Washington Rules Americas Path To Permanent War American Empire Project:

Washington Rules Andrew Bacevich, 2010-08-03 The bestselling author of *The Limits of Power* critically examines the Washington consensus on national security and why it must change For the last half century as administrations have come and gone the fundamental assumptions about America s military policy have remained unchanged American security requires the United States and us alone to maintain a permanent armed presence around the globe to prepare our forces for military operations in far flung regions and to be ready to intervene anywhere at any time In the Obama era just as in the Bush years these beliefs remain unquestioned gospel In *Washington Rules* a vivid incisive analysis Andrew J Bacevich succinctly presents the origins of this consensus forged at a moment when American power was at its height He exposes the preconceptions biases and habits that underlie our pervasive faith in military might especially the notion that overwhelming superiority will oblige others to accommodate America s needs and desires whether for cheap oil cheap credit or cheap consumer goods And he challenges the usefulness of our militarism as it has become both unaffordable and increasingly dangerous Though our politicians deny it American global might is faltering This is the moment Bacevich argues to reconsider the principles which shape American policy in the world to acknowledge that fixing Afghanistan should not take precedence over fixing Detroit Replacing this Washington consensus is crucial to America s future and may yet offer the key to the country s salvation

The Oxford Handbook of Modern and Contemporary American Poetry Cary Nelson, 2012-01-06 The *Oxford Handbook of Modern and Contemporary American Poetry* gives readers a cutting edge introduction to the kaleidoscopic world of American poetry over the last century Offering a comprehensive approach to the debates that have defined the study of American verse the twenty five original essays contained herein take up a wide array of topics the influence of jazz on the Beats and beyond European and surrealist influences on style poetics of the disenfranchised religion and the national epic antiwar and dissent poetry the AIDS epidemic digital innovations transnationalism hip hop and more Alongside these topics major interpretive perspectives such as Marxist psychoanalytic disability queer and ecocritical are incorporated Throughout the names that have shaped American poetry in the period Ezra Pound Wallace Stevens Marianne Moore Mina Loy Sterling Brown Hart Crane William Carlos Williams Posey Langston Hughes Allen Ginsberg John Ashbery Rae Armantrout Larry Eigner and others serve as touchstones along the tour of the poetic landscape

Masculinity and Monstrosity in Contemporary Hollywood

Films K. Combe, B. Boyle, 2013-11-11 In film *Men are good and Monsters are bad* In this book Combe and Boyle consider the monstrous body as a metaphor for the cultural body and regard gendered behavior as a matter of performativity Taken together these two identity positions manliness and monsterliness offer a window into the workings of current American society

Hubris, Self-Interest, and America's Failed War in Afghanistan Thomas P. Cavanna, 2015-07-22 This book describes the conduct of the US led post 9 11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era

it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach. Given the bureaucratic and rhetorical momentum triggered by the war on terror in America, the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq. The need to satisfy unfulfilled counterterrorism objectives made the US dependent on Afghanistan's warlords, which compromised the country's stability and tarnished its new political system. The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders, who, aware of America's logistical dependency on Islamabad, supported the Afghan insurgents, their historical proxies, more and more openly. The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations, destabilizing the area further. In the meantime, the need to justify the extension of its military presence influenced the US-led coalition into proclaiming its determination to democratize and reconstruct Afghanistan. While highly opportunistic, the emergence of these policies proved both self-defeating and unsustainable due to an inescapable collision between the US-led coalition's inherent self-interest, hubris, limited knowledge, limited attention span, and limited resources, and on the other hand, Afghanistan's inherent complexity. As the critical contradictions at the very heart of the campaign increased with the extension of the latter's duration, scale, and cost, America's leaders, entrapped in path dependence, lost their strategic flexibility. Despite debates on troops, resource allocation, and more sophisticated doctrines, they repeated the same structural mistakes over and over again. The strategic overreach became self-sustaining until its costs became intolerable, leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough.

