**Reasons to Forgive** Geoff Thompson, 2023-03-31 Geoff Thompson was sexually abused at the tender age of 11 by a trusted and beloved teacher. By the time he was 30 years old, he was unconsciously displacing his rage into violence, sexual self-harm, and long bouts of debilitating depression. After failing to find a solution to his burgeoning mania in all the conventional places, he set off on a Campbellian quest to find the answers for himself about abuse, about the aftermath of abuse, about the true meaning of forgiveness, its metaphysical power, and how it is possible to heal no matter how deep or how old the wound. The author assures us that there is treasure in the ruins; there can be profit in sorrow and in suffering, and with a few tried and tested, honest techniques and a heavy supply of courage, victims can reclaim their lives; they can win love, and they can find healing and inspiration post-abuse. In this deeply empirical study, Thompson reveals the true definition and the awesome power of forgiveness, clearly defining the difference between forgiving someone and letting them off. He demonstrates the power and freedom of giving it over, the revealed health benefits of releasing anger, dissonance, and resentment, the hidden power of reciprocity, avoiding the hate trap, the healing power of love and compassion, the liberating practice of personal repentance, and discovering the world to come, the exhilarating expansion we experience when ignorance is dissolved with qualified knowledge. I told my story very late, Thompson tells us, and suffered needlessly as a consequence. I'm hoping that *Reasons to Forgive* will encourage others to share their story sooner, be inspired by my living example of powerful healing, and embrace their walking wounds as beauty scars, the rich tapestry of personal survival.

**Persian Mythology: Gods Of Ancient Persia** Samuel Shephard, 2011-01-01 Discover the Epic World of Persian Mythology. Step into the enchanting realm of ancient Persia with our exclusive book bundle *Persian Mythology: Gods of Ancient Persia*. writer and editor specializing in the field of consciousness and human evolution      Unconditional Equality Ajay Skaria, 2016-02-08 Unconditional Equality examines Mahatma Gandhi's critique of liberal ideas of freedom and equality and his own practice of a freedom and equality organized around religion. It reconceives satyagraha, passive resistance, as a politics that strives for the absolute equality of all beings. Liberal traditions usually affirm an abstract equality centered on some form of autonomy, the Kantian term for the everyday sovereignty that rational beings exercise by granting themselves universal law. But for Gandhi, such equality is an equality of sword, profoundly violent, not only because it excludes those presumed to lack reason, such as animals or the colonized, but also because those included lose the power to love, which requires the surrender of autonomy or, more broadly, sovereignty. Gandhi professes instead a politics organized around dharma or religion. For him, there can be no politics without religion. This religion involves self-surrender, a freely offered surrender of autonomy and everyday sovereignty. For Gandhi, the religion that stays in all religions is satyagraha, the insistence on or of satya, being or truth. Ajay Skaria argues that conceptually, satyagraha insists on equality without exception of all humans, animals, and things. This cannot be understood in terms of sovereignty; it must be an equality of the minor.

**Future Horizons** Sarah Roger, Paul Barrett, 2023-06-13 Across more than twenty chapters, *Future Horizons* explores the past, present, and future of digital humanities research, teaching, and experimentation in Canada. Bringing together work by established and emerging scholars, this collection presents contemporary initiatives in digital humanities alongside a reassessment of the field's legacy to date and conversations about its future potential. It also offers a historical view of the important yet largely unknown digital projects in Canada. *Future Horizons* offers deep dives into projects that enlist a diverse range of approaches, from digital games to makerspaces, sound archives to born-digital poetry, visual arts to digital textual analysis, and that work with both historical and contemporary Canadian materials. The essays demonstrate how these diverse approaches challenge disciplinary knowledge by enabling humanities researchers to ask new questions. The collection challenges the idea that there is either a single definition of digital humanities or a collective national identity. By looking to digital engagements with race, Indigeneity, gender, and sexuality, not to mention history, poetry, and nationhood, this volume expands what it means to work at the intersection of digital humanities and humanities in Canada today. Available formats: trade paperback, accessible PDF, and accessible ePub.
