Warships Recognition Guide /revised and Edited by Anthony J. Watts Anthony J. Watts, 2006 [British Warship Recognition: The Perkins Identification Albums](#) Richard Perkins, 2017-03-31

The Richard Perkins warship identification albums form one of the most detailed studies ever undertaken of the changes to the appearance of Royal Navy ships. However, it is a unique hand-drawn manuscript artifact in the care of the National Maritime Museum, so despite its value, it is rarely seen by anyone besides the museum's curators for whom it is a precious resource used on an almost daily basis. In collaboration with the Museum, Seaforth is undertaking the first publication of this monumental work in a superbly produced multi-volume edition that captures all the qualities of the original. Every page is reproduced at full size, making the extensive handwritten annotation readable, while the fine line drawings retain all the colors that Perkins used to denote appearance differences and alterations. Following the Museum's binding arrangement, the third volume of the series is the first half of the coverage of all cruisers from the Amazon class corvettes of 1865 to the Belfast class of 1939; the second half constitutes Volume IV. Highlights of this first part include armored cruisers, the so-called large light cruisers, and the cruisers of the inter-war period. This is a publishing event of the utmost importance for every enthusiast and ship modeler who for the first time will be able to own a copy of a unique and invaluable reference work.

The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual Ron Martini, 2005. Submariners are a tight-knit group of men bound together by training and experience and with a language all their own. That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly. This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast. This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes. It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal.