The Assault on Public Education William Watkins, 2015-04-24

In this timely interdisciplinary volume, William Watkins has brought together leading scholars and activists to address some of the most urgent issues facing public education. What is underneath and behind the language of choice, efficiency, and improvement in current neoliberal discourse? How will urban and poor populations be affected? Will privatization lead to increased stratification in our schools? How can public education not only be saved but reimagined? In accessible language, renowned contributors explore and critique corporate school reform to both inform and serve as an organizing tool for teachers, parents, students, and citizens committed to genuine public education.

Book Features:

- A comprehensive critique of how corporate power is disrupting universal public education.
- An illumination of how corporate school reform threatens unions, racial progress, and democracy.
- An illustration of how private wealth forges public policy.
- A case study of the public school system in New Orleans.

Contributors: Pauline Lipman, Kenneth Saltman, Alfie Kohn, Jack Gerson, Malila N. Robinson, Catherine A. Lugg, William H. Watkins, Ann G. Winfield, Kristen L. Buras.

William H. Watkins is a professor at the University of Illinois at Chicago and author of *The White Architects of Black Education*. As *The Assault on Public Education* makes so very clear, we are witnessing the growth of a destructive set of policies in education and the larger society. This book provides us with a set of articulate analyses of what the future will likely hold if we do not engage in the

hard and committed labor of countering these dangerous tendencies today From the Foreword by Michael W Apple University of Wisconsin Madison The Assault on Public Education is a powerful assemblage of scholars practitioners and activists who are willing to stand up to the entrenched interests arrayed against public education as we know it This is a must read for thinking citizen scholars Gloria Ladson Billings University of Wisconsin Madison Today is a pivotal moment for America and its schools Teachers and others who envision schools that enhance democratic life will find critical theoretical and practical guidance in this book Use it Daniel Perlstein Graduate School of Education University of California Berkeley Watkins has produced an important and timely work a much needed corrective to the dumbing down of educational policy discourse The essays here offer a very real challenge to those who have confounded market based policy with school reform and the well being of children with the well being of corporations Charles Payne University of Chicago *America's War Machine* James McCartney, Molly Sinclair McCartney, 2015-10-27 Award winning Washington reporter James McCartney and his wife and co writer Molly Sinclair McCartney reveal how reckless military spending has made the U S into a perpetual war machine Redefining Human Rights in the Struggle for Peace and Development Terrence E. Paupp, 2014-01-20 Examines the history of the struggle to advance human rights and provides a global framework of constitutional protections to implement these rights Face of Imperialism Michael Parenti, 2015-10-23 The relationship between US economic and military power is not often considered within mainstream commentary Similarly the connection between US military interventions overseas and US domestic problems is rarely considered in any detail In this brilliant new book Michael Parenti reveals the true face of US imperialism He documents how it promotes unjust policies across the globe including expropriation of natural resources privatisation debt burdens and suppression of democratic movements He then demonstrates how this feeds into deteriorating living standards in the US itself leading to increased poverty decaying infrastructure and impending ecological disaster The Face of Imperialism redefines empire and imperialism and connects the crisis in the US with its military escapades across the world **How Wars End** Gideon Rose, 2011-12-20 Argues that the failure of the United States to create successful peace settlements when ending the major wars of the twentieth century has only led to subsequent conflicts and new wars which attempt to resolve the issues of the previous war US Nation-Building in Afghanistan Conor Keane, 2016-03-31 Why has the US so dramatically failed in Afghanistan since 2001 Dominant explanations have ignored the bureaucratic divisions and personality conflicts inside the US state This book rectifies this weakness in commentary on Afghanistan by exploring the significant role of these divisions in the US s difficulties in the country that meant the battle was virtually lost before it even began The main objective of the book is to deepen readers understanding of the impact of bureaucratic politics on nation building in Afghanistan focusing primarily on the Bush Administration It rejects the rational actor model according to which the US functions as a coherent monolithic agent Instead internal divisions within the foreign policy bureaucracy are explored to build up a picture of the internal tensions and

contradictions that bedevilled US nation building efforts The book also contributes to the vexed issue of whether or not the US should engage in nation building at all and if so under what conditions
