

Social Casework – Hoofdstuk 4. Exploreren

Wat is exploreren?

Probleemanalyse, diagnosestelling en indicatiestelling: definities

- Verkennen van de situatie

Het (zich laten) informeren, bevragen en verzamelen van gegevens over de hulpvrager, de situatie, de omgeving gedurende het gehele procesverloop. Het gaat hierbij niet alleen om problematizsche gegevens, maar ook om het verkennen van de competenties.

- Exploreren is horizontaal kijken en luisteren

Het is tegelijk observeren, luisteren, bevragen, doorvragen, lezen en zorgvuldig in kaart brengen.

Het gaat om een wederzijds communicatieproces.

- De social caseworker informeert de hulpvrager over de organisatie én de hulpvrager en/of diens omgeving informeert de social casework over de probleemsituatie

Verder kunnen ook zogenaamde “derden” – de professionele, functionele en persoonlijke relaties die bij het probleem betrokken zijn, de social caseworker informeren.

- Het doel is: weten, kennis opdoen, ordenen en samen leggen

Soms gaat het niet om de exploratie van de totale probleemsituatie, maar gaat het enkel om het exploreren van een (nieuw) probleemaspect. Telkens zich een nieuw probleemaspect aandient, zal de social caseworker in de loop van het proces op meerdere momenten exploreren.

Exploratie als proces

Social Casework Helen Harris Perlman, 1957-03-15 This is a basic book in social casework Its thesis is that among all the complexities within the subject matter and operations of casework there are certain constant elements forces and processes which give coherence and unity to its practice Mrs Perlman identifies and analyzes these constants and views them within the logical framework of problem solving In turn problem solving as a casework process is examined in its likeness to normal human problem solving efforts The result is an approach to learning and thinking about casework which is at once organized synthesized and imaginative The book s usefulness is enhanced by the author s lucid and pointed style

Language of Social Casework Noel Timms, 2018-11-09 Originally published in 1968 *Language of Social Casework* considers the way in which social workers commonly neglect language It is suggested that part of this neglect is due to the ways in which social workers and their critics envisage the activity of social work The traditional criticisms of philanthropy and social work are therefore reviewed and an attempt made to describe some common responses to them on the part of the practitioners This is followed by an examination of two terms that are of some importance in the language of casework the generic specific concept and the idea of the settings of casework But casework is also described in terms borrowed from other contexts it is seen as art or science as a therapy or the offer of friendship Each of these descriptions is considered in the last two chapters of the book The book also includes a brand new and fully updated preface by the author contextualising this 1968 publication in light of advancements made in the past 50 years

Social and Moral Theory in Casework (Routledge Revivals) Raymond Plant, 2009-07-15 First published in 1970 the aim of the book is to map the logical geography of an important set of concepts which enter into the theory of social casework those concerning the individual and society Concepts examined include the individually orientated values of self direction and acceptance and those of role adjustment and integration which express the individual's relation to society The author's main concern is to see whether a coherent theory of the relationship between individual and society can be given in terms of these concepts and to argue that such a theory is fundamental to casework discussion Mr Plant also discusses what if any social or political commitments the activity of casework presupposes and evaluates the view that casework is apolitical

Social Casework Arthur Schwartz, Israel Goldiamond, Michael W. Howe, 1975 Although deconstruction has become a popular catchword as an intellectual movement it has never entirely caught on within the university For some in the academy deconstruction and Jacques Derrida in particular are responsible for the demise of accountability in the study of literature Countering these facile dismissals of Derrida and deconstruction Herman Rapaport explores the incoherence that has plagued critical theory since the 1960s and the resulting legitimacy crisis in the humanities Against the backdrop of a rich informed discussion of Derrida's writings and how they have been misconstrued by critics and admirers alike *The Theory Mess* investigates the vicissitudes of Anglo American criticism over the past thirty years and proposes some possibilities for reform
