

The background of the book cover is a painting of a vast, rolling green landscape under a blue sky with wispy clouds. A wide, winding red path, resembling a carpet or a road, leads from the bottom left towards the upper right. Two small, dark silhouettes of birds are visible in flight above the path. The title 'Vulnerable Communion' is written in a large, white, serif font across the top of the image, with the words stacked.

Vulnerable Communion A Theology Of Disability And Hospitality:

Vulnerable Communion Thomas E. Reynolds, 2008-04-01 As parents of a son with disabilities Thomas E Reynolds and his wife know what it is like to be misunderstood by a church community In *Vulnerable Communion* Reynolds draws upon that personal experience and a diverse body of literature to empower churches and individuals to foster deeper hospitality toward persons with disabilities Reynolds argues that the Christian story is one of strength coming from weakness of wholeness emerging from brokenness and of power in vulnerability He offers valuable biblical theological and pastoral tools to understand and welcome those with disabilities *Vulnerable Communion* will be a useful resource for any student theologian church leader or lay person seeking to discover the power of God revealed through weakness Disability and Christian Theology Embodied Limits and Constructive Possibilities Deborah Beth Creamer, 2009-01-05 Attention to embodiment and the religious significance of bodies is one of the most significant shifts in contemporary theology In the midst of this however experiences of disability have received little attention This book explores possibilities for theological engagement with disability focusing on three primary alternatives challenging existing theological models to engage with the disabled body considering possibilities for a disability liberation theology and exploring new theological options based on an understanding of the unsurprisingness of human limits The overarching perspective of this book is that limits are an unavoidable aspect of being human a fact we often seem to forget or deny Yet not only do all humans experience limits most of us also experience limits that take the form of disability at some point in our lives in this way disability is more normal than non disability If we take such experiences seriously and refuse to reduce them to mere instances of suffering we discover insights that are lost when we take a perfect or generic body as our starting point for theological reflections While possible applications of this insight are vast this work focuses on two areas of particular interest theological anthropology and metaphors for God This project challenges theology to consider the undeniable diversity of human embodiment It also enriches previous disability work by providing an alternative to the dominant medical and minority models both of which fail to acknowledge the full diversity of disability experiences Most notably this project offers new images and possibilities for theological construction that attend appropriately and creatively to diversity in human embodiment *Colin Gunton's Trinitarian Theology of Culture* Andrew Picard, 2024-06-27 Whilst upholding some of the criticisms of Colin Gunton's work this incisive book argues that there is a Hauptbrief in Gunton reception that assumes his early classic works *The One the Three and the Many* and *The Promise of Trinitarian Theology* 1st ed are definitive of his project and fail to engage adequately with the progressions in Gunton's later thought Instead this book offers a fresh reading of Gunton by giving greater prominence to his later writings which are centred in the mediation of the Son and the Spirit in creation Andrew Picard argues that Gunton's trinitarian theology of culture emerges from his later trinitarian theology of mediation creation Christology pneumatology and ecclesiology Exploring these doctrinal foci enables an understanding of Gunton's account of faithful human culture as

embodied worship a living sacrifice of praise which contributes to the divine redemption and perfection of creation It is the church's particular calling to embody such praise through its visible life in community The study concludes by intersecting Gunton's theology with the social sciences to critique ableism and consider the politics of the church's belonging in community

Theology and the Experience of Disability Andrew Picard, Myk Habets, 2016-04-28 The Christian gospel compels humanity to embrace deeper ways of being human together that will overcome false divisions and exclusions in search of flourishing and graced communities Presenting both short narratives emerging out of theological reflection on experience and analytical essays arising from engagement in scholarly conversations Theology and the Experience of Disability is a conscious attempt to develop theology by and with people with disabilities instead of theology about people with disabilities A mixture of academic professional practical and or lived experience is brought to the topic in search of constructive multi disciplinary proposals for church and society The result is an interdisciplinary engagement with the constructive possibilities that emerge from a distinctly Christian understanding of disability as lived experience

