different policy paths were consolidated Yamagishi argues that these disparate outcomes were the result of each nation's respective war experience He looks closely at postwar Japan and investigates how political struggles between the American occupation authority and U S domestic forces such as the American Medical Association helped solidify the existing Japanese health insurance system Original and tightly argued this volume makes a strong case for treating total war as a central factor in understanding how the health insurance systems of the two nations grew while bearing in mind the dual nature of government intervention however slight in health care Those interested in debates about health care in Japan the United States and other countries and especially scholars of comparative political development will appreciate and learn from Yamagishi's study

### **Continuity and Change in Contemporary Capitalism**

Herbert Kitschelt, 1999-01-13 In the early 1980s many observers argued that powerful organized economic interests and social democratic parties created successful mixed economies promoting economic growth full employment and a modicum of social equality The present book assembles scholars with formidable expertise in the study of advanced capitalist politics and political economy to reexamine this account from the vantage point of the second half of the 1990s The authors find that the conventional wisdom no longer adequately reflects the political and economic realities Advanced democracies have responded in path dependent fashion to such novel challenges as technological change intensifying international competition new social conflict and the erosion of established patterns of political mobilization The book rejects however the currently widespread expectation that internationalization makes all democracies converge on similar political and economic institutions and power relations Diversity among capitalist democracies persists though in a different fashion than in the Golden Age of rapid economic growth after World War II
