Welcome Address For A Womans Conference:

The World's Congress of Representative Women May Wright Sewall, 1894 *The Rise of Women's Transnational Activism* Marie Sandell, 2015-01-26 What characterised women's international co-operation in the interwar period? How did female activists from different countries and continents relate to one another? Marie Sandell here explores the changing experiences of women involved in the major international women's organisations including the International Council of Women, International Alliance of Women, Women's International League for Peace and Freedom and the International Federation of University Women, as well as the changing compositions and aims of the organisations themselves. Moving beyond an Anglo-American focus, Sandell analyses what the term international sisterhood meant in this broader context, which for the first time included women from the beyond the Western world. Focusing on shifting identities, this book investigates how notions of sisterhood were played out and contested during the interwar period and will be invaluable reading for scholars of women's history and twentieth-century world history.

The World's Congress of Representative Women, 1894 **The Indian Quarterly Register**, 1927 *The Indian Annual Register*, 1919 International Co-operative Bulletin, 1921 **The Indian Social Reformer**, 1928 **Journal of the American Association of University Women**, 1924 Democracy and Unity in India Emily Rook-Koepsel, 2019-05-08 This book analyzes the ways in which organizations and individuals in India grappled with and contested definitions of democracy and unity in the decades directly preceding and following independent Indian statehood. The All India Scheduled Castes Federation and the All India Women's Conference are used as case studies to explore Indian Dalit and women activists' attempts to reconceptualize universal citizenship, Indian identity, dissent, and principled democracy during a moment of uncertainty in India's political life. The author argues that because the Indian nation and the Indian state remained in flux during the 1940s and 50s, marginal political actors, writers, social activists, and others were able to propose novel forms of democratic participation and new ideas about what it would mean to be a unified state that appreciates political responsibility, a respect for difference, and a broader perspective of the population. Moreover, this book suggests that this redefinition of Indian politics is more widespread than generally understood and considers how strategies used by both organizations featured have continued to be part of the national story about democracy and dissent in India. Through an examination of public discourse, caste politics, women's rights advocacy, and popular literature, this book excavates the traces of fundamental uncertainty regarding definitions and expectations of democracy and unity in India. It will be of interest to academics in the fields of modern South Asian history, democracy and nationalism, postcolonialism, gender studies, political organization, and global history.
