Weimar In Exile The Antifascist Emigration In Europe And America:

Weimar in Exile Jean-Michel Palmier, 2006-07-17 In 1933 thousands of intellectuals artists writers militants and other opponents of the Nazi regime fled Germany Including such figures as Walter Benjamin Ernst Bloch Bertolt Brecht and Heinrich Mann they were the best of Germany refusing to remain citizens in this new state that legalized terror and brutality They emigrated all across the globe to Paris Amsterdam Prague Oslo Vienna New York Los Angeles Shanghai Mexico Jerusalem Moscow Often distrusted as Germans in the countries they arrived in they struggled to survive and some committed suicide in despair But throughout their exile they strove to give expression to the fight against Nazism through their work in prose poetry and painting architecture film and theater Weimar in Exile follows these lives from the rise of national socialism to the return to their ruined homeland retracing their stories struggles setbacks and rare victories In this absorbing and magisterial work Jean Michel Palmier provides a compelling and detailed history of those whose dignity in exile is a moving counterpoint to the story of Germany under the Nazis *Dynamics of Emigration* Stefan Berger, Philipp Müller, 2022-08-12 As a pioneering volume to consider the impact of exile on historical scholarship in the twentieth century in a systematic and global way looking at Europe North America South America and Asia *Dynamics of Emigration* asks about epistemic repercussions on the experience of exile and exiles Analyzing both the impact that exile scholars had on their host societies and on the societies they had to leave the volume investigates exiles pathways to integration into new host societies and the many difficulties they face establishing themselves in new surroundings Focusing on the age of extremes and the realms of exile from fascist and right wing dictatorships as well as communist regimes the contributions look at the reasons scholars have for going into exile while providing side by side examination of the support organizations and paths for success involved with living in exile *Jewish Exiles and European Thought during the Third Reich* David Weinstein, Avihu Zakai, 2017-07-06 A study of how forced exile from 1930s Germany informed the scholarship of four German speaking Jewish intellectuals *Central European Jewish Émigrés and the Shaping of Postwar Culture: Studies in Memory of Lilian Furst (1931-2009)* Julie Mell, Malachi Hachohen, 2018-10-08 This book is a printed edition of the Special Issue Between Religion and Ethnicity Twentieth Century Jewish migrants and the Shaping of Postwar Culture that was published in Religions **Roman Law and the Idea of Europe** Kaius Tuori, Heta Björklund, 2018-12-27 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com It is funded by the European Research Council Roman law is widely considered to be the foundation of European legal culture and an inherent source of unity within European law *Roman Law and the Idea of Europe* explores the emergence of this idea of Roman law as an idealized shared heritage tracing its origins among exiled German scholars in Britain during the Nazi regime The book follows the spread and influence of these ideas in Europe after the war as part of the larger enthusiasm for European unity It argues that the rise of the importance of Roman law was a reaction against the crisis of jurisprudence in the face of Nazi

ideas of racial and ultranationalistic law leading to the establishment of the idea of Europe founded on shared legal principles With contributions from leading academics in the field as well as established younger scholars this volume will be of immense interests to anyone studying intellectual history legal history political history and Roman law in the context of Europe

European Encounters Carlos Reijnen, Marleen Rensen, 2014-04-20 *European Encounters* explores the making and remaking of ideas of Europe between 1914 and 1945 as a result of intellectual encounters and intellectual exchange Against the background of the first half of the twentieth century European intellectuals feverishly chased new and uncharted territories most often across national borders Their encounters with other intellectuals or ideas cultures concepts and practices produced new understandings of Europe and triggered projects for Europe's future West European writers turned to Russian literature Catholic politicians from Northern Europe embraced corporatist and fascist solutions from Mediterranean Europe scientist pointed at science and their network as sources of peace and reconciliation and others committed themselves to the European federalism of the Pan Europa Movement This volume unravels the encounters and exchanges that lie at the roots of this attempt at rethinking Europe

Poetry & Displacement Stan Smith, 2007-11-01 The paradigmatic figure of twentieth century history is the displaced person a concept which emerged from the demographic migrations deportations and genocidal purges that accompanied two world wars the destruction and construction of nation states and the restructuring of the global order which they occasioned These processes almost inevitably fostered a poetry of exile and expatriation intimately bound up with the experience of modernity and the culture of modernism culminating in the postcolonial era with the globalisation of displacement as the determining condition of postmodernity In this timely new volume renowned poetry critic Stan Smith examines a number of poets Plath Larkin Heaney Walcott Middleton Fisher Duffy through the lens of displacement

Kurt Weill's America Naomi Graber, 2021 When German Jewish composer Kurt Weill arrived in the United States in 1935 he found a nation nothing like he imagined This book tells the full story of Weill as outsider turned insider showing how he was keenly attuned to the difficult relationship America had with her immigrants but was slower to grasp the subtleties of race relations

The Golden Age of Phenomenology at the New School for Social Research, 1954-1973 Lester Embree, Michael D. Barber, 2017-09-11 This collection focuses on the introduction of phenomenology to the United States by the community of scholars who taught and studied at the New School for Social Research from 1954 through 1973 During those years Dorion Cairns Alfred Schutz and Aron Gurwitsch all former students of Edmund Husserl came together in the department of philosophy to establish the first locus of phenomenology scholarship in the country This founding trio was soon joined by three other prominent scholars in the field Werner Marx Thomas M Seebom and J N Mohanty The Husserlian phenomenology that they brought to the New School has subsequently spread through the Anglophone world as the tradition of Continental philosophy The first part of this volume includes original works by each of these six influential teachers of phenomenology introduced either by one of their students or in the case of

