Abstract

By embracing the ontological view of vulnerability and stressing its social basis, the paper aims to clarify the role of vulnerability within human rights paradigm.

Vulnerability is conceived of by the author as a heuristic notion, which works as a pillar for a general approach to some crucial challenges to human dignity. Both this heuristic notion and these challenges are regarded in the paper as hallmarks for the human rights paradigm.

In order to ground this view, the coherence between “vulnerability turn” and the rationale of human rights relies on a four-steps argument dealing with: (i) the denial of a necessary mismatch between the notion of vulnerability and the principle of autonomy; (ii) the appreciation of *relation* in human rights conceptualization; (iii) the complementarity between vulnerability, as a heuristic notion, and the principle of equality; (iv) the understanding of vulnerability as a “vehicle of empathy” not necessarily involving paternalist trends and therefore not in conflict with the empowerment purposes of human rights.

The relevance of “vulnerability turn” in human rights paradigm is defended in the paper within a view of human rights as basic rights, i.e. as means to prevent or fight against those threats that seriously affect basic human needs.

Keywords Basic rights · Equality · Human Rights · Judicial Reasoning · Ontological Vulnerability · Relational Autonomy

* I would like to thank the two anonymous reviewers for their remarks to the first version of the paper.

Vulnerability And Human Rights Essays On Human Rights:

Vulnerability and Human Rights Bryan S. Turner, 2015-10-29 The mass violence of the twentieth century's two world wars followed more recently by decentralized and privatized warfare manifested in terrorism ethnic cleansing and other localized forms of killing has led to a heightened awareness of human beings vulnerability and the precarious nature of the institutions they create to protect themselves from violence and exploitation This vulnerability something humans share amid the diversity of cultural beliefs and values that mark their differences provides solid ground on which to construct a framework of human rights Bryan Turner undertakes this task here developing a sociology of rights from a sociology of the human body His blending of empirical research with normative analysis constitutes an important step forward for the discipline of sociology Like anthropology sociology has traditionally eschewed the study of justice as beyond the limits of a discipline that pays homage to cultural relativism and the value neutrality of positivistic science Turner's expanded approach accordingly involves a truly interdisciplinary dialogue with the literature of economics law medicine philosophy political science and religion

Human Rights, Security Politics and Embodiment Aneira J. Edmunds, 2023-12-05 Virtuous institutions such as human rights ones have been neglected by securitization theory's focus on the national state apparatus as the key driver of security politics This book challenges this assumption showing the ways institutional human rights deemed the most progressive of rights have been complicit in rendering the body vulnerable While the book principally focuses on the treatment of the veiled woman it also considers wider cases involving torture the ultimate removal of control over one's body and biggest transgression of human rights supposed foundational commitment to bodily integrity

Environmental Change, Forced Displacement and International Law Isabel M. Borges, 2018-12-07 This book explores the increasing concern over the extent to which those suffering from forced cross border displacement as a result of environmental change are protected under international human rights law Formally they are not entitled to admission or stay in a third state country a situation that has been identified as an international legal protection gap The book seeks to provide answers to two basic questions whether and to what extent existing international law protects cross border environmental displacement and whether and how existing formalized regional complementary protection standards can interpretively solidify and conceptualize protection for cross border environmental displacement The discussion outlines that the protection of the human person is not only an ex post facto obligation of states but must be increasingly seen as an ex ante one The analysis further suggests that the European Union regionally orientated protection regime can help states to consolidate an evolving protection paradigm of proactive and reactive measures being erected at the international level It can also narrow the identified legal protection gaps In so doing it helps states to reconceptualise protection as a holistic and dynamic enterprise This book will be of great interest to academics in law political science and human rights policy makers and civil society organisations both at national and international level

to become researchers practitioners policy makers and activists this collection of essays will demonstrate the multifaceted landscape of human rights and the multiple forces philosophical political cultural economic historical that affect it

