communication is grounded in values systems of cultures Here communication is treated as a distributed phenomenon involving networks of persons activities and artifacts and extends beyond doctor patient relationships to working in and across teams around patients The purpose of the book is to stimulate thinking about how patient care and safety may be improved through a focus upon the non technical work of doctors interpersonal communication teamwork and situation awareness in teams The focus is then not on the personality of the doctor but on the dynamics of relationships which form doctors multiple identities

Leadership, Coaching and Followership Ann M. Brewer, 2013-09-14 This volume presents evidence based ideas on all three converging forces to suit an array of individuals and their organisations The volume is thick with evidence detail and case studies that the reader can draw upon and apply to their own situations Defining exactly what is leadership has been a persistent problem for researchers and theorists Discovering how to create or produce leaders likewise has been a difficult challenge over the years Written by an academic executive and coach the author focuses on three important converging aspects leadership followership and coaching Focus on leaders is disproportionate to what actually occurs within most organisations especially the relationship between the leader and the followers That leadership is tantamount with being in control of a situation is challenged together with the belief that leadership capability is primarily shaped in line with a set of success criteria The coach plays a significant part in this process although rarely visible
