

## Chapter 5: Demand and Supply

Name \_\_\_\_\_

### Section 5.1 – Introduction

Directions: Plot the 10 points from your demand schedule and connect them to create a demand curve.

**Demand Schedule for Product X**

| Price | Number of Students Willing and Able to Buy |
|-------|--------------------------------------------|
| \$10  | 2                                          |
| 9     | 2                                          |
| 8     | 4                                          |
| 7     | 6                                          |
| 6     | 8                                          |
| 5     | 10                                         |
| 4     | 12                                         |
| 3     | 15                                         |
| 2     | 21                                         |
| 1     | 24                                         |

Now answer these questions.

1. Why might some students be willing to pay \$10 for this product?
2. Why might some students choose not to pay even \$1 for this product?
3. You have created a demand curve for the product. What happens to the quantity demanded for this product when the price goes down? When the price goes up?
4. Most demand curves look similar to the one you created. Given this, what do you think the "law of demand" might say? See page 75 side right bar.
