put pen to paper on what the literary life is all about. Selections come from seasoned professionals as well as those just establishing their voice and they represent a variety of nationalities and genres. The book is divided into three sections. The first part is devoted to the creative process including thoughts on where writers get their ideas, the role of inspiration, what kind of people write and where talent comes from. In part two, the subject shifts to writing as a craft. Here authors ponder the creation of protagonists and points of view, the writing of dialogue, setting and description, creating plots and the anatomy of style. The final third of the book deals with the challenges and rewards that come with the writing life. Subjects in this section include the economic realities of writing, classes, conferences and workshops, dealing with rejection and bad reviews, writing habits and rituals, despair, alcohol, suicide and fame. Articulated with elegant metaphor in straightforward prose or with wit, the carefully selected and thoughtfully organized quotations come together to form a narrative that entertains, informs and in the case of aspiring writers, shows the way to better writing.
