Tree Of Codes Jonathan Safran Foer:

Tree of Codes Jonathan Safran Foer, 2010 A masterful work of storytelling a unique sculptural object created through a collaborative process between Visual Editions and author A curiosity with the die cut technique was combined with the pages physical relationship to one another and how this could somehow be developed to work with a meaningful narrative This led to Jonathan deciding to use an existing piece of text and cut a new story out of it his favourite book *The Street of Crocodiles* by Bruno Schulz Writing cutting and proto typing has created a new story cut from the words of an old favourite

Bookishness Jessica Pressman, 2020-12-01 Twenty first century culture is obsessed with books In a time when many voices have joined to predict the death of print books continue to resurface in new and unexpected ways From the proliferation of shelfies to Jane Austen themed leggings and from decorative pillows printed with beloved book covers to bookwork sculptures exhibited in prestigious collections books are everywhere and are not just for reading Writers have caught up with this trend many contemporary novels depict books as central characters or fetishize paper and print thematically and formally In *Bookishness* Jessica Pressman examines the new status of the book as object and symbol She explores the rise of bookishness as an identity and an aesthetic strategy that proliferates from store window display to experimental writing Ranging from literature to kitsch objects stop motion animation films to book design Pressman considers the multivalent meanings of books in contemporary culture Books can represent shelter from or a weapon against the dangers of the digital they can act as memorials and express a sense of loss Examining the works of writers such as Jonathan Safran Foer Jennifer Egan Mark Z Danielewski and Leanne Shapton Pressman illuminates the status of the book as a fetish object and its significance for understanding contemporary fakery Bringing together media studies book history and literary criticism *Bookishness* explains how books still give meaning to our lives in a digital age **Seven Modes of**

Uncertainty C. Namwali Serpell, 2014-04-30 Literature is uncertain Literature is good for us These two ideas are often taken for granted But what is the relationship between literature's capacity to perplex and its ethical value *Seven Modes of Uncertainty* contends that literary uncertainty is crucial to ethics because it pushes us beyond the limits of our experience

Creative Writing and the Radical Nigel Krauth, 2016-07-18 The rise of digital publishing and the ebook has opened up an array of possibilities for the writer working with innovation in mind *Creative Writing and the Radical* uses an examination of how experimental writers in the past have explored the possibilities of multimodal writing to theorise the nature of writing fiction in the future It is clear that experimental writers rehearsed for technological advances long before they were invented Through an in depth study of writers and their motivations challenges and solutions the author explores the shifts creative writing teachers and students will need to make in order to adapt to a new era of fiction writing and reading *Handbook of the American Novel of the Twentieth and Twenty-First Centuries* Timo Müller, 2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and

cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s The Ambassadors to McCarthy s The Road These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification

The Near-Death of the Author John Potts,2022-11-01 In the modern world of networked digital media authors must navigate many challenges Most pressingly the illegal downloading and streaming of copyright material on the internet deprives authors of royalties and in some cases it has discouraged creativity or terminated careers Exploring technology s impact on the status and idea of authorship in today s world The Near Death of the Author reveals the many obstacles facing contemporary authors John Potts details how the online culture of remix and creative reuse operates in a post authorship mode with little regard for individual authorship The book explores how developments in algorithms and artificial intelligence AI have yielded novels newspaper articles musical works films and paintings without the need of human authors or artists It also examines how these AI achievements have provoked questions regarding the authorship of new works such as Does the author need to be human And more alarmingly Is there even a need for human authors Providing suggestions on how contemporary authors can endure in the world of data the book ultimately concludes that network culture has provoked the near death but not the death of the author

Succeeding Postmodernism Mary K. Holland,2013-04-25 While critics collect around the question of what comes after postmodernism this book asks something different about recent American fiction what if we are seeing not the end of postmodernism but its belated success Succeeding Postmodernism examines how novels by DeLillo Wallace Danielewski Foer and others conceptualize threats to individuals and communities posed by a poststructural culture of mediation and simulation and possible ways of resisting the disaffected solipsism bred by that culture Ultimately it finds that twenty first century American fiction sets aside the postmodern problem of how language does or does not mean in order to raise the reassuringly retro question of what it can and does mean it finds that novels today offer language as solution to the problem of language Thus it suggests a new way of reading antihumanist late postmodern fiction and a framework for understanding postmodern and twenty first century fiction as participating in a long and newly enlivened tradition of humanism and realism in literature

The 360° Gaze Christian Stiegler,2021-05-25 A comprehensive study of the pervasive role of immersion and immersive media in postmodern culture from a humanities and social sciences perspective Virtual reality augmented reality mixed reality and other modes of digitally induced immersion herald a major cultural and economic shift in society Most academic discussions of immersion and

immersive media have focused on the technological aspects In *The 360 Gaze* Christian Stiegler takes a humanities and social science approach emphasizing the human implications of immersive media in postmodern culture Examining characteristics common to all immersive experiences he uncovers dominant metaphors such as the rabbit hole and prevailing ideologies He raises fundamental questions about opportunities and risks associated with immersion as well as the potential effects on individuals communities and societies *Fictionality and Multimodal Narratives* Torsa Ghosal, Alison Gibbons, 2023-08

Fictionality and Multimodal Narratives interrogates the relationship of fictionality and the multimodal use of fact in modern narrative construction **Uljana Wolf** Áine McMurtry, 2025-11-03 Against highly current debates on multilingual literary production this original study of the acclaimed contemporary poet translator Uljana Wolf considers how lyric verse is being creatively revitalised through experimental practices across languages genres and media Based in Berlin and New York Wolf is concerned to explore and contest political and linguistic borders through poetry and translation as a poetic practice Despite considerable critical acclaim Wolf's writing has not yet formed the subject of any book length study likely due to its radical form and resistance to straightforward categorisations This English language volume will form the first published collection dedicated to Wolf's oeuvre and ensure that her work is made accessible to the increasing numbers of scholars and students working on multilingual literature Original contributions by Wolf and her translators will consolidate the volume's status as a landmark intervention concerned to trace the aesthetics and politics of Wolf's linguistic and formal experiments Responding to urgent questions driving comparative literature studies today our contributors will focus on Wolf's multilingual works her translational networks and radical textual politics
