*Criminal Justice for World War II Atrocities in China* ZHANG Binxin, 2014-10-13 War Crimes Justice Sebastian Farnham, AI, 2025-03-04 War Crimes Justice offers a critical examination of international efforts to prosecute war crimes genocide and crimes against humanity It explores the evolution of international criminal law tracing its roots from early conventions to the establishment of the International Criminal Court ICC while also assessing the practical mechanisms used by international courts and tribunals Interestingly the book emphasizes that the pursuit of accountability though

morally imperative is often complicated by political considerations and the limitations of international institutions The book delves into key topics such as defining war crimes under international law and analyzing the successes and failures of the ICC For example the book highlights the inherent tensions between universal justice and state sovereignty Through case studies and legal document analysis War Crimes Justice offers a balanced perspective on the challenges and opportunities in holding perpetrators accountable The narrative progresses by first defining key concepts before exploring the functioning of various international courts and tribunals It culminates in a critical assessment of the effectiveness of international criminal justice and considers the role of NGOs and civil society This approach provides readers with a comprehensive understanding of war crimes justice within the context of world history and international law *Globalizing Justice for Mass Atrocities* Chandra Lekha Sriram, 2005 Contemporary practice of universal jurisdiction uneven developments Beyond the famous cases universal jurisdiction and the problem of legitimacy Universal jurisdiction problems and prospects of externalizing justice Non criminal justice new actors non state actors and corporations under the Alien tort claims act Externalization reversed the hybrid experiment in East Timor Externalization reversed the hybrid experiment in Sierra Leone *Law, Politics and the Limits of Prosecuting Mass Atrocity* Damien Rogers, 2017-08-30 This book offers a unique and powerful critique of the quest for international criminal justice It explores the efforts of three successive generations of international prosecutors recognising the vital roles they play in the enforcement of international criminal law By critically examining prosecutorial performance during the pre trial and trial phases the volume argues that these prosecutors are simultaneously political actors serving in the interests of economic liberalisation It also posits that international prosecutors help wage a mostly silent and largely unacknowledged politico cultural war fought for control over the institutions governing modernist international affairs As the author contends international prosecutors are thus best understood as agents not only of the law and politics but also of a war fought by proponents of various utopian projects **Responding to Mass Atrocities in Africa** Raymond Kwun-Sun Lau, 2021-12-14 This book explores the relationship between the Responsibility to Protect R2P and the International Criminal Court ICC challenging the assumption that they are always mutually reinforcing or complementary and examining instead the many tensions which arise between the immediate imperative of saving lives and the more long term prospect of punishing perpetrators and preventing future conflicts through deterrence Around the world audiences in the mid 1990s watched the mass atrocities unfolding in Rwanda and Srebrenica in horror and disbelief Emerging from these disasters came an international commitment to safeguard and protect vulnerable communities as laid out in the R2P principle and an international responsibility to punish perpetrators with the establishment of the ICC The book provides context independent proposals for resolving contradictions between the two principles suggesting that focusing on timing and sequencing in invoking international R2P and ICC actions could facilitate the easing of tensions Drawing on examples from Uganda Kenya and Darfur the book applies International Relations concepts and theories in order to deepen

our understanding of international responses to mass atrocities Ultimately the book concludes that a Protection First Justice Later sequence approach is necessary for managing the tension and facilitating more effective and consistent international responses This book makes an important contribution to discussions and debates surrounding international responses to genocide and mass atrocities It will be of special interest to scholars students and policymakers in International Relations Global Governance African Studies International Development Human Rights and International Criminal Law War Crimes, Atrocity and Justice Vikas Jha, 2019 Research Handbook on the Punishment of Atrocity Crimes Róisín Mulgrew, Mikkel J. Christensen, 2024-11-08 This Research Handbook examines the punishment of atrocity crime and presents a wide ranging critique of post conviction law policy and practice With a team of expert contributing authors Róisín Mulgrew and Mikkel Jarle Christensen provide insights into the impact and implications of punishment models strategies and frameworks *Beyond Victor's Justice? The Tokyo War Crimes Trial Revisited* Yuki Tanaka, Timothy L.H. McCormack, Gerry Simpson, 2011-06-09 The aim of this new collection of essays is to engage in analysis beyond the familiar victor's justice critiques The editors have drawn on authors from across the world including Australia Japan China France Korea New Zealand and the United Kingdom with expertise in the fields of international humanitarian law international criminal law Japanese studies modern Japanese history and the use of nuclear chemical and biological weapons The diverse backgrounds of the individual authors allow the editors to present essays which provide detailed and original analyses of the Tokyo Trial from legal philosophical and historical perspectives Several of the essays in the collection are based on the authors extensive archival research in Japan Australia the United States and New Zealand providing rich insights into Japanese societal attitudes towards the Trial biological experimentation by the Japanese Army in China as well as the trial of Korean prison guards and prosecutions for rape and sexual assault in the post war period Some of the essays deal with particular participants in the Trial examining the role of individual judges and the selection of defendants and the decision not to prosecute the Emperor Other essays analyse the Trial from a legal perspective and address its impact on concepts such as command responsibility conspiracy and war crimes The majority of the essays seek to identify and address some of the forgotten crimes in the Tokyo Trial These include crimes committed in China and Korea particularly the activities of the infamous Unit 731 crimes committed against comfort women and crimes associated with the atomic bombings of Hiroshima and Nagasaki the conventional firebombing of other Japanese cities and the illicit drug trade in China Finally the collection includes a number of essays which consider the importance of studying the Tokyo Trial and its contemporary relevance These issues include an examination of the way in which academics have written the Trial over the last 60 years and an analysis of some of the lessons that can be drawn for international trials in the future
