Weeks,Harmon P. Weeks Jr.,George R. Parker,2011-01-07 Native Trees of the Midwest is a definitive guide to identifying trees in Indiana and surrounding states written by three leading forestry experts Descriptive text explains how to identify every species in any season and color photographs show all important characteristics Not only does the book allow the user to identify trees and learn of their ecological and distributional attributes but it also presents an evaluation of each species relative to its potential ornamental value for those interested in landscaping Since tree species have diverse values to wildlife an evaluation of wildlife uses is presented with a degree of detail available nowhere else The revised and expanded second edition contains a chapter on introduced species that have become naturalized and invasive throughout the region All accounts have been reviewed and modifications made when necessary to reflect changes in taxonomy status or wildlife uses Keys have been modified to incorporate introduced species **Illinois Wetland Restoration and Creation Guide** Alicia Nugteren Admiraal,1997 Planning for wetland restoration and creation summary Planning for wetland restoration and creation Setting goals Defining objectives Establishing performance standards Site assessment summary Introduction Assessment tasks Soils Hydrogeology Water quality Vegetation Wildlife Designing restored and created wetlands summary Designing restored and created wetlands Introduction Guidelines Design for wetland function Site and topographic surveys Design elements Components of a landscape plan Constructing restored and created wetlands summary Introduction Preparatory tasks Monitoring tasks during construction Earth moving equipment Additional construction tasks Establishing vegetation Post construction site evaluation Monitoring restored and created wetlands summary Introduction Developing a monitoring plan Preconstruction monitoring tasks Monitoring tasks during construction Post construction monitoring tasks Water quality Vegetation Invertebrate wildlife Additional monitoring tasks Post monitoring site evaluation Managing wetlands management objectives Management methods Water level manipulation Mechanical techniques for vegetation control Biological controls Mechanical techniques for wildlife control Habitat enhancement Managing human use of wetlands management schedules Potential participants in management programs **The Urban Tree Book** Arthur Plotnik,2009-11-10 Open The Urban Tree Book and discover the joys of forest trekking right in your city or town This first of a kind field guide introduces readers to the trees on their block in neighborhood parks and throughout the urban landscape Unlike traditional tree guides with dizzying numbers of woodland species The Urban Tree Book explores nature in the city

describing some 200 tree types likely to be found on North America's streets and surrounding spaces including suburban settings. With telling descriptions and precise botanical detail, this unique guide not only identifies trees but brings them to life through history, lore, anecdotes, up-to-date facts, and hundreds of fascinating characteristics. More than 175 graceful illustrations capture the charm of trees in urban settings and depict leaf, flower, fruit, and bark features for identification and appreciation. The Urban Tree Book will inform even the most knowledgeable plant person and delight urbanites who simply enjoy strolling beneath the shade of welcoming trees. An engaging excursion into the urban forest, this complete guide to city trees will both entertain and enlighten nature lovers, urban hikers, gardeners, and everyone curious about their environment. Includes a tree planting and care section, tree primer, and exploration guide. Is backed by the expertise of the renowned Morton Arboretum. Incorporates new urban forestry perspectives. Covers urban trees across the continent. Lists key organizations and institutions for tree lovers. Selects the best tree sites on the Internet. Updates many guides by 20 years.

Divining, a Memoir in Trees Maureen Dunphy, 2023-02-21. Essays exploring the intimate yet universal intersection of one human life with trees. A 2024 selection by the Sierra Club Wisconsin Chapter Book Club. Finalist for the Midwest Book Awards. In sixteen essays, each named after a species of tree, Maureen Dunphy explores the nature of human arboreal relationships and how each of these trees has literally served as a friend, a confidante, or a place to rest. The depth and diversity of these relationships are revealed through essays that are both intimate and universal, moving and informative. While Dunphy's relationships with trees are unique and personal, her work reveals the deep-rooted complexity that connects all of humanity to our staunch, upright companions in life: the members of the Standing Nation. Beyond providing oxygen, food, and shelter, trees can be sites of emotional refuge, sources of intellectual enrichment, and a boon to physical, mental, and spiritual health. With essays such as "Stairway to Heaven," "The American Sycamore," and "Rocky Mountain High," "The Colorado Pinyon," Dunphy gives readers many ways to reimagine our relationships with nature and self. Within reflections of her personal experience, she skillfully integrates scientific facts to achieve a balance of passion and practicality. While technology screens and the stress of the modern world direct our attention elsewhere, Dunphy brings the reader back to the trees right outside our windows.
