A Concise Companion to Middle English Literature Marilyn

Corrie, 2013-12-24 This concise companion examines contexts that are essential to understanding and interpreting writing in English produced in the period between approximately 1100 and 1500. The essays in the book explore ways in which Middle English literature is different from the literature of other periods. The book includes discussion of such issues as the religious and historical background to Middle English literature, the circumstances and milieu in which it was produced, its linguistic features, and the manuscripts in which it has been preserved. Amongst the great range of writers and writings discussed, the book considers the works of the most widely read Middle English author, Chaucer, against the background of the period that he both typifies and subverts. An accessible resource that examines contexts essential to understanding and interpreting writing of the Middle English period. Chapters explore the distinctiveness of Middle English literature. Brings together discussion and analysis by an international team of Middle English specialists incorporating fresh material and new insights. Includes analysis of Chaucer's writings and considers them in relation to the work of his Middle English predecessors, contemporaries, and successors. Incorporates discussion of issues steering the perception of Middle English literature in the present day.

Fred D'Aguiar and Caribbean Literature Leo

Courbot, 2019-02-26 With Fred D'Aguiar and Caribbean Literature, Metaphor Myth Memory, Leo Courbot offers the first research monograph entirely dedicated to a comprehensive reading of the verse and prose works of Fred D'Aguiar, a prized American author of Anglo-Guyanese origin. Postcolonial criticism, when related to the history of the African diaspora, regularly inscribes itself in the wake of Sartrean philosophy. However, Fred D'Aguiar's both typical and untypical Caribbean background, in addition to the singularity of his diction, call for a different approach, which Leo Courbot convincingly carries out by reading literature in the light of Jacques Derrida and Édouard Glissant's less conventional sense of the intrinsically metaphorical and cross-cultural nature of language.