Seeböhm and Mohanty by the thinkers themselves The second part comprises contributions from twelve leading scholars of phenomenology who trained at the New School during this period The result is a powerful document tracing the lineage and development of phenomenology in the North American context written by members of the first two generations of scholars who shaped the field Contributors Michael Barber Lester Embree Jorge Garc a G mez Fred Kersten Thomas M T Luckmann William McKenna J N Mohanty Giuseppina C Moneta Thomas Nenon George Psathas Osborne P Wiggins Matthew M Seeböhm and Richard M Zaner *Italian Jewish Musicians and Composers under Fascism* Alessandro Carrieri, Annalisa Capristo, 2021-05-13 This book is the first collection of multi disciplinary research on the experience of Italian Jewish musicians and composers in Fascist Italy Drawing together seven diverse essays from both established and emerging scholars across a range of fields this book examines multiple aspects of this neglected period of music history including the marginalization and expulsion of Jewish musicians and composers from Italian theatres and conservatories after the 1938 39 Race Laws and their subsequent exile and persecution Using a variety of critical perspectives and innovative methodological approaches these essays reconstruct and analyze the impact that the Italian Race Laws and Fascist Italy s musical relations with Nazi Germany had on the lives and works of Italian Jewish composers from 1933 to 1945 These original contributions on relatively unresearched aspects of historical musicology offer new insight into the relationship between the Fascist regime and music *Does Generation Matter? Progressive Democratic Cultures in Western Europe, 1945-1960* Jens Späth, 2018-05-21 Generation has become a central concept of cultural historical and social studies This book analyses how this concept is currently used and how it relates to memory and constructions of historical meaning from educational historical legal and political perspectives Attempts to compare different national generations or to elaborate boundary crossing transnational generations still constitute an exception In trying to fill this gap this collection of essays concentrates on one crucial moment of the age of extremes and on one specific generation the year 1945 and its progressive politicians and intellectuals Focusing on Italy West Germany and France it suggests that the concept of generation should be regarded as an open question in space and time Therefore this volume asks what role generation played in the intellectual and political debates of 1945 if it facilitated change if it served as source of solidarity and cohesion and how post war societies organized their time *Democracy in Exile* Daniel Bessner, 2018-04-15 In *Democracy in Exile* Daniel Bessner explores the life of Hans Speier one of the most significant figures in the history of U S defense policy Bessner traces Speier s intellectual development from Weimar Germany to the Cold War United States revealing how his European roots shaped the expert driven approach to foreign policymaking that American elites institutionalized during and after World War II A key figure in a transatlantic network of migr policymakers and analysts Speier helped establish novel institutions such as the RAND Corporation that transformed how U S foreign policy was made *Democracy in Exile* highlights how social scientists like Speier left academia to create a military intellectual complex that insulated American decision making from public opinion

and that continues to shape U S defense policy today **Traces of a Jewish Artist** Kerry Wallach,2024-03-12 Graphic artist illustrator painter and cartoonist Rahel Szalit 1888 1942 was among the best known Jewish women artists in Weimar Berlin But after she was arrested by the French police and then murdered by the Nazis at Auschwitz she was all but lost to history and most of her paintings have been destroyed or gone missing Drawing on a range of primary and secondary sources this biography recovers Szalit s life and presents a stunning collection of her art Szalit was a sought after artist Highly regarded by art historians and critics of her day she made a name for herself with soulful sometimes humorous illustrations of Jewish and world literature by Sholem Aleichem Heinrich Heine Leo Tolstoy Charles Dickens and others She published her work in the mainstream German and Jewish press and she ran in artists and queer circles in Weimar Berlin and in 1930s Paris Szalit s fascinating life demonstrates how women artists gained access to Jewish and avant garde movements by experimenting with different media and genres This engaging and deeply moving biography explores the life work and cultural contexts of an exceptional Jewish woman artist Complementing studies such as Michael Brenner s The Renaissance of Jewish Culture in Weimar Germany this book brings Rahel Szalit into the larger conversation about Jewish artists Expressionism and modern art

Smaldone, 2022-11-21 As the author of the ground breaking work of Marxist political economy Finance Capital and a leader in the German Social Democratic Party Rudolf Hilferding was a dominant intellectual and political figure in the history of European socialism from its halcyon days in the pre 1914 era until its collapse in the

1930s This collection of his previously unpublished correspondence allows readers to trace the evolution of Hilferding's thought as socialism's fortunes declined and his own fate became precarious It shows how in the face of rising Stalinism and fascism democracy remained at the core of his socialist vision *Asylum between Nations* Janet Polasky, 2023-05-16 Why some of the most vulnerable communities in Europe from independent cities to new monarchies welcomed refugees during the Age of Revolutions and prospered Janet Polasky unearths an unappreciated history of the experience of asylum in Europe and the United States since the Age of the Democratic Revolutions Facing squarely the destruction of asylum in our own time she ends with a stunningly optimistic vision of a path toward its reconstruction Linda K Kerber author of *No Constitutional Right to Be Ladies* Driven from their homelands refugees from ancient times to the present have sought asylum in worlds turned upside down Theirs is an age old story So too are the solutions to their plight In the wake of the American and French Revolutions thousands of men and women took to the roads and waterways on both sides of the Atlantic refugees in search of their inalienable rights Although larger nations fortified their borders and circumscribed citizenship two port cities German Hamburg and Danish Altona opened their doors as did the federated Swiss cantons and the newly independent Belgian monarchy The refugees thrived and the societies that harbored them prospered The United States followed not only welcoming waves of immigrants in the mid nineteenth century but offering them citizenship as well In this remarkable story of the first modern refugee crisis historian Janet Polasky shows how open doors can be a viable alternative to the building of border walls
