of what Christians do in present day churches is rooted not in the New Testament but in pagan culture and rituals developed long after the death of the apostles Coauthors Frank Viola and George Barna support their thesis with compelling historical evidence and extensive footnotes that document the origins of modern Christian church practices In the process the authors uncover the problems that emerge when the church functions more like a business organization than the living organism it was created to be As you reconsider Christ s revolutionary plan for his church to be the head of a fully functioning body in which all believers play an active role you ll be challenged to decide whether you can ever do church the same way again
