Understanding Leadership An Arts And Humanities Perspective:

Understanding Leadership Robert M McManus, Gamaliel Perruci, 2015-04-10 Lao Tzu Marx the Buddha Ibsen Machiavelli these are just a few of the world's great thinkers who have weighed in on the subject of leadership over the centuries. Yet the contemporary student of leadership often overlooks many of these names in favour of more recent theorists hailing from the social sciences. *Understanding Leadership An Arts and Humanities Perspective* takes a different angle, employing the works of the great philosophers, authors, and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership. The authors build their conceptual framework using The Five Components of Leadership Model, which recognizes the leader, the followers, the goal, the environmental context, and the cultural values and norms that make up the leadership process. Supporting the text are a wealth of case studies which reflect on works such as Ayn Rand's novella *Anthem*, Eugène Delacroix's painting *Liberty Leading the People*, Charlie Chaplin's film *Modern Times*, Athol Fugard's play *Master Harold and the Boys*, Lao Tzu's poetic work *Tao Te Ching*, and Antonín Dvořák's *New World Symphony*. The authors also introduce studies from various world cultures to particularly illustrate the role cultural values and norms play in leadership. This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world. *Understanding Leadership An Arts and Humanities Perspective* will be a valuable textbook for both undergraduate and postgraduate leadership students, while leadership professionals will also appreciate the book's unique liberal arts and cultural approach.

A Theory of Environmental Leadership Mark Manolopoulos, 2021-03-15 In *A Theory of Environmental Leadership* Mark Manolopoulos draws on his original model of leading outlined in his cutting edge book *Following Reason* to derive and develop the first properly systematic model of eco leadership Suppose humanity's relation with the Earth may be described in

terms of leadership stages or modalities once upon a time the Earth led or ruled humanity and now we humans rule or lead the Earth When the Earth led the Earth flourished now that humankind leads the Earth flounders ecological crises multiply and intensify However there might be a third stage or modality of leadership humanity leading for the Earth leading in a way that allows the world including humans to re flourish What would be the nature of this truly environmental form of leadership A Theory of Environmental Leadership identifies and critically analyzes the two basic and incompatible positions associated with the way we construe and interact with the non human anthropocentrism human supremacism and ecocentrism ecological egalitarianism By rigorously analyzing and leveraging this polarity this book outlines an innovative theory of eco leadership together with some of its confronting but necessary measures Expansive and incredibly timely A Theory of Environmental Leadership is ideal for a range of audiences from scholars and students of environmental leadership studies to activists and policymakers The book s remarkable clarity and engaging character also makes it suitable for the general public
