Waterloo Archive Volume I British Sources:

The Waterloo Archive Volume I: British Sources Gareth Glover, 2010-01-30 Originally published in 1900 this book features excerpts from Alexander Cavali Mercer's account of the battle of Waterloo. As an artillery officer at the sharp end, this is his eye witness account of the events that lead to Napoleon's final defeat in June 1815. This is the contemporary view of how the events were conveyed to the public of Great Britain. Featuring original engravings from the Illustrated London News and the Graphic and many paintings from the era, this book was written during the height of the British Empire and the triumphalist mood of the day is reflected in the tone of the text. This detailed military history provides an echo of the contemporary attitudes to this turbulent time which shaped the destiny of the British Empire. This book is part of the Military History From Primary Sources series, a new military history range compiled and edited by Emmy Award winning author and historian Bob Carruthers. The series draws on primary sources and contemporary documents to provide a new insight into the true nature of warfare. The series consultant is David McWhinnie, creator of the award winning PBS series Battlefield.

The Waterloo Archive Gareth Glover, 2012-03-27 The British archives of the Napoleonic wars are unique, brimming with personal letters to family and friends or journals that record their innermost thoughts. The human aspect of war comes to the fore: the humor and exhilaration, the fears and miseries, the starvation and exhaustion, the horror and the joy. It is usually accepted that very few common soldiers of this period could read or write, and that the few letters and journals that do exist emanate from more senior officers who were required to be able to write to perform their duties. Volume I proved this to be a fallacy, and this volume continues with a further three accounts and shows how the ordinary soldier saw things, giving a different aspect to our studies. Also included: The poignant final letters of older family men such as Major Arthur Heyland, noticeably with the bawdy and carefree scribbles of youth by such as Ensign Kinchant, including describing his visits to bordellos who also lost his life that day. A long series of letters by Lieutenant Frederick Johnston of the 6th Inniskillings and of Lieutenant George Blathwayt of the 23rd Light dragoons sheds important light on cavalry regiments who have few previously published memoirs. A very interesting letter by Second Lieutenant Richard Cocks Eyre of the 2nd Battalion 95th Rifles makes a mockery of the myth that British troops did not openly plunder the local farmhouses before the battle for food and fuel to burn. A letter by a civilian visitor to the area six weeks after the battle ends this volume, which will engage and fascinate the reader.

The Waterloo Archive Volume IV: British Sources Gareth Glover, 2012-10-24 In the first groundbreaking volume of a new series, acclaimed Napoleonic scholar Gareth Glover brings together previously unpublished material relating to the Battle of Waterloo. The range and unique nature of much of the research will intrigue and fascinate enthusiasts and historians alike. The wealth of hitherto unseen British material contained in Volume I includes a series of letters written by a senior officer on Wellington's staff to Sir Thomas Graham immediately following the battle, the letters of a member of the Wedgwood family in the Guards at Waterloo, the journal of Sergeant Johnston of the Scots Greys detailing all

his experiences including a very rare transcript of his own court martial and letters from eminent surgeons including those of Hume Davy and Haddy James who recall their harrowing tales of the horrific wounds suffered at Waterloo In addition to these letters and journals this volume will include 21 original line drawings created by Cavali Mercer to accompany his famous book on his experiences at Waterloo but which was never published Subsequent volumes will include French German Dutch and Belgian material that has never been translated into English before *The Waterloo Archive* Gareth Glover,2014-10-30 So much has been written on the subject of the Battle of Waterloo and the campaign that surrounds it that the reader might think that there is simply nothing new to tell However the archives of Europe are teeming with fascinating documents personal letters to family and friends private journals and official reports that have been virtually ignored in many standard histories of the period In the ground breaking Waterloo Archive series Gareth Glover has set out to unearth this buried material and to finally expose it to public scrutiny In doing so he brings the human aspect of war and military campaigning to the fore the humor and exhilaration the fears and miseries the starvation and exhaustion the horror and the joy He also provides an invaluable new source which will challenge preconceptions disprove theories destroy myths and allow for a complete re evaluation of many key aspects of the campaign In this sixth and final volume in the series published to coincide with the two hundredth anniversary of the campaign Glover has again turned his attention to the British sources