Theoretical Perspectives on Human Rights and Literature Elizabeth Swanson Goldberg, Alexandra Schultheis Moore, 2013-03-01 What can literary theory reveal about discourses and practices of human rights and how can human rights frameworks help to make sense of literature How have human rights concerns shaped the literary marketplace and how can literature impact human rights concerns Essays in this volume theorize how both literature and reading literarily can shape understanding of human rights in productive ways Contributors to Theoretical Perspectives on Human Rights and Literature provide a shared history of modern literature and rights theorize how trauma ethics subjectivity and witnessing shape representations of human rights violations and claims in literary texts across a range of genres including poetry the novel graphic narrative short story testimonial and religious fables and consider a range of civil political social economic and cultural rights and their representations The authors reflect on the imperial and colonial histories of human rights as well as the cynical mobilization of human rights discourses in the name of war violence and repression at the same time they take seriously Gayatri Spivak's exhortation that human rights is something that we cannot not want exploring the central function of storytelling at the heart of all human rights claims discourses and policies

The Human Rights Graphic Novel Pramod K. Nayar, 2020-11-25 This book studies human rights discourse across a variety of graphic novels both fiction and non fiction originating in different parts of the world from India to South Africa Sarajevo to Vietnam with texts on the Holocaust the Partition of the Indian subcontinent the Rwandan and Sarajevan genocides the Vietnam War comfort women in World War II and the Civil Rights movement in the USA to mention a few The book demonstrates the emergence of the universal subject of human rights despite the variations in contexts It shows how war rape genocide abuse social iniquity caste and race erode personhood in multiple ways in the graphic novel which portrays the construction of vulnerable subjects the cultural trauma of collectives the crisis and necessity of witnessing and resilience resistance through specific representational and aesthetic strategies It covers a large number of authors and artists Joe Sacco Joe Kubert Matt Johnson Walter Pleece Guy Delisle Appupen Thi Bui Olivier Kugler and others Through a study of these vastly different authors and styles the book proposes that the graphic novel as a form is perfectly suited to the culture and the lingua franca of human rights due to its amenability to experimentation and the sheer range within the form The book will appeal to scholars in comics studies human rights studies visual culture studies and to the general reader with an interest in these fields

Disability in International Human Rights Law Gauthier de Beco, 2021-08-12 This book examines what international human rights law has gained from the new elements in the UN Convention on the Rights of Persons with Disabilities CRPD It explores how the CRPD is intricately bound up with other international instruments by studying the relationship between the Convention rights and those protected by other human rights treaties as well as the overall objectives of the UN Using a

social model lens on disability the book shows how the Convention sheds new light on the very notion of human rights The book provides a theoretical framework which explicitly integrates disability into international human rights law It explains how the CRPD challenges the legal subject by drawing attention to distinct forms of embodiment before introducing the idea of the disabled subject which stems from a recognition that all individuals encounter disability related issues during their lives The book also shows how to apply this theoretical framework to several rights and highlights the consequences for the implementation of human rights treaties as a whole It builds upon the literature of disability studies and legal and political theory as well as drawing upon the recommendations of treaty bodies and reports of UN agencies and disabled people's organisations This book thereby provides an agenda setting analysis for all human rights experts by showing the benefits of placing disabled people at the heart of international human rights law

Migration and the European Convention on Human Rights Başak Çalı, Ledi Bianku, Iulia Motoc, 2021-02-25 This edited collection investigates where the European Convention on Human Rights as a living instrument stands on migration and the rights of migrants This book offers a comprehensive analysis of cases brought by migrants in different stages of migration covering the right to flee who is entitled to enter and remain in Europe and what treatment is owed to them when they come within the jurisdiction of a Council of Europe member state As such the book evaluates the case law of the European Convention on Human Rights concerning different categories of migrants including asylum seekers irregular migrants those who have migrated through domestic lawful routes and those who are currently second or third generation migrants in Europe The broad perspective adopted by the book allows for a systematic analysis of how and to what extent the Convention protects non-refoulement migrant children family rights of migrants status rights of migrants economic and social rights of migrants as well as cultural and religious rights of migrants

