Anthology of Drama William B. Worthen,1993 **The Classics in the American Theater of the 1960s and Early 1970s** Marianthe Colakis,1993-03-16 This book traces modern versions and adaptations of Greek tragedies in the recent past The author provides a survey of the most significant and characteristic drama and shows how classically based dramas reflected the chaotic decade in which they had been written both through their form and the artist s vision they depicted After the culture of the 1950s had embraced Freudian language and comfort so readily the departure from this norm in the 1960s left the ancient heroes and heroines free to be themselves again This decade was more hospitable to a dark view of life as the playwright moved away from the fate of the individual towards the fate of humankind as a whole The widespread mistrust of technology as a solution to problems led to a romantic vision of primitive life and the recreation of the power in Greek tragedy by re introducing its supposed ritual origins Plays discussed include *The Prodigal* by Jack Richardson *Prometheus Bound* by Robert Lowell *Heracles* by Archibald MacLeish *Dionysus in 69* by The Performance Group *Antigone* by The Living Theatre and *The Orphan* by David Rabe **From Action to Ethics** Constantine Sandis,2024-01-11 Over the course of the last 15 years Constantine Sandis has advanced our understanding of the role that action plays in shaping our moral thought In this collection of his best essays in the philosophy of action Sandis brings together updated versions of his writings accompanied by a new introduction Read collectively they demonstrate the breadth of his interests and ability to relate to broader issues within the culture connecting debates in philosophical psychology about motivation negligence and moral responsibility with Greek tragedy social psychology and literature Along this path from action to ethics Sandis engages with Hegel Wittgenstein Anscombe Ricoeur Davidson and Dretske together with contemporary authors such as Jennifer Hornsby and Jonathan Dancy As he responds to each thinker and theme he develops his own philosophical position the key thesis of which is that philosophy of action without ethics is empty ethics without philosophy of action is blind **The**
