## **Vulnerability And Violence The Impact Of Globalisation:**

*Vulnerability and Violence* Peadar Kirby, 2006 An innovative and rigorous book Fred Halliday *Fortnight* *Vulnerability and Violence* Peadar Kirby, 2005-12-20 Vulnerability is now a key term in globalisation studies It is used to describe how globalisation impacts on individual security local communities and even global flows of trade finance and investment Yet there has been little attempt to interrogate the term and what it is trying to express about globalisation Peadar Kirby examines what is really meant by vulnerability and links it to new forms of violence that have resulted from decreased security and social cohesion He argues that vulnerability and violence are characteristic features of a new world order dominated by neoliberal globalisation Illustrating his argument with a wealth of examples taken from all over the world from the sudden collapse of the middle class in Argentina to increased levels of poverty internationally he offers a robust theoretical grounding that will be of use to anyone studying vulnerability and violence and their relation to contemporary globalisation *Globalization and Its Impact on Violence Against Vulnerable Groups* Boskovic, Milica S., 2019-08-16 Violence is most common when there is a power disparity between two groups of people and those with less power are far more likely to become the victim in a violent situation Environment has as much influence on whether or not violence will occur as the person or people involved and this relationship has drawn the attention of researchers worldwide *Globalization and Its Impact on Violence Against Vulnerable Groups* is an essential source that provides research that delves deeply into occurrences of violence and the environmental and personal influences that lead to violence in order to better understand and prevent it from happening Featuring a wide range of topics such as e blackmail human displacement and psychology this book is ideal for criminologists law enforcement psychologists therapists academicians sociologists anthropologists government officials researchers and students *Research Anthology on Child and Domestic Abuse and Its Prevention* Management Association, Information Resources, 2022-03-11 Every day both adults and children are victimized in unhealthy relationships Domestic and child abuse have surged during the COVID 19 pandemic as potential escapes from abuse at home were stripped away Abuse is a raging global issue however with enough research policy and social activism society can aid in the prevention of child and domestic abuse *The Research Anthology on Child and Domestic Abuse and Its Prevention* discusses the prevalence of domestic abuse as well as the exploitation of children both at home and beyond It further presents emerging practices in technology social work and criminology to prevent the further exploitation and victimization of adults and children in abusive situations Covering topics such as foster children gender based violence and trauma analysis this major reference work is an indispensable resource for social workers lawmakers government organizations non profit organizations psychologists therapists sociologists libraries students and educators of higher education criminologists leaders in law enforcement researchers and academicians **Cultural Perspectives on Globalisation and Ireland** Eamon Maher, 2009 In the space of a few short decades Ireland has become one of the most globalised societies in the

Western world The full ramifications of this transformation for traditional Irish communities religious practice economic activity as well as literature and the arts are as yet unknown What is known is that Ireland's largely unthinking embrace of globalisation has at times had negative consequences Unlike some other European countries Ireland has eagerly and sometimes recklessly grasped the opportunities for material advancement afforded by the global project This collection of essays largely the fruit of two workshops organised under the auspices of the Humanities Institute of Ireland at University College Dublin and the National Centre for Franco Irish Studies in the Institute of Technology Tallaght explores how globalisation has taken such a firm hold on Irish society and provides a cultural perspective on the phenomenon The book is divided into two sections The first examines various manifestations of globalisation in Irish society whereas the second focuses on literary representations of globalisation The contributors acknowledged experts in the areas of cultural theory religion sociology and literature offer a panoply of viewpoints of Ireland's interaction with globalisation **The Routledge**

**International Handbook of Globalization Studies** Bryan Turner, Robert Holton, 2015-12-22 The second edition of the Routledge International Handbook of Globalization Studies offers students clear and informed chapters on the history of globalization and key theories that have considered the causes and consequences of the globalization process There are substantive sections looking at demographic economic technological social and cultural changes in globalization The handbook examines many negative aspects new wars slavery illegal migration pollution and inequality but concludes with an examination of responses to these problems through human rights organizations international labour law and the growth of cosmopolitanism There is a strong emphasis on interdisciplinary approaches with essays covering sociology demography economics politics anthropology and history The second edition has been completely revised and features important new thinking on themes such as Islamophobia and the globalization of religious conflict shifts in global energy production such as fracking global inequalities fiscal transformations of the state and problems of taxation globalization and higher education and an analysis of the general sense of catastrophe that surrounds contemporary understandings of the consequences of a global world Vulnerable Consumers and the Law Christine Riefa, Severine Saintier, 2020-10-27 This book charts the

difficulties encountered by vulnerable consumers in their access to justice through the contributions of prominent authors academic practitioners and consultants in the field of consumer law and access to justice It demonstrates that despite the development of ADR access to justice is still severely lacking for the vulnerable consumer The book highlights that a broad understanding of access to justice which encompasses good regulation and its public enforcement is an essential ingredient alongside access to the mechanisms of traditional private justice courts and ADR to protect the vulnerable consumer Indeed many of the difficulties are linked to normative obstacles and lack of access to justice is primarily a vulnerability in itself that can exacerbate existing ones In addition because it may contribute to pushing already vulnerable consumers into social exclusion it is not simply about economic justice but also about social justice The book shows that lack of access to justice is

