Spellman's Standard Handbook Wastewater Operators Frank R. Spellman, 2000-04-10 Spellman's Standard Handbook for Wastewater Operators is a three volume study guide and readily accessible source of information for review in preparing wastewater personnel for operator certification and licensure. These handbooks are resource manuals and troubleshooting guides that contain a compilation of wastewater treatment information, data, operational material, process control procedures, and problem solving safety and health information, new trends in wastewater treatment administration and technology, and numerous sample problem solving practice sets, many based on actual tests. The Handbook volumes review the wastewater operator's job related knowledge as job requirements identified by the examination developers as essential for a minimally competent Class IV through Class I or Grade I through Grade V wastewater treatment plant operator. Every attempt has been made to make the three Handbook volumes as comprehensive as possible while maintaining their compact practical format. *Wastewater Treatment Fundamentals* Water Environment Federation, 2020-12-22. The more than 800 study questions and answers in this study companion represent all aspects of liquid treatment processes and help operators prepare for the first three levels of certification examinations. Practicing these questions will allow operators to practically measure and improve their knowledge of the basics of liquid treatment as well as critical aspects of biological treatment, nutrient removal, and disinfection. These questions are also included as Test Your Knowledge questions in the *Wastewater Treatment Fundamentals I: Liquid Treatment* training manual and online course developed in collaboration with the Association of Boards of Certification (ABC). This separate study guide is intended for those operators who do not have the opportunity to use the training manual or online course for study. The peer reviewed resources in the *Wastewater Treatment Fundamentals* series represent the expertise of hundreds of water quality professionals. They align with updated Need to Know Criteria from the Association of Boards of Certification and are based on WEF's extensive existing resource collection including *Operation of Water Resource Recovery Facilities* MOP 11.
