 borrowing between the emergent church EC and the Christian mystical tradition From its inception the EC has displayed
 interest in mystic practices but the exact nature of this interest or how these practices are appropriated and reinterpreted in
 the EC context has not been researched My research shows that the emergent church is appropriating Christian mystic
 practices by investing these practices with their own theological content The practices themselves are changed to fit in their
 new context showing that EC belief shapes EC behavior My study adds a new case study perspective to the sociological

examination of the process of spiritual borrowing especially through close inspection of how a spiritual practice changes to fit a new theological context Additionally my book contributes to the study of the complex relationship between belief and behavior **Encyclopedia of Catholicism** Frank K.