not irreversible nor is it necessarily linked to consumer apathy New technologies could provide solutions The book concludes with a plea for developing inclusive justice systems with more emphasis on public enforcement alongside effective courts systems to offer the vulnerable with adequate means to defend themselves This book will be suitable for both students and practitioners and all those with an interest in the justice system *Redirecting Human Rights* A. Gear, 2010-04-09 Against the backdrop of globalization and mounting evidence of the corporate subversion of the Universal Declaration of Human Rights paradigm Anna Gear interrogates the complex tendencies within law that are implicated in the emergence of corporate humanity Gear presents a critical account of legal subjectivity linking it with law's intimate relationship with liberal capitalism in order to suggest law's special receptivity to the corporate form She argues that in the field of human rights law particularly within the Universal Declaration of Human Rights paradigm human embodied vulnerability should be understood as the foundation of human rights and as a key qualifying characteristic of the human rights subject The need to redirect human rights in order to resist their colonization by powerful economic global actors could scarcely be more urgent

**A History of Regulating Working Families** Nicole Busby, Grace James, 2020-08-06 Families in market economies have long been confronted by the demands of participating in paid work and providing care Across Europe the social economic and political environment within which families do so has been subject to substantial change in the post World War II era and governments have come under increasing pressure to engage with this important area of public policy In the UK as elsewhere the tensions which lie at the heart of the paid work unpaid care conflict remain unresolved posing substantial difficulties for all of law's subjects both as carers and as the recipients of care What seems like a relatively simple goal to enable families to better balance care giving and paid employment has been subject to and shaped by shifting priorities over time leading to a variety of often conflicting policy approaches This book critiques how working families in the UK have been subject to regulation It has two aims To chart the development of the UK's law and policy framework by focusing on the post war era and the growth and decline of the welfare state considering a longer historical trajectory where appropriate To suggest an alternative policy approach based on Martha Fineman's vulnerability theory in which the vulnerable subject replaces the liberal subject as the focus of legal intervention This reorientation enables a more inclusive and cohesive policy approach and has great potential to contribute to the reconciliation of the unresolved conflict between paid work and care giving *Human Rights and Radical Social Transformation* Kathryn McNeilly, 2017-08-03 Against the recent backdrop of sociopolitical crisis radical thinking and activism to challenge the oppressive operation of power has increased Such thinkers and activists have aimed for radical social transformation in the sense of challenging dominant ways of viewing the world including the neoliberal illusion of improving the welfare of all while advancing the interests of only some However a question mark has remained over the utility of human rights in this activity and the capability of rights to challenge as opposed to reinforce discourses such as liberalism capitalism internationalism and statism It is at this point that the present

work aims to intervene Drawing upon critical legal theory radical democratic thinking and feminist perspectives Human Rights and Radical Social Transformation seeks to reassess the radical possibilities for human rights and explore how rights may be re engaged as a tool to facilitate radical social change via the concept of human rights to come This idea proposes a reconceptualisation of human rights in theory and practice which foregrounds human rights as inherently futural and capable of sustaining a critical relation to power and alterity in radical politics *Thought, Law, Rights and Action in the Age of Environmental Crisis* Anna Grear, Evadne Grant, 2015-07-31 In the climate pressed Anthropocene epoch nothing could be more urgent than fresh engagements with the fractious relationships between humanity law and the living order This timely book intelligently combines theoretical reflections doctrinal and

**The Routledge International Handbook of Globalization Studies** Bryan S Turner, 2009-12-16 The Routledge International Handbook of Globalization Studies offers students clear and informed chapters on the history of globalization and key theories that have considered the causes and consequences of the globalization process There are substantive sections looking at demographic economic technological social and cultural changes in globalization The handbook examines many negative aspects new wars slavery illegal migration pollution and inequality but concludes with an examination of responses to these problems through human rights organizations international labour law and the growth of cosmopolitanism There is a strong emphasis on interdisciplinary approaches with essays covering sociology demography economics politics anthropology and history The Handbook written in a clear and direct style will appeal to a wide audience The extensive references and sources will direct students to areas of further study

**Healing Mission** Branka Gabric, Stefan Hofmann, 2023-10-18 Theological studies on bioethical and medical issues are most often concentrated on individual health issues The COVID 19 pandemic demonstrated the extent of interconnectedness between peoples and nations and its impact on the physical and mental health of individuals groups and nations Despite numerous studies on the ethical social and medical challenges of this pandemic there is still a considerable gap regarding the need to consider the role of the Catholic Church in the context of public and global health The contributions of this book provide resourceful materials for the reflection coming from medical global health moral theological bioethical mission theological perspectives and from the perspective of pastoral care of health *The Routledge Companion to Gender and COVID-19* Linda C. McClain, Aziza Ahmed, 2024-04-30 The Routledge Companion to Gender and COVID 19 is the first comprehensive research guide for researchers and students who seek to study and evaluate the complex relationship between gender and COVID 19 This interdisciplinary collection touches on two major themes first how gender played a central role in shaping access to testing treatment and vaccines Second how the pandemic not only deepened existing gender inequalities but also those along the lines of race class sexuality disability and immigration status Bringing together a diverse range of international scholars across a number of disciplinary perspectives this intersectional and comparative focus on COVID explores topics including the pandemic s impact on families employment childcare and

