Perspectives for the Unification and Harmonisation of Family Law in Europe Katharina Boele-Woelki, 2003 Is the unification and harmonisation of international family law in Europe necessary Is it feasible desirable and possible Reading the different contributions to this book may certainly inspire those who would like to find the right answers to these questions

The Europeanisation of English Tort Law Paula Giliker, 2014-12-01 Tort law is often regarded as the clearest example of traditional common law reasoning Yet in the past 40 years the common law of England and Wales has been subject to European influences as a result of the introduction of the European Communities Act 1972 and more recently the implementation of the Human Rights Act 1998 in October 2000 EU Directives have led to changes to the law relating to product liability health and safety in the workplace and defamation while Francovich liability introduces a new tort imposing State liability for breach of EU law The 1998 Act has led to developments in privacy law and made the courts reconsider their approach to public authority liability and freedom of expression in defamation law This book explores how English tort law has changed as a result of Europeanisation broadly defined as the influence of European Union and European human rights law It also analyses how this influence has impacted on traditional common law reasoning Has Europeanisation led to changes to the common law legal tradition or has the latter proved more resistant to change than might have been expected

H. van Boom, 2004-01-01 Covers various European countries Israel South Africa and the United States Tort Liability of Public Authorities in European Laws Giacinto della Cananea, Roberto Caranta, 2020-12-15 This series argues that there is a common administrative core to European legal systems that can be better understood in comparative terms This volume examines government liability in tort using case studies to explore different government responses Part I sets the stage for the project and the parameters followed by the scholars involved Part II expands on the legal systems chosen for comparison setting up their general tort procedures Part III presents case studies from Austria the European Union France Germany Hungary Italy Poland Romania Spain Switzerland and the United Kingdom Each case study has a theoretical response detailing what would happen should that case occur within each country's borders Part IV compares and contrasts the information provided in Part III It examines both the commonalities and the distinctive traits of these legal systems with a view to understand the nature of their common core This volume is an essential tool for anyone involved in administrative and constitutional law and government liability in tort

Unification of Tort Law: Damages Francesco Donato Busnelli, 2001-01-17 The foundations of tort law in various European legal systems differ considerably Until now there has not been an attempt to harmonise the entire field of tort law in a consistent manner To rectify this a group of tort lawyers has proposed to address the fundamental questions underlying every tort law system The result is this important series of books which searches for a common law of Europe without the

necessity yet to lay these principles down in formal legal texts such as a European civil code Identifying the most relevant factors in establishing liability as wrongfulness causation damage fault and the area of strict liability the authors concentrate on the tort liability factor under discussion in each volume combining theoretical abstract analysis with the discussion of concrete cases Each author gives an overview of the particular tort liability factor under his or her national legal system primarily by working out the concept and its importance in establishing liability and then applies the analysis to actual cases The subsequent conclusions aim at the coordination of the results and other important factors In summary each volume tries to make clear what common ground pertaining to each tort liability factor underlies all the legal systems concerned with respect to the law of tort Each volume also provides the academic and practitioner with the fundamental issues relating to that factor underlying the law of tort in the countries covered
