Globalisation and Localisation Wang Ning, Sun Yifeng, 2008-03-28 The global local distinction has changed significantly and the topic has been heatedly debated in literary and cultural as well as translation scholarship In this age of globalisation the traditional definition of translation has been altered In the present anthology translation is viewed as a cultural and political practice and accordingly translation studies is based on a heightened awareness of global local tensions in translation and of its moderating and transforming impact on local cultural paradigms All the essays in this anthology deal with issues of translation from a cultural and theoretic perspective with regard to tensions and conflicts between global and local interests and values No matter how different their approaches may seem the essays are thematically integrated to discuss translation in a dialectical framework either globalising Chinese issues internationally or localising general and international issues domestically *Translating China as Cross-Identity Performance* James St. André, 2018-05-31 James St. Andr applies the perspective of cross identity performance to the translation of a wide variety of Chinese texts into English and French from the eighteenth to the twentieth centuries Drawing on scholarship in cultural studies queer studies and anthropology the author argues that many cross identity performance techniques including blackface passing drag mimicry and masquerade provide insights into the history of translation practice He makes a strong case for situating translation in its historical social and cultural milieu reading translated texts alongside a wide variety of other materials that helped shape the image of John Chinaman A reading of the life and works of George Psalmanazar whose cross identity performance as a native of Formosa enlivened early eighteenth century salons opens the volume and provides a bridge between the book's theoretical framework and its examination of Chinese European interactions The core of the book consists of a chronological series of cases each of which illustrates the use of a different type of cross identity performance to better understand translation practice St. Andr provides close readings of early pseudotranslations including Marana's Turkish Spy 1691 and

Goldsmith's *Citizen of the World* 1762 as well as adaptations of Hatchett's *The Chinese Orphan* 1741 and Voltaire's *Orphelin de la Chine* 1756. Later chapters explore Davis's translation of *Sorrows of Han* 1829 and genuine translations of nonfictional material mainly by employees of the East India Company. The focus then shifts to oral aural aspects of early translation practice in the nineteenth century using the concept of mimicry to examine interactions between Pidgin English and translation in the popular press. Finally the work of two early modern Chinese translators Gu Hongming and Lin Yutang is examined as masquerade. Offering an original and innovative study of genres of writing that are traditionally examined in isolation, St Andr's work provides a fascinating examination of the way three cultures interacted through the shifting encounters of fiction, translation and nonfiction and in the process helped establish and shape the way Chinese were represented. The book represents a major contribution to translation studies, Chinese cultural studies, postcolonial studies and gender criticism.

Anthology of Modern Indian Poetry Gwendoline Goodwin, 1927 *The Story of China Studies* Wang Ronghua, This insightful book is intended for foreigners who visit China or are working and living in China as well as for foreigners whose work is closely related to China. It includes knowledge of the country's recent past and acquaints readers with the six masters who are considered idols for many Chinese including almost all of China's important political leaders. The chapters also give an insight and a feel for present day China. The book illustrates the lives of these six masters of China Studies: men who woke up China from her sleep, gave special meaning to Chinese culture and inspired political leaders who are still alive in the hearts of the Chinese people. *The Story of China Studies* contains translations of *The Icy Mirror* which is Chinese physiognomy and *A Talk on Verses for Singing* a guidebook for reading and appreciating a unique form of Chinese verses called C.
