical rhetorical theorist to the reader, 2) provide an excerpt from a text by that theorist, and then 3) demonstrate the relevance of that work to a contemporary court case. Moving from the Sophists through Aristotle and Plato and their Greek contemporaries to the Roman rhetoricians Cicero and Quintilian, and finally to the early medieval rhetorician St. Augustine, these reprinted classical texts are contextualized by leading scholars in law, classics, and rhetoric, each with probing discussion questions for readers to engage and interact with the materials rhetorically. This vital resource of primary texts demonstrates how rhetoric illuminates the operation of the legal system and reconnects law to its rhetorical roots. Structured for use by scholars in critical inquiry and well suited for use in graduate or law school courses, Classical Rhetoric and Contemporary Law will be of interest to law, rhetoric, English, and communication scholars and as an interactive catalyst to examine the ways in which ancient rhetorical theory informs our understanding of law practice today.