Disability in the Christian Tradition Brian Brock, John Swinton, 2012-08-06 For two millennia Christians have thought about what human impairment is and how faith communities and society should respond to people with perceived impairments But never has one volume collected the most significant Christian writings on disability This book fills that gap Brian Brock and John Swinton's Disability in the Christian Tradition brings together for the first time key writings by thinkers from all periods of Christian history including Augustine Aquinas Julian of Norwich Luther Calvin Hegel Kierkegaard Bonhoeffer Barth Hauerwas and more Fourteen contemporary experts in theology and disability studies guide readers through each era or group of thinkers offering clear commentary and highlighting important themes

Bothering to Love Vogt, Christopher P., Ward, Kate, 2024-08-28 *Theological Perspectives on Reimagining Friendship and Disability* Martina Vuk, 2023-07-14 This book rethinks the anthropology of friendship from the perspective of theology and disability and suggests the respect for human dignity and the person's vulnerability as the criterion in reconsidering such an anthropology The reality of disability is not only the reality of being in the world but also concerns the concept of the meaning of otherness and being created as an image of God The constructive critique that the emergence of disability as a human condition posits to theo anthropological and ethical concepts is the quest of the renewal of theo anthropological and ethical knowledge on the meaning of disability otherness and friendship The theological and anthropological entities such as disability and friendship are interconnected in a sense that the meaning of the one needs to be explained in the light of the other and vice versa The renewal of certain anthropological categories in such regard is a search for a deeper understanding of humanity not apart from but in light of the presence of disability The book examines the anthropological and theological systems regarding the theme of friendship and disability

Matthews,2022-10-13 Many people think that profound disability presents us with a real problem often because it seems difficult to connect with someone who does not seem to think or act like us Positioning profound disability in this way immediately sets up a them and us where the person with profound disability becomes the problematic other Attempts to bridge the them and us risk reducing everyone to the same where disability is not taken seriously In contrast to a them and us and negative connotations of the other found in the existentialist philosophies of writers like Sartre and Beauvoir Pia Matthews argues for a return to a positive view of the other One positive approach to the other based on an ethics of relationship as championed by Levinas seems to mitigate the other ness of profound disability However this still makes the person with profound disability dependent on the ethical concern of the more powerful other Instead this book argues for return to a personalist philosophy of being offered by Mounier Marcel and Wojtya a and deepened by participation belonging and the possibility of contributing to the good of all This deepened philosophy of being gives a more solid foundation for people who are especially at the mercy of others It will be of interest to all scholars and students of disability studies philosophy and anthropology **Routledge Handbook of Physical Cultural Studies** Michael Silk,David Andrews,Holly

Whitaker,2025-03-28 The pursuit of bodily perfection is a cultural impetus persistent throughout history which has become a dominating force in modern Western culture where the image you present to the world on social media counts for everything A new generation of theologians are wrestling with these issues in their everyday lives and their areas of scholarship There is they argue a real need for an interdisciplinary work that is academically robust and practically meaningful to our cultural moment **Disability in Judaism, Christianity, and Islam** Darla Schumm,Michael J. Reconsidering Intellectual Disability Jason Reimer Greig, 2015-08-18 Drawing on the controversial case of Ashley X a girl with severe developmental disabilities who received interventionist medical treatment to limit her growth and keep her body forever small a procedure now known as the Ashley Treatment Reconsidering Intellectual Disability explores important questions at the intersection of disability theory Christian moral theology and bioethics What are the biomedical boundaries of acceptable treatment for those not able to give informed consent Who gets to decide when a patient cannot communicate their desires and needs Should we accept the dominance of a form of medicine that identifies those with intellectual impairments as pathological objects in need of the normalizing bodily manipulations of technological medicine In a critical exploration of contemporary disability theory Jason Reimer Greig contends that L Arche a federation of faith communities made up of people with and without intellectual disabilities provides an alternative response to the predominant bioethical worldview that sees disability as a problem to be solved Reconsidering Intellectual Disability shows how a focus on Christian theological tradition's moral thinking and practice of friendship with God offers a way to free not only people with intellectual disabilities but all people from the objectifying gaze of modern medicine L Arche draws inspiration from Jesus's solidarity with the least of these and a commitment to Christian friendship that sees people with profound cognitive disabilities not as anomalous objects of pity but as fellow friends of God This vital act of social recognition opens the way to understanding the disabled not as objects to be fixed but as teachers whose lives can transform others and open a new way of being human