The Cambridge Companion to Global Literature and Slavery Laura Murphy, 2022-12-22 The Cambridge Companion to Global Literature and Slavery reveals the way recent scholarship in the field of slavery studies has taken a more expansive turn in terms of both the geographical and the temporal These new studies perform area studies driven analyses of the representation of slavery from national or regional literary traditions that are not always considered by scholars of slavery and explore the diverse range of unfreedoms depicted therein Literary scholars of China Central Asia the Middle East and Africa provide original scholarly arguments about some of the most trenchant themes that arise in the literatures of slavery authentication and legitimation ethnic formation and globalization displacement exile and alienation representation and metaphorization and resistance and liberation This Cambridge Companion to Global Literature and Slavery is designed to highlight the shifting terrain in literary studies of slavery and collectively challenge the reductive notion of what constitutes slavery and its representation

The Politics of Vulnerable Groups Fabio Macioce, 2022-07-02 This book describes and analyzes the conceptual ambiguity of vulnerability in an effort to understand its particular applications for legal and political protection when relating to groups Group vulnerability has become a common concept

within legal and political scholarship but remains largely undertheorized as a phenomenon itself At the same time in academia and within legal circles vulnerability is primarily understood as a phenomenon affecting individuals and the attempts to identify vulnerable groups are discredited as essentialist and stereotypical In contrast this book demonstrates that a conception of group vulnerability is not only theoretically possible but also politically and legally necessary Two conceptions of group vulnerability are discussed one focuses on systemic violence or oppression directed toward several individuals while another requires a common positioning of individuals within a given context that conditions their agency ability to cope with risks and uncertainties and manage their consequences By comparing these two definitions of group vulnerability and their implications Macioce seeks a more precise delineation of the theoretical boundaries of the concept of group vulnerability

Irregular Migrants and the Right to Health Stefano Angelieri, 2022-08-04 In our globalised world where inequality is deepening and migration movements are increasing states continue to maintain strong regulatory control over immigration health and social policies Arguments based on state sovereignty can be employed to differentiate irregular migrants from other groups and reduce their right to physical and mental health to the provision of emergency medical care even where resources are available Drawing on the enabling and constraining factors of human rights law and public health this book explores the scope and limits of the right to health of migrants in irregular situations in international and European human rights law Addressing these peoples health solely with an exceptional medical paradigm is inconsistent with the special attention granted to people in vulnerable situations and non discrimination in human rights the emerging rights based approach to disability the social priorities of public health and the interdependence of human rights

Intertwining Criminal Justice and Immigration Control in the EU Niovi Vavoula, Evangelia (Lilian) Tsourdi, Valsamis Mitsilegas, 2025-09-09 This book offers a contemporary understanding of the state of the art of crimmigration with a focus on the European Union and challenges this paradigm of intersecting criminal justice and immigration control The contributions to this book explore the conceptual and philosophical underpinnings of EU and national policies intertwining criminal and migration law as well as their practical use and abuse They analyse migration control through criminal law from multidisciplinary and interdisciplinary perspectives incorporating insights from law philosophy and criminology The book revisits fundamental questions on the suitability of criminal law to regulate and govern migration and provides insights as to whether and how the law should be amended to limit the negative consequences of the criminalisation of migration The authors critique the key legal challenges crimmigration poses in terms of legality fundamental rights and rule of law adherence Finally this volume outlines through concrete examples how criminalisation of migration translates into the emergence of hostile environments for migrants and those who assist them This book will be of interest to criminologists sociologists legal scholars and all those engaged in studies on migration and the European Union

The Ethos of a Late-Modern Citizen Stephen K. White, 2009-03-31 White contends that Western democracies face novel challenges

demanding our reexamination of the role of citizens He argues that the intense focus in the past three decades on finding general principles of justice for diversity rich societies needs to be complemented by an exploration of an ethos to adequately sustain any such principles