Fremont-Barnes,2014-11-03 Writing to his mother the day after the fighting Captain Thomas Wildman of the 7th Hussars described a victory so splendid important that you may search the annals of history in vain for its parallel Little wonder for Waterloo was widely recognised even in its immediate wake as one of the most decisive battles in history after more than twenty years of uninterrupted conflict this single day s encounter finally put paid to French aspirations for European hegemony The culminating point of the French Revolutionary and Napoleonic Wars Waterloo also witnessed levels of determination and bravery by both sides which far exceeded anything experienced by the veterans of Wellington s recent

campaigns in Spain and Portugal. Indeed it was that unconquerable spirit which left over 50 000 men dead on the field of battle and tens of thousands of others wounded. This thoroughly researched and highly detailed account of one of history's greatest human dramas looks first at the wider strategic picture before focusing on the tactical roles played by individual British units, all meticulously examined with the benefit of an extensive array of hitherto unexploited primary sources which reveal the battlefield experience of officers and soldiers as never before. Refusing simply to repeat the same unchallenged accounts and to commit the same errors of previous historians, this work relies exclusively on hundreds of first hand accounts by men of all ranks and from practically every British regiment and corps present on that fateful day to provide a fresh and revised perspective on one of the most pivotal events of modern times.

The Waterloo Archive: German sources Gareth Glover, 2013. This volume translates the memoirs and letters from the troops of Hanover, Brunswick and Nassau into English for the first time. It seeks to put this right and to bring to life the human story of these German soldiers, many of whom entered the fight alongside the British at Waterloo with mixed emotions.

The Waterloo Archive: British sources Gareth Glover, 2014. In this new series, acclaimed Napoleonic scholar Gareth Glover brings together previously unpublished material relating to the Battle of Waterloo. The hitherto unseen British material contained in Vol 1 includes a series of letters written by a senior officer on Wellington's Staff to Sir Thomas Graham immediately following the battle, the letters of a member of the Wedgewood family in the Guards at Waterloo, the journal of Sgt Johnston of the Scots Greys detailing all his experiences including a very rare transcript of his own court martial, letters from eminent surgeons including those of Hume Davy and Haddy James who served at Waterloo with their harrowing tales of the wounds suffered. Vol 2 concerns German troops which formed the majority of Wellington's forces present at the Battle of Waterloo including those of Nassau, Brunswick, Hanover and the King's German Legion, and left a large number of first hand accounts of their role in the battle. Early British histories of the battle have largely sidelined the achievements of the German troops and there is a great need to provide an English version of much of the original German source material to redress the imbalance. This volume is intended to remedy that situation by publishing sixty of these reports and letters fully translated into English for the first time, giving a clearer insight into the significant role these troops played.

The American Sharpe Gareth Glover, 2016-10-30. Sharpe and his adventures has made the 95th Foot renowned again and the discovery of an unpublished diary by an American from Charleston, South Carolina who served despite his father's objections as an officer in this elite regiment has caused great excitement. James Penman Gairdner was born in Charleston, South Carolina but he was sent back to the Old Country for his education, receiving his schooling at Harrow. After school rather than joining his father's merchant business, he decided to become a soldier, receiving a commission in the famous 95th Rifles. He subsequently served without a break from the siege of Ciudad Rodrigo in January 1812 until the end of the war in 1814. He then fought in the Waterloo campaign and formed part of the Army of Occupation. He was wounded on three occasions. Throughout his service he kept a journal which he managed to

maintain on almost a daily basis This journal along with a number of letters that he wrote to his family have been edited by renowned historian Gareth Glover and are presented here to the public for the first time Readers will not find dramatic stories of great battles or adventurous escapades Instead Gairdner details the everyday life of one of Wellington's soldiers one of marches and billets of the weather the places and the people of the Iberian Peninsula and of Paris and Occupied France the real nature of soldiering His diaries also highlight the very strange relationship between these newly independent Americans and the Old Country they had so recently fought with which even allowed for a true American boy to fight in the British Army but not in America

Waterloo Witnesses Kristine Hughes, 2021-06-09 The events of Sunday 18 June stand as the defining moment of the year 1815 if not of an entire era The allied victory over Napoleon's French army at the Battle of Waterloo reshaped governments and boundaries made or broke fortunes and touched thousands of lives in ways both large and small and it has been analysed dissected and refought on paper a hundred times Perhaps though the very best words ever written about that momentous campaign are the first person accounts recorded as events unfolded It is these vivid accounts that Kristine Hughes has collected together in order to convey the hopes fears and aspirations of their authors They inject the story of the battle with a level of humanity that reclaims it from the realm of legend and restores it to the people who witnessed it In chronological order her work pieces together a novel view of the battle and events surrounding it as they were experienced by both military men and civilians The result is a fascinating and varied picture of the individuals involved and the society of the period Their words make compelling reading