elder care human rights as well as gender and political economy and leadership public health law disability rights and abortion access The Routledge Companion to Gender and COVID 19 is an essential volume for scholars and students of Law Gender Studies Sociology Health Economics and Politics *Research Handbook on Fundamental Concepts of Environmental Law* Douglas Fisher, 2022-11-25 This expanded and updated Research Handbook delivers an authoritative and in depth guide to the conceptual foundations of environmental law It offers a nuanced reflection on the underlying principles by exploring issues such as human rights constitutional rights sustainable development and environmental impact assessment within the context of environmental law *The Power and Vulnerability of Love* Elizabeth O'Donnell Gandolfo, 2015-02-01 Gandolfo constructs a theological anthropology that begins with the condition of human vulnerability as a site to answer why human beings experience and inflict terrible suffering This volume argues that vulnerability is a dimension of human existence that causes us great anxiety which forms the basis for violence but also affords the possibility of human openness to the redemptive work of divine love Poised paradoxically between tragic and redemptive vulnerability human beings need existential resources and empowering practices to cope with and manage our vulnerability in more compassionate ways

**Feminist Challenges or Feminist Rhetorics? Locations, Scholarship, Discourse** Kirsti Cole, 2014-03-17 The chapters collected in this book generate discussion about the intersections of feminisms and rhetorics as well as the ways in which those intersections are productive This collection focuses on the locations of feminist rhetorics the various discourses that invoke feminism or feminist and the scholarship that provokes challenges and deliberates issues of key concern In focusing on challenge and location this collection acknowledges the academic and socio discursive spaces that feminisms and rhetorics on or about feminisms inhabit Feminism but also women and what it means to be a woman is a signifier under siege in public discourse The chapters included here speak to the challenges and diversities of feminist rhetoric and discourse in public and private life in the academy and in the media The authors represented in this collection present potential consequences for communities in the academy and beyond spanning international geopolitical racial and religious contexts

*The Idea of Haiti* Millery Polyné, 2013-05-17 After Haiti was struck by a devastating earthquake on January 12 2010 aid workers and offers of support poured in from around the world Tellingly though news reports on the catastrophe and relief efforts frequently included a pejorative description of the country that outsiders were determined to rebuild the troubled island nation a nation plagued by political violence There was much talk of inventing a new Haiti which would presumably mimic Western modes of development and thus mitigate political instability and crisis As contributors to this wide ranging book reveal Haiti has long been marginalized as an embodiment of alterity as the other and the idea of a new Haiti is actually nothing new An investigation of the notion of newness through the lenses of history and literature urban planning religion and governance *The Idea of Haiti* illuminates the politics and the narratives of Haiti's past and present The essays which grow from original research and in depth interviews examine how race class and national development inform the policies

that envision re creating the country Together the contributors address important questions How will the present narratives of deviance affect international relief and rebuilding efforts What do Haitians themselves think about Haiti old and new What are the potential complications and weakness of aid strategies during these trying times And what do we mean by crisis in Haiti Contributors Yveline Alexis Rutgers U Wein Weibert Arthus State U of Haiti Greg Beckett Bowdoin College Alex Dupuy Wesleyan U Harley F Etienne U of Michigan Robert Fatton Jr U of Virginia Sibylle Fischer New York U Elizabeth McAlister Wesleyan U Nick Nesbitt Princeton U Karen Richman U of Notre Dame Mark Schuller York College CUNY Patrick Sylvain Brown U velyne Trouillot State U of Haiti Tatiana Wah Columbia U      **The Politics of Civil Society** Fred

Powell,2013-04-24 In this fully revised edition of his groundbreaking book Fred Powell looks behind the mirror of power to discover the real civil society or Big Society that lies beneath it Articulating three forms of civil society radical liberal and conservative he examines a complex interplay between state and community arguing that citizens contend for power via civil society This is both a historic pursuit dating to antiquity and a contemporary democratic struggle between competing visions of modernity the stakes of which are no less than real politics themselves as experienced by everyday citizens The second edition includes a new concluding chapter on practical and policy implications      *Contemporary Issues Facing Families*

Ileana Rogobete,Alexandru Neagoe,2014-09-26 The rapid social and economic changes together with the growing diversity and complexity of family life make it imperative for professionals to redefine the conceptual framework for understanding contemporary families towards more holistic approaches The present volume brings together the contributions of different academics and practitioners working in various fields of activity psychology psychotherapy sociology social work theology education medicine and other related disciplines The deliberate goal of this interdisciplinary dialogue is a shift in the focus of the discourse regarding families from the all too common tendency of viewing them in terms of dysfunctions and pathological symptoms towards exploring and celebrating family strengths resilience hope and transformation
